AN ACT TO ESTABLISH IN THE TOWN OF NATICK REPRESENTATIVE TOWN GOVERNMENT BY LIMITED TOWN MEETINGS. Chap. 2

Be it enacted, etc., as follows:

SECTION 1. There is hereby established in the town of Natick the form of representative town government by limited town meetings hereinafter set forth.

SECTION 2. Upon the acceptance of this act by the town of Natick as hereinafter provided, the selectmen shall forthwith divide the territory thereof into voting precincts, each of which shall be plainly designated and shall contain not less than four hundred registered voters. The precincts shall be so established as to consist of compact and contiguous territory to be bounded, as far as possible, by the center line

of known streets and ways or by other well-defined limits. Their boundaries shall be reviewed, and, if need be, wholly or partly revised, by the selectmen in December, once in five years, or in December of any year when so directed by a vote of a representative town meeting held not later than November twentieth of that year. The foregoing provisions of this section shall not authorize any action contrary to the provisions of section nine A of chapter fifty-four of the General Laws.

The selectmen shall, within ten days after any establishment or revision of the precincts, file a report of their doings with the town clerk, the registrars of voters and the assessors, with a map or maps or description of the precincts and the names and residences of the registered voters therein. The selectmen shall also cause to be posted in the town hall a map or maps or description of the precincts as established or revised from time to time, with the names and residences of the registered voters therein; and they shall also cause to be posted in at least one public place in each precinct a map or description of that precinct, with the names and residences of the registered voters therein. The division of the town into voting precincts and any revision of such precincts shall take effect upon the date of the filing of the report thereof by the selectmen with the town clerk. Whenever the precincts are established or revised, the town clerk shall forthwith give written notice thereof to the state secretary, stating the number and designation of the precincts. Meetings of the registered voters of the several precincts for elections, for primaries, and for voting upon any question to be submitted to all the registered voters of the town, shall be held on the same day and at the same hour and at such place or places within the town as the selectmen shall in the warrant for such meeting direct. The provisions of chapters fifty to fifty-six, inclusive, of the General Laws, relating to precinct voting at elections, so far as the same are not inconsistent with this act, shall apply to all elections and primaries in the town upon the establishment of voting precincts as hereinbefore provided.

SECTION 3. Other than the officers designated in the by-laws of the town as town meeting members at large, the representative town meeting membership shall in each precinct consist of the largest number divisible by three which will admit of a representation thereof in the approximate proportion which the number of registered voters therein bears to the total number of registered voters in the town, and which will cause the total elected membership to be as nearly two hundred and forty as may be.

The registered voters in every precinct shall, at the first annual town election held after the establishment of such precinct, and the registered voters of any precinct affected by any revision of precincts shall at the first annual town election following such revision, conformably to the laws relative to elections not inconsistent with this act, elect by

ballot the number of registered voters in the precinct, other than the officers designated in the by-laws as town meeting members at large, provided for in the first sentence of this section, to be town meeting members of the town. The first third, in the order of votes received, of members so elected shall serve three years, the second third in such order shall serve two years, and the remaining third in such order shall serve one year, from the day of the annual town meeting; in case of a tie vote affecting the division into thirds, as aforesaid, the members elected from the precinct shall by ballot determine the same; and thereafter, except as is otherwise provided herein, at each annual town election the registered voters of each precinct shall, in like manner, elect, for the term of three years, one third of the number of elected town meeting members to which such precinct is entitled, and shall at such election fill for the unexpired term or terms any vacancy or vacancies then existing in the number of elected town meeting members in such precinct.

The terms of office of all elected town meeting members from every precinct revised as aforesaid shall cease upon the election as hereinbefore provided of their successors. The town clerk shall, after every election of town meeting members, forthwith notify each such member by mail of his election.

SECTION 4. Any representative town meeting held under the provisions of this act, except as otherwise provided herein, shall be limited to the town meeting members elected under section three, together with such town meeting members at large as may be provided for by the by-laws of the town, and authority to adopt such by-laws is hereby conferred.

The town clerk shall notify the town meeting members of the time and place at which representative town meetings are to be held, the notices to be sent by mail at least seven days before the meeting. The town meeting members, as aforesaid, shall be the judges of the election and qualifications of their members. A majority of the town meeting members shall constitute a quorum for doing business; but a less number may organize temporarily and may adjourn from time to time, but no town meeting shall adjourn over the date of an election of town meeting members. All town meetings shall be public. The town meeting members as such shall receive no compensation. Subject to such conditions as may be determined from time to time by the members of the representative town meeting, any registered voter of the town who is not a town meeting member may speak at any representative town meeting, but shall not vote. A town meeting member may resign by filing a written resignation with the town clerk, and such resignation shall take effect on the date of such filing. A town meeting member who removes from the town shall cease to be a town meeting member, and a town meeting member who removes from the precinct from which he was elected to another precinct may serve only until the next annual town meeting.

SECTION 5. Nomination of candidates for town meeting members to be elected under this act shall be made by nomination papers, which shall bear no political designation, shall be signed by not less than ten voters of the precinct in which the candidate resides, and shall be filed with the town clerk at least ten days before the election; provided, that any town meeting member may become a candidate for re-election by giving written notice thereof to the town clerk at least thirty days before the election. No nomination papers shall be valid in respect to any candidate whose written acceptance is not thereon or attached thereto when filed.

SECTION 6. The articles in the warrant for every town meeting, so far as they relate to the election of the moderator, town officers and town meeting members, and, as herein provided, to referenda, and all matters to be acted upon and determined by ballot, shall be so acted upon and determined by the registered voters of the town in their respective precincts. All other articles in the warrant for any town meeting shall be acted upon and determined exclusively by town meeting members at a meeting to be held at such time and place as shall be set forth by the selectmen in the warrant for the meeting, subject to the referendum provided for by section nine.

SECTION 7. A moderator shall be elected by ballot at each annual town meeting, and shall serve as moderator of all town meetings, except as otherwise provided by law, until a successor is elected and qualified. Nominations for and election of a moderator shall be as in the case of other elective town officers, and any vacancy in the office may be filled by the town meeting members at a meeting held for that purpose. If a moderator is absent, a moderator pro tempore may be elected by the town meeting members.

SECTION 8. Any vacancy in the full number of town meeting members from any precinct, whether arising from a failure of the registered voters thereof to elect, or from any other cause, may be filled, until the next annual election, by the remaining members of the precinct from among the registered voters thereof. Upon petition therefor, signed by not less than ten town meeting members from the precinct, notice of any vacancy shall promptly be given by the town clerk to the remaining members from the precinct in which the vacancy or vacancies exist, and he shall call a special meeting of such members for the purpose of filling such vacancy or vacancies. He shall cause to be mailed to every such member, not less than five days before the time set for the meeting, a notice specifying the object, time and place of the meeting. At the said meeting a majority of the members from such precinct shall constitute a quorum, and they shall elect from their own number a chairman and a clerk. The choice to fill any vacancy shall be by ballot, and a majority of the votes cast shall be required for a choice. The chairman and clerk shall count the ballots and shall make a certificate of the choice and forthwith file the same with the

town clerk, together with a written acceptance by the member or members so chosen, who shall thereupon be deemed elected and qualified as a town meeting member or members, subject to the right of all the town meeting members to judge of the election and qualifications of the members as set forth in section four.

SECTION 9. A vote passed by any representative town meeting authorizing the expenditure of twenty thousand dollars or more as a special appropriation, or establishing a new board or office or abolishing an old board or office or merging two or more boards or offices, or fixing the term of office of town officers, where such term is optional, or increasing or reducing the number of members of a board, or adopting a new by-law, or amending or annulling an existing by-law, shall not be operative until after the expiration of five days, exclusive of Sundays and holidays, from the dissolution of the meeting. If, within said five days, a petition, signed by not less than three per cent of the registered voters of the town, containing their names and addresses as they appear on the list of registered voters, is filed with the selectmen asking that the question or questions involved in such a vote be submitted to the registered voters of the town at large, then the selectmen, after the expiration of five days, shall forthwith call a special meeting for the sole purpose of presenting to the registered voters at large the question or questions so involved. All votes upon any questions so submitted shall be taken in the several precinct meetings by ballot, and the check list shall be used in the same manner as in the election of town officers. The questions so submitted shall be determined by a majority vote of the registered voters of the town voting thereon, but no action of the representative town meeting shall be reversed unless at least twenty per cent of the registered voters shall so vote. Each question so submitted shall be in the form of the following question, which shall be placed upon the official ballot: — "Shall the town vote to approve the action of the representative town meeting whereby it was voted (brief description of the substance of the vote)?" If such petition is not filed within said period of five days, the vote of the representative town meeting shall become operative and effective upon the expiration of said period.

SECTION 10. The town, after the acceptance of this act, shall have the capacity to act through and to be bound by its town meeting members, who shall, when convened from time to time as herein provided, constitute representative town meetings; and the representative town meetings shall exercise exclusively, so far as will conform to the provisions of this act, all powers vested in the municipal corporation. Action in conformity with all provisions of law now or hereafter applicable to the transaction of town affairs in town meeting, shall, when taken by any representative town meeting in accordance with the provisions of this act, have the same force and effect as if such action had been taken in a

town meeting open to all the voters of the town as organized and conducted before the establishment in said town of representative town meeting government.

SECTION 11. This act shall not abridge the right of the inhabitants of Natick to hold general meetings, as secured to them by the constitution of this commonwealth; nor shall this act confer upon any representative town meeting in said town the power finally to commit the town to any measure affecting its municipal existence or substantially changing its form of government without action thereon by the voters of the town at large, using the ballot and the check list therefor.

SECTION 12. This act shall be submitted to the registered voters of the town of Natick for acceptance at an annual or special town meeting. The vote shall be taken by ballot in precincts in accordance with the provisions of the General Laws, so far as the same shall be applicable, in answer to the question which shall be placed, in case of an annual meeting, upon the official ballot to be used for the election of town officers, or, in case of a special meeting, upon the ballot to be used at said meeting: "Shall an act passed by the general court in the year nineteen hundred and thirty-eight, entitled 'An Act to establish in the town of Natick representative town government by limited town meetings', be accepted by this town?" If accepted by a majority of the voters voting thereon, this act shall thereupon take effect for all purposes incidental to the next annual town election in said town, and shall take full effect beginning with said election.

SECTION 13. If this act is rejected by the registered voters of the town of Natick when first submitted to said voters under section twelve, it may again be submitted for acceptance in like manner from time to time to such voters at any annual or special town meeting within five years thereafter, but not more than five times in the aggregate, and, if accepted by a majority of the voters voting thereon at such an election, shall thereupon take effect for all purposes incidental to the next annual town election in said town, and shall take full effect beginning with said election.

Approved January 25, 1938.

Be it enacted, etc., as follows:

SECTION 1. Section one hundred and forty-four of chapter one hundred and seventy-five of the General Laws, as amended by section three of chapter one hundred and one of the acts of nineteen hundred and thirty-three, is hereby further amended by striking out the first three paragraphs, as appearing in the Tercentenary Edition, and inserting in place thereof the four following paragraphs:—

After three full annual premiums have been paid on any policy of life or endowment insurance issued by a domestic life company after December thirty-first, nineteen hundred

and seven, the holder thereof, within thirty days after any default in the payment of a subsequent premium, may elect, by a writing filed with the company at its home office, (a) to surrender the policy and receive its value in cash, or (b) take paid-up insurance which shall be participating if the policy is on a participating basis, payable at the same time and on the same conditions as in the original contract, or (c) have the policy continued in force as extended term insurance from the anniversary date last passed for its face amount, including any outstanding dividend additions and less any indebtedness thereon or secured thereby, but without the right to loans; provided, that a policy whose proceeds are payable in instalments or as an annuity may provide that if either option (b) or (c) becomes operative the proceeds of the policy shall be payable in one sum. The cash surrender value shall be the reserve on the policy at the end of the last policy year for which the premium was paid in full, plus a proportionate part of the increase in the cash value at the end of the succeeding year if any instalment not less than a quarterly instalment of the premium for that year has been paid, and of any dividend additions thereto, computed on the mortality and interest assumption upon which the company elects to reserve as prescribed by section nine, less a surrender charge of not more than five per cent of the present value of the future net premiums, which by its terms the policy is exposed to pay in case of its continuance, computed upon the aforesaid mortality and interest basis, and less any existing indebtedness to the company on the policy or secured thereby. The company may reserve the right to defer the payment of such cash value for not exceeding ninety days after the application therefor is made. The term for which the policy will be continued or the amount of the paid-up policy will be such as the cash value will purchase as a net single premium at attained age of the insured according to the mortality and interest basis heretofore designated. But in case of an endowment policy, if the sum applicable to the purchase of extended term insurance shall be more than sufficient to continue the insurance to the end of the endowment term named in the policy, the excess shall be used to purchase in the same manner non-participating paid-up pure endowment, payable at the end of the endowment term on the same conditions.

If the holder shall not within thirty days from default surrender the policy to the company for cash as provided in option (a), or elect, by a writing filed with the company at its home office, to take paid-up insurance as provided in option (b), or to take extended term insurance as provided in option (c), the insurance will be binding upon the company from the date of default without any further stipulation or act as provided in option (b), unless the policy provides that it shall be binding as aforesaid as provided in option (c). The paid-up or the extended term insurance granted by the terms of the policy shall have a cash sur-

render value which shall be its net value less any indebtedness to the company on account of such policy or secured thereby, and the holder thereof may, within ninety days of the application therefor, claim and receive in cash such surrender value.

Every such policy which by its terms has become paid up shall have a cash surrender value which shall be its net value, less not more than five per cent of one net annual premium on a ten payment life policy at the age of entry of the insured, and less any indebtedness to the company on such policy or secured thereby; and the holder thereof may, within ninety days of the application therefor, claim and receive in cash such surrender value.

Nothing in this section shall be construed to prohibit the inclusion of a provision in a policy that the cash surrender value shall be payable with the written assent of the person to whom the policy is payable.

SECTION 2. Section one hundred and forty-seven of said chapter one hundred and seventy-five, as so appearing, is hereby amended by striking out, in the tenth and eleventh lines, the words “, with the written assent of the person to whom it is payable,” and by striking out, in the nineteenth and twentieth lines, the words “, with the written assent of the person to whom the policy is payable,” and by adding at the end the following new sentence:— Nothing in this section shall be construed to prohibit the inclusion of a provision in a policy that the cash surrender value shall be payable with the written assent of the person to whom the policy is payable, — so as to read as follows:— *Section 147.* After premiums have been paid for five full years upon any such policy of industrial insurance, the holder thereof, in case of any default in the payment of a subsequent premium, may, by writing filed with the company at its home office, within the term of extension and not later than thirteen weeks from the date to which premiums have been paid, elect in lieu of extended term insurance, (1) to surrender the policy to the company and receive in exchange therefor a paid-up policy of not less value according to the mortality and interest basis aforesaid, payable at the same time and on the same conditions as the original policy, or (2) to surrender the policy and receive its value in cash within sixty days after the demand therefor. Said cash surrender value shall be equal to the net single premium computed in the manner provided in the preceding section in the case of extended insurance. Any such policy of industrial insurance which shall, after five years from its original date of issue, become extended term insurance or a paid-up policy shall have a cash surrender value which shall be its net value at the date of the application therefor, less any indebtedness to the company then existing thereon or secured thereby, which the holder thereof may claim and receive in cash within sixty days after written demand therefor. Nothing in this section shall be construed to prohibit the inclusion of a provision in a policy

Any domestic life insurance company may, upon the written request of the holder of any policy of life or endowment insurance, described in section one hundred and forty-four of chapter one hundred and seventy-five of the General Laws and issued by it prior to the effective date of this act, amend such policy to provide that option (c) specified in said section one hundred and forty-four shall be automatically operative in default of an election under said section, instead of option (b) specified therein.

A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting called for the purpose. No money shall be drawn from the district treasury on account of its water works except upon a written order of said commissioners or a majority of them.

The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges,

it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as said district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

Said district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, standpipe, aqueduct, pipe or other property owned or used by said district for any of the purposes of this act, shall forfeit and pay to said district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not exceeding one hundred dollars or by imprisonment in jail for a term not exceeding six months.

SECTION 13. Upon a petition in writing addressed to said commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district, and not otherwise served by a public water supply, be included within the limits thereof, and signed by the owners of such real estate, or a major portion of such real estate, said commissioners shall cause a duly warned meeting of said district to be called, at which meeting the voters may vote on the question of including said real estate within said district. If a majority of the voters present and voting thereon vote in the affirmative, the district clerk shall within ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of said district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

foreclosure.

Before foreclosure so much of the provisions of any covenant or agreement running with the land as calls for the payment of money by the owner thereof shall not be enforceable against a town which is the owner of record of such land under a tax title or taking, except as hereinafter provided. After foreclosure the town while it is the owner of record of such land may apply to the commissioner for an extension of the time during which such provisions shall not be enforceable against it. The commissioner shall have the power in his discretion to grant such an extension for a period not exceeding one year from the date of the foreclosure, and thereafter, from time to time, upon similar

applications, may in his discretion grant similar additional extensions. Any such extension shall be in writing, may be recorded in the appropriate registry of deeds, and if so recorded within thirty days from its date, shall be conclusive in favor of the town. In no event, however, shall such provisions calling for the payment of money be so suspended and inoperative during any period in which such town directly or indirectly in any capacity accepts or receives the benefit of such covenant or agreement or of any right or privilege created or affected thereby.

AN ACT MAKING CHANGES AND ADJUSTMENTS IN CERTAIN LAWS AUTHORIZING THE ELECTION OF CERTAIN CITY AND TOWN OFFICERS BY PROPORTIONAL REPRESENTATION AND PREFERENTIAL VOTING, AND HARMONIZING AND CORRELATING SUCH LAWS WITH OTHER PROVISIONS OF THE GENERAL LAWS.

Chap. 341

Be it enacted, etc., as follows:

SECTION 1. The General Laws are hereby amended by striking out chapter fifty-four A, inserted by chapter three hundred and forty-five of the acts of nineteen hundred and thirty-seven, and inserting in place thereof the following: —

G. L. (Ter. Ed.), 54A, stricken out and new chapter inserted.

CHAPTER 54A.

ELECTION OF CERTAIN CITY AND TOWN OFFICERS BY PROPORTIONAL REPRESENTATION OR PREFERENTIAL VOTING.

Section 1. The following words, as used in this chapter, shall, unless the context otherwise requires, have the following meanings:

Definitions.

"Elected at large" shall mean elected by and from all the voters of a city or town.

"Elective body" or "body" shall mean any body, board or commission of any city or town, whether or not any or all of its members are elected at large, including the school committee, the selectmen of a town and the legislative body of a city, or either branch thereof, but shall not include the city council of the city of Boston or the town meeting members of any town.

"Elective office" or "office" shall mean any office in any city or town, other than that of a member of a body as herein defined, the incumbent of which is elected at large.

"Elective officer" or "officer" shall mean any officer of any city or town, not a member of a body as herein defined, who is elected at large.

"Proportional representation", shall mean any proportional representation method of election authorized by this chapter.

"Preferential voting" shall mean the preferential voting method of election provided for in this chapter.

This chapter shall not apply to any town wherein official ballots are not used at town elections.

Petition, contents, form of question for submission to voters.

Section 2. A petition in a form prescribed as hereinafter provided, signed in person by registered voters of any city or any town as to which this chapter applies, equal in number to at least ten per cent of the registered voters thereof, petitioning that all the members of any particular elective body as to which this chapter applies, specified in the petition, to be composed of any odd number of members not more than fifteen in a city, or any number then permitted by law in a town, which is specified therein, be elected at large by proportional representation, or that any particular elective officer, specified therein, be elected by preferential voting, and that the question of adopting the proposed change be submitted to the voters of such city or town at a regular state or municipal election, as specified therein, may be filed with the city or town clerk not later than ninety days prior to such a state election or not later than sixty days prior to such a municipal election, as the case may be; provided that this section shall not authorize the filing of a petition for submission of such a question relative to a body or officer except at the regular state or municipal election next preceding a regular municipal election at which successors to one or more members of such a body are to be elected or a successor to such officer is to be elected, as the case may be; and, provided, further, that this section shall not authorize the submission of such a question relative to any body the members of which are already authorized to be elected by proportional representation.

The city or town clerk shall prescribe the form of the aforesaid petitions which shall conform to the provisions of section thirty-eight of chapter forty-three relative to initiative petitions in cities governed by said chapter.

Within twenty days after the filing of any such petition, the city or town clerk shall transmit the same to the registrars of voters who shall certify upon such petition the number of signatures which are names of registered voters in such city or town; provided, that the registrars need not certify a greater number of names than is equal in number to twelve per cent of the registered voters therein. Any petition for the submission of any such question at a state election shall be transmitted to the state secretary forthwith after the aforesaid certification.

If such a petition, signed by the requisite number of voters of a city or town and otherwise conforming to the provisions of this section, is filed with the city or town clerk and the signatures thereon certified as hereinbefore required, there shall, except as provided in this section, be printed on the official ballot to be used in such city or town at the election specified in such petition, the question of the adoption of the change petitioned for, in the form set forth

in the first of the following questions, in case the change will affect an elective body or in the form set forth in the second, in case it will affect an elective officer, the blanks in either such question to be properly filled in:—

(1) Referendum on the election at large by proportional representation of the members of (insert name of the elective body specified in the petition) of the (city or town) of—

Shall the (insert name of the elective body specified in the petition) of this (city or town) be elected by proportional representation as authorized in chapter fifty-four A of the General Laws, said body to consist of (insert number) members, all to be elected at large?

YES.	
NO.	

(2) Referendum on the election by preferential voting of (insert title of the elective officer specified in the petition) of the (city or town) of

Shall the (insert title of the elective officer specified in the petition) of this (city or town) be elected by preferential voting as authorized in chapter fifty-four A of the General Laws?

YES.	
NO.	

If, pending the determination of the question of electing by proportional representation the members of any elective body proposed by a petition already filed under this section, a petition presenting the question of so electing the members of such body but specifying a different number of members shall be presented for filing with a city or town clerk, no action shall be taken upon the later petition except to file it, until after the submission to a vote of the question proposed by the earlier petition. Should the result of such vote be adverse thereto, proceedings shall then be had upon the later petition as though it had been filed upon the day when such vote on the earlier petition was cast.

If a majority of the votes cast upon any such question relative to a body or officer of a city or town is in the affirmative the following provisions of this chapter, so far as apt, shall apply with respect to such body or officer and shall become operative with respect to the regular municipal election of such city or town next succeeding the vote on such question; provided, that if the terms of all members of such a body in office immediately preceding such election will not so expire that successors to all the members will be required by law to be elected at such election, the operation of such provisions shall be suspended and, as the terms of the members so in office, other than those having the longest unexpired terms, expire, their successors shall be elected, by the voting system then in effect, to serve only for terms of such length that the terms of all members so in office will expire at the same time.

At the regular municipal election immediately preceding the termination of the terms of all members of such a body,

the full number of its members as specified in the question shall be elected at large, to serve for terms of the same length as the longest term then established for any of its members, by proportional representation and in accordance with the provisions of law governing elections to such body which are not inconsistent with this chapter, and thereafter as the terms of the members so elected expire their successors shall be elected in the same manner and, except as otherwise provided by chapter forty-one in the case of a town, for the same terms.

At the regular municipal election immediately preceding the termination of the term of such an elective officer, his successor shall be elected, for the same term of office as then provided by law, by preferential voting and in accordance with the provisions of law governing elections to such office which are not inconsistent with this chapter.

If affirmative action on any such question relative to an elective body of a city is taken at a state election and the regular city election at which proportional representation is first required hereby to be used for the election of members to such body occurs in the same year as such state election, the regular city election in that year shall take place on the third Tuesday of December, notwithstanding the provisions of its charter.

Nomination
of candidates.

Section 3. Notwithstanding any provision of general or special law, nominations of candidates to be elected to such a body or office shall be made only by nomination papers; and, except as hereinafter provided, the provisions of special law, if any, relative to the nomination of candidates by nomination papers for election to such body or office shall apply with respect to such nominations or, if there is no such special law, the provisions of general law relative to such nominations shall so apply.

The number of signatures of voters of a city or town required for nomination of a candidate for election as a member of any such elective body shall be not less than one nor more than two for every two hundred votes cast for governor at the preceding biennial state election in such city or town, and for nomination of a candidate for election to any such elective office not less than one nor more than two for every one hundred votes so cast; and any nomination papers for election to any such body or office bearing more than the maximum number of signatures permitted by this section shall be invalid. Nomination papers shall be issued by the city or town clerk to any such candidate, upon request, to such number as will provide spaces for signatures equal to three times the number of signatures required for the nomination of such a candidate, but no more. A voter may not sign the nomination papers of more than one candidate for election as a member of any such body; and if a voter signs nomination papers of more than one such candidate his signature shall be invalid on

all such papers except the first one acted upon by the registrars of voters.

Section 4. At any election at which members of such a board are to be elected by proportional representation or such an officer is to be elected by preferential voting, official ballots for such purpose shall be prepared and furnished by the city or town clerk. There shall be a separate form of ballot for each such body and for each such officer, and each such separate form of ballot shall be of a different and clearly distinguishable color from that of any other form of ballot prepared and furnished at the public expense for use at the same election. Ballots,
form of.

On such ballots for use in elections by proportional representation or preferential voting, there shall be printed the following directions to voters, the first sentence under the heading to be printed in prominent bold-faced type.

DIRECTIONS TO VOTERS.

Do NOT use X marks.

Mark your choices with NUMBERS only.

Put the figure 1 opposite your first choice, the figure 2 opposite your second choice, the figure 3 opposite your third choice, and so on. You may mark as many choices as you please.

Do not put the same figure opposite more than one name.

If you spoil this ballot, return it for cancellation to the election officer in charge of the ballots and get another from him.

Section 5. Ballots used in elections to such a body or office by proportional representation or preferential voting shall be printed in as many lots as there are candidates for election thereto. In the first lot the names of the candidates shall appear in the alphabetical order of their surnames. In the second lot the names shall appear in the same order except that the first name in the first lot shall be placed last. In each succeeding lot the order shall be the same as that of the lot preceding, except that the first name in that preceding lot shall be placed last. Sets of ballots to be used at the several polling places shall be made up by combining ballots from the different lots in regular rotation, so that no two successive voters shall receive ballots from the same lot, and so that each candidate's name shall appear first and in each other position substantially the same number of times on the ballots used. The number of ballots provided for each polling place shall exceed by twenty per cent the number of voters entitled to vote thereat. Arrangement
of names
on ballot.

Section 6. Immediately preceding an election by the method of proportional representation or preferential voting, the city or town clerk shall designate a central counting place where ballots used under such method shall be Central count-
ing place.

brought together and counted publicly, appoint a competent person to act as director of the count, employ a sufficient staff of assistants and make suitable arrangements for the counting of such ballots.

The city or town clerk shall furnish the director of the count with a seal or suitable device with a designation thereon of such central counting place, and such seal shall be used in sealing all envelopes required by law to be sealed at said central counting place. The director of the count shall retain custody of the seal and shall after the election is at an end deliver it to the city or town clerk. Before entering upon the performance of his official duties, the director of the count and each of his assistants shall be sworn before the city or town clerk or any officer qualified to administer oaths, or, in the case of any such assistant, before the director; and a record thereof shall be made. The director of the count and his assistants shall receive such compensation for each day's actual service as the city council or selectmen may determine. During the absence or disability of the director of the count, such one of his assistants as may be designated by the city or town clerk shall perform the duties of such director.

Appointment
of watchers,
challengers, etc.

Section 7. At each election by the method of proportional representation or preferential voting any candidate for election by such method shall be entitled, upon written application to the city or town clerk at least ten days before said election, to exercise all rights granted by the election laws to a political party in regard to the appointment of challengers at the polling places. Such challengers shall be permitted to remain at the polling places until the ballots have been transmitted to the central counting place, and to accompany the ballot receptacles to the central counting place.

Each such candidate shall be entitled to appoint two witnesses and two alternate witnesses of the count of the ballots cast for election to the body or office to which he seeks to be elected, and any such appointments shall become effective upon the issue to such appointees of credentials as hereinafter provided. Such credentials shall be issued by the city or town clerk, provided that written notice of the names and addresses of the appointees signed by such candidate is filed with the city or town clerk at least ten days before the election at which they are intended to be used. Credentials issued to any such witness shall entitle the holder to free access to any part of the central counting place wherein the ballots cast at such election for election to the body or office to which the candidate seeks to be elected are being counted, to witness the counting of such ballots and to inspect all activities in connection with the counting thereof; and credentials issued to any such alternate witness shall entitle the holder to exercise like rights in the absence of the principal witness for whom he has been appointed to act as alternate.

Each such candidate shall also be entitled to appoint two representatives to watch the ballots at the central counting place during recesses when the counting of ballots is not in progress. Application for the appointment of such representatives shall be made and credentials issued as provided in this section for witnesses to the central count and their alternates. During any time when the counting of ballots is not in progress, from the time the ballots first begin to arrive at the central counting place until the ballots have been sent from the central counting place to the city or town clerk as provided in section nine (s), such representatives shall have the right to be present, with facilities for keeping in full view all the ballots cast in electing persons to fill the office sought by their candidate, or the containers in which such ballots have been placed, except during such time as the ballots or containers of ballots may be kept in a locked safe or a vault. No such witness, alternate witness or representative shall be allowed to handle any of such ballots.

Challengers, witnesses, alternate witnesses and representatives provided for in this section shall serve without compensation.

Section 8. At each polling place in any city or town where an election by proportional representation or preferential voting is to be held as a part of an election by any other method or at which any question is to be submitted on the ballot, an additional state ballot box shall be used for the ballots cast under proportional representation or under preferential voting, or under both, as the case may be. In such case, the clerk of the city or town shall, at the expense of the city or town, provide the additional state ballot box for each polling place in the city or town and shall deliver the same to the election officers thereat seasonably before the election at which it is to be used.

Separate
ballot boxes.
Transmission
of ballots to
central count-
ing place.

In such case, as soon as the polls have closed and the ballot box used for ballots other than those cast under proportional representation or preferential voting, has been opened in accordance with section one hundred and five of chapter fifty-four and while such ballots are being audibly counted as provided therein, the election officers shall sort out any ballots cast under proportional representation or preferential voting which have been deposited in such ballot box and immediately deposit such ballots in the additional ballot box provided therefor. Such additional ballot box shall then be opened by the presiding officer and the ballots taken therefrom and audibly counted one by one and the whole number of ballots cast under proportional representation and preferential voting shall be publicly announced by him and a record made thereof in words at length and of the ballot box register. Any ballots other than those cast under proportional representation or preferential voting found in such additional ballot box shall immediately be deposited in the ballot box pro-

vided therefor for cancellation and shall then be taken out and included for counting with the other like ballots already audibly counted.

The presiding officer shall thereupon cause all ballots cast under proportional representation and preferential voting to be publicly enclosed in an envelope or envelopes and sealed up with the seal provided for the polling place and also with the private seal of any election officer who may desire to affix the same thereto. A majority of the election officers at the polling place shall endorse upon such envelope or envelopes the polling place, the election and date and also a certificate that all the ballots cast under proportional representation and preferential voting by the voters at such polling place and none others are enclosed therein.

The presiding officer shall cause a copy of the record of the total number of names checked on the voting lists, a copy of the record of the whole number of ballots cast under proportional representation and preferential voting, a copy of the record of the register of the ballot box used for such ballots and a record of the number of such ballots given out to voters and of the number of such ballots spoiled and returned by the voters for cancellation, to be enclosed in an envelope and sealed up as aforesaid and shall certify on the envelope the contents thereof. He shall also enclose in an envelope or envelopes in like manner those of such ballots which were spoiled and returned and those which were not given out.

He shall then personally deliver the said envelopes to the central counting place or transmit them thereto by a police officer.

In the event that an election by proportional representation or preferential voting shall be conducted but not as a part of an election by any other method or at which any question is to be submitted on the ballot, the presiding officer shall, as soon as the polls are closed, seal the ballot box and deliver it in person to the central counting place or transmit it thereto by the police officer in attendance at the polling place, together with the voting lists, a record of the ballot box register and of the number of ballots given out, and the ballots spoiled and returned and the ballots not given out, all of which shall be enclosed in an envelope or envelopes sealed and identified as aforesaid.

Proper receipts shall be required in connection with the transmission of ballot boxes, ballots, records and copies of records.

The ballot receptacles shall be assembled by polling places for counting at the central counting place in an order of polling places determined by the city or town clerk by lot. For such purpose lots shall be drawn not later than the closing of the polls in the presence of such candidates or their agents as wish to attend after due notification at least five days in advance.

The ballot receptacles shall be opened and the number of ballots found therein recorded and the number thereof shall be compared with the records sent from the corresponding polling places. The records thus compared shall be made available to the public with notations explaining any necessary corrections therein and if any discrepancy appears in such records which cannot be reconciled it shall be noted on the records.

Section 9. Ballots cast under proportional representation shall be counted and the results determined under the supervision of the director of the count appointed pursuant to section six, according to the following rules:—

Method of
counting
ballots.

(a) The ballots in each ballot receptacle shall be examined for validity and those which are found to be blank or otherwise invalid shall be separated from the valid ballots. The number of valid ballots from each precinct and the total number of valid ballots shall be recorded. If a ballot does not clearly show which candidate the voter prefers to all others, or if it contains any word, mark or other sign apparently intended to identify the voter, it shall be set aside as invalid. Every ballot not thus invalid shall be counted according to the intent of the voter, so far as that can be clearly ascertained, whether marked according to the directions printed on it or not. No ballot shall be held invalid because the names of candidates thereon for whom the voter did not mark a choice have been stricken out, unless such striking out constitutes an identifying mark. A single cross on a ballot on which no figure 1 appears shall be considered equivalent to the figure 1. If a ballot contains both figures and crosses, the order of the choice shown by the figures shall be taken as the voter's intention in so far as the order is clearly indicated. If the consecutive numerical order of the figures on a ballot is broken by the omission of one or more figures, the smallest number marked shall be taken to indicate the voter's first choice, the next smallest his second, and so on, without regard to the figure or figures omitted.

Valid
ballots.

(b) Each candidate shall be credited with one vote for every valid ballot that is sorted to him as first choice, or otherwise credited to him as hereinafter provided, and no ballot shall ever be credited to more than one candidate at the same time.

First choice
ballots.

(c) A "quota" is the smallest number of votes which any candidate must receive in order to be assured of election without more candidates being elected than there are offices to be filled. It shall be determined by dividing the total number of valid ballots by one more than the total number of candidates to be elected and adding one to the result, disregarding fractions. Whenever at any stage of the counting the number of ballots credited to a candidate becomes equal to the quota, he shall be declared elected, and no ballots in excess of the quota shall be credited to him except as provided in rule (f) or (l) of this section.

"Quota"
defined.

Ballots to be sorted according to first choices.

(d) The ballots shall be sorted according to the first choices marked on them, the ballots from each polling place being handled together, and those from different polling places being handled in the order of polling places determined under the provisions of section eight.

Disposition of extra first choice ballots.

(e) If a candidate is elected while the ballots are being sorted according to first choices, any subsequent ballots which show him as first choice shall each be credited to the second choice marked on it, or, if the second choice also has been elected, to the next choice marked on it for a candidate not yet elected.

Treatment of ballots marked only for elected candidate.

(f) If during the first sorting of ballots, ballots are found which are marked for a candidate already elected as first choice, but show no clear choice for any unelected candidate, such ballots shall at the end of the sorting be given to the candidate of their first choice, and in their place an equal number, as nearly as possible, of the last ballots sorted to that candidate which show a clear choice for unelected candidates, all as determined by the director of the count, shall be taken and re-sorted to unelected candidates as if they were then being sorted for the first time.

Announcement of defeated candidates.

(g) When all the ballots have been thus sorted and credited to the first available choices marked on them, every candidate who is credited with fewer ballots than the number of signatures required for his nomination shall be declared defeated.

"Continuing candidate" defined.

(h) All the ballots of the candidates thus defeated shall be transferred, each to the candidate indicated on it as next choice among the continuing candidates. A "continuing candidate" is a candidate not as yet either elected or defeated. Any ballot taken for transfer which does not clearly indicate any candidate as next choice among the continuing candidates shall be set aside as "exhausted".

Defeat of candidate.

(i) When all the ballots of the candidates thus defeated have been transferred, the one candidate who is then lowest on the poll shall be declared defeated and all his ballots transferred in the same way.

Successive defeats and transfers of ballots.

(j) Thereupon the candidate who is then lowest shall be declared defeated and all his ballots similarly transferred; and in like manner candidates shall be declared defeated one at a time and all their ballots transferred.

Decision of ties.

(k) If, when a candidate is to be declared defeated, two or more candidates are tied at the bottom of the poll, that one of the tied candidates shall be declared defeated who was credited with fewest ballots immediately prior to the last transfer of ballots. If two or more of the tied candidates were tied at that stage of the count, also, the second tie shall be decided by referring similarly to the standing of candidates immediately prior to the last transfer of ballots before that. This principle shall be applied successively as many times as may be necessary, a tie shown at any stage of the count being decided by referring to the standing of the tied candidates immediately prior to the

last preceding transfer of ballots. Any tie not otherwise provided for shall be decided by lot.

In interpreting this and other rules contained in this section the transfer of all ballots from candidates defeated together under rule (g) of this section, and the transfer of all ballots from each candidate defeated thereafter shall each constitute a single separate transfer.

(l) Whenever candidates to the number to be elected have received the quota, any transfer of ballots in progress when the last quota was reached shall be completed, but immediately thereafter all continuing candidates shall be declared defeated and the election shall be at an end. Whenever all ballots of all defeated candidates have been transferred, and it is impossible to defeat another candidate without reducing the continuing candidates below the number still to be elected, all the continuing candidates shall be declared elected and the election shall be at an end. End of election.

(m) A record of the count shall be kept in such form as to show, after each sorting or transfer of ballots, the number thereby credited to each candidate, the number thereby set aside as exhausted, the total for each candidate, the total set aside as exhausted, and the total number of valid ballots found by adding the totals of all candidates and the total set aside as exhausted. Record of count.

(n) Every ballot that is transferred from one candidate to another shall be stamped or marked so that its entire course from candidate to candidate can be conveniently traced. Record of treatment of ballot.

(o) If at any time after the first sorting of the ballots a ballot is found to have been credited to the wrong candidate, it may be transferred, as part of the transfer that is in progress, to the continuing candidate, if any, to whom it should have been credited at the time the error was made, or, if it should previously have become exhausted, may be set aside as exhausted as part of the transfer that is in progress; provided, that if the number of misplaced ballots found is sufficient to make it possible that any candidate has been wrongly defeated, so much of the sorting and transferring as may be required to correct the error shall be done over again before the count proceeds. Correction of errors.

If in correcting an error any ballots are re-sorted or re-transferred, every ballot shall be made to take the same course that it took in the original count unless the correction of an error requires its taking a different course. The principles of the rules of this section shall apply also to any recount which may be made after the original count has been completed.

(p) The director of the count and his assistants shall proceed with reasonable expedition in the counting of the ballots, but may take recesses at the discretion of the director. The city or town clerk shall make proper provision for the safekeeping of the ballots while the counting is not in progress. Recess for counting staff.

Candidates
and others
entitled to
be present.

(q) The candidates, their witnesses, alternate witnesses and representatives accredited under section seven, representatives of the press, and, as far as may be consistent with good order and with convenience in the counting and transferring of the ballots, the public shall be afforded every facility for being present and witnessing the counting and transferring of the ballots.

Boards of
review.

(r) Each of the candidates entitled to appoint witnesses of the central count as provided in section seven shall be entitled to appoint a member of a board of review of the central count. Such appointment shall be made within the time and in the manner prescribed for the appointment of such witnesses of the central count. In the central counting place a board of review so constituted shall be given facilities for examining all the ballots in the quota of each elected candidate in order to make sure that all the ballots of such quota are rightfully credited to the candidate toward whose election they have been counted, that the number of ballots therein is actually equal to the quota prescribed in this section, and that "exhausted" ballots have been properly so designated. Any errors discovered by such a board of review shall be reported to the director of the count.

(s) When the election with respect to any particular body or office is at an end the director of the count shall publicly announce the result of the vote for such body or office. Section 10. The ballots cast at each election by proportional representation or preferential voting shall be preserved by the city or town clerk until the term of office of the members of the body or of the officer elected thereby has expired, and shall be available for examination continuously throughout the business day, under supervision of the city or town clerk, on written application signed by not less than one hundred voters of the city or town and the payment of a fee of twenty-five dollars for each day on which such inspection is held. Such application shall name not more than three representatives of the applicants to make such examination.

Section 11. Within thirty days after an election to elect members of a body by proportional representation or an officer by preferential voting, the city or town clerk shall cause the ballots cast for such body or office to be examined and shall publish a statement showing —

Examination
and report
on count
of ballots.

(a) The number of first-choice ballots cast for each candidate at each polling place.

(b) The number of ballots from each polling place finally counted for each of the elected candidates.

(c) The number of the exhausted ballots from each polling place which showed one or more choices for elected candidates and the number which did not show any such choice.

(d) The number of blank ballots cast for each body or office at each polling place.

(e) The number of ballots otherwise invalid cast for each body or office at each polling place.

(f) The number of first choices, second choices, third choices, and so on, used in the election of each of the elected candidates.

(g) Such other information in regard to the ballots as the city or town clerk may deem of interest.

A copy of such statement shall be kept on file in the office of the city or town clerk open to public inspection.

Section 12. Partial or complete recounts of the ballots cast for any body or office in an election by proportional representation or by preferential voting shall take place in the manner provided in sections one hundred and thirty-four to one hundred and thirty-seven, inclusive, of said chapter fifty-four, except that any petition shall be submitted on or before five o'clock in the afternoon of the third day following the public announcement by the director of the count of the result of the vote for such body or office and shall be on a form approved and furnished by the city or town clerk and be signed in a town by ten or more voters of such town, in a city, except Boston, by fifty or more voters of such city and in Boston by two hundred and fifty or more voters of said Boston and except that any such recount in any city or in any town divided into precincts shall be conducted for the entire city or town instead of for specified precincts. If a partial or complete recount of the ballots cast in such an election shall in fact take place, it shall be conducted according to the rules prescribed for the original count as nearly as is practicable.

Recounts.

Section 13. When a vacancy occurs in an elective body whose members were elected by proportional representation, such vacancy shall be filled for the remainder of the unexpired term by a public recount of the ballots credited at the end of the original count to the candidate elected thereby whose place has become vacant. Except for the following special rules, the provisions governing the original count shall be in effect:

Recounts to
fill vacancies.

(a) All choices marked for candidates theretofore elected or who have become ineligible or have withdrawn shall be disregarded.

(b) The ballots shall be sorted each to the earliest choice marked on it for any of the eligible candidates.

(c) If any candidate has to his credit more than half of the ballots which show any preference among the eligible candidates he shall be declared elected to the vacant place.

(d) If no candidate receives more than half of such ballots, the candidates lowest on the poll shall be declared defeated one after another and after each candidate is defeated his ballots shall be transferred among the continuing candidates.

(e) The process hereinbefore provided shall be continued until one candidate is credited with more ballots than all the other undefeated candidates together, when he shall be declared elected to the vacant place.

If a vacancy in an elective body occurs for which no regularly nominated candidate remains it shall be filled for the unexpired term by a majority vote of the remaining members; and if but a single member remains or if a majority vote of the remaining members is not obtained within thirty days after the vacancy occurs, it shall be filled by a special election, in the case of a single vacancy, by preferential voting or, in case two or more vacancies exist at the same time, by proportional representation.

Method of
counting
ballots under
preferential
voting.

Section 14. Ballots cast under preferential voting shall be counted in the central counting place under the supervision of the director of the count, in accordance with the following rules:—

(a) The ballots shall first be sorted according to the first choices marked on them, and the total number of valid ballots thus sorted to each candidate shall be ascertained. The validity of ballots shall be determined according to the principles laid down for the count of ballots in an election by proportional representation in rule (a) of section nine.

(b) If any candidate is found to have been marked as first choice on more than half of the valid ballots he shall be declared elected.

(c) If no candidate is so elected after the count of first choices, every candidate who is credited with fewer ballots than the number of signatures required for his nomination shall be declared defeated.

(d) All the ballots of the candidates so defeated shall be transferred, each to the candidate indicated on it as next choice among the undefeated candidates. Any ballot taken for transfer which does not clearly indicate any candidate as next choice among the undefeated candidates shall be set aside as "exhausted".

(e) If, after this or any subsequent transfer of ballots, one candidate is credited with more than half of the valid ballots which have not become exhausted, he shall be declared elected.

(f) If no candidate is so elected after the transfer of the ballots of candidates defeated under rule (c), the one candidate who is then lowest on the poll shall be declared defeated and all his ballots transferred in the same way.

(g) Thereupon, if no candidate is yet elected, the candidate who is then lowest shall be declared defeated and all his ballots similarly transferred. Thus candidates shall be deemed defeated one at a time, and all their ballots transferred until some candidate has received the necessary majority of the ballots which have not become exhausted and is accordingly declared elected.

(h) Ties shall be decided, a record of the count kept, errors corrected, recesses taken, and candidates and others permitted to be present according to the principles prescribed for elections by proportional representation in rules (k), (m), (o), (p) and (q) of section nine.

Section 15. All provisions of law from time to time applicable in the case of a vacancy in an elective office shall continue to apply after the filling of such office by preferential voting, except that any election to fill such vacancy shall also be by preferential voting. Application of certain laws.

Section 16. (a) In conducting any election by proportional representation or preferential voting, mechanical or other devices may be used, subject, however, to the provisions of sections thirty-two to thirty-nine, inclusive, of chapter fifty-four, if the city council or the town passes a vote providing expressly that such devices shall be used in such election; and said sections, so far as apt, shall be applicable in all respects in case of such devices so used. In case such devices are to be used in any city or town, the city or town clerk may modify the form of ballot, the rotation of names thereon, the directions to voters and other details in respect to the election process; provided, that no change shall be made which will alter or impair the principles of voting or counting the ballots governing elections by proportional representation or preferential voting, as the case may be, but the voter may be limited to not less than fifteen choices for any particular body or office. Same subject.

(b) In any city or town where elections by proportional representation are to be held, any method of counting the voters' first choices and treating any such choices in excess of the quota, provided for under any system of proportional representation which on January first, nineteen hundred and thirty-eight was in effect for the purpose of municipal elections in any city of the United States, may be substituted for the method of counting such choices set forth in this chapter, if the registrars of voters determine that such substitution is advisable; provided, that they issue regulations embodying the method so substituted and provided, further, that such regulations shall not be effective with respect to any election unless at least thirty days prior thereto copies of such regulations are available for delivery to such of the voters as may request them.

SECTION 2. The General Laws are hereby amended by inserting after chapter one hundred and fifty the following new chapter:—

CHAPTER 150A.

LABOR RELATIONS.

Declaration
of legislative
intent in re-
spect to indus-
trial disputes.

Section 1. The denial by employers of the right of employees to organize and the refusal by employers to accept the procedure of collective bargaining lead to strikes and other forms of industrial strife or unrest, which have the intent or the necessary effect of burdening or obstructing industry and trade by (a) impairing the efficiency, safety or operation of the instrumentalities of industry and trade; (b) occurring in the current of industry and trade; (c) materially affecting, restraining or controlling the flow of raw materials or manufactured or processed goods, or the prices of such materials or goods; or (d) causing diminution of employment and wages in such volume as substantially to impair or disrupt the market for such goods in industry or trade.

The inequality of bargaining power between employees who do not possess full freedom of association or actual liberty of contract, and employers who are organized in the corporate or other forms of ownership association substantially burdens and affects industry and trade, and tends to aggravate recurrent business depressions, by depressing wage rates and the purchasing power of wage earners in industry and by preventing the stabilization of competitive wage rates and working conditions within and between industries.

Experience has proved that protection by law of the right of employees to organize and bargain collectively safeguards industry and trade from injury, impairment or interruption, and promotes the flow of industry and trade by removing certain recognized sources of industrial strife and unrest, by encouraging practices fundamental to the friendly adjustment of industrial disputes arising out of differences as

to wages, hours or other working conditions, and by restoring equality of bargaining power between employers and employees.

It is hereby declared to be the policy of the commonwealth to eliminate the causes of certain substantial obstructions to the free flow of industry and trade and to mitigate and eliminate these obstructions when they have occurred by encouraging the practice and procedure of collective bargaining and by protecting the exercise by workers of full freedom of association, self-organization, and designation of representatives of their own choosing, for the purpose of negotiating the terms and conditions of their employment or other mutual aid or protection.

(d) Whenever an order of the commission made pursuant to subsection (c) of section six is based in whole or in part upon facts certified following an investigation pursuant to subsection (c) of this section, and there is a petition for the enforcement or review of such order, such certification and the record of such investigation shall be included in the transcript of the entire record required to be filed under subsection (e) or (f) of section six and thereupon the decree of the court enforcing, modifying, or setting aside in whole or in part the order of the commission shall be made and entered upon the pleadings, testimony and proceedings set forth in such transcript.

Orders of commission, review, etc.

Section 6. (a) The commission is empowered, as hereinafter provided, to prevent any person from engaging in any unfair labor practice listed in section four affecting industry and trade. This power shall be exclusive, and shall not be affected by any other means of adjustment or prevention that has been or may be established by agreement, code, law, or otherwise.

Commission may prevent unfair labor practice.

(b) Whenever it is charged that any person has engaged in or is engaging in any such unfair labor practice, the commission, or any agent or agency designated by the commission for such purposes, shall have power to issue and cause to be served upon such person a complaint stating the charges in that respect, and containing a notice of hearing before the commission or a member thereof, or before a designated agent or agency, at a place therein fixed, not less than five days after the serving of said complaint. Any such complaint may be amended by the member, agent or agency conducting the hearing or the commission in its discretion at any time prior to the issuance of an order based thereon. The person so complained of shall have the right to file an answer to the original or amended complaint and to appear in person or otherwise and give testimony at the place and time fixed in the complaint. In the discretion of the member, agent or agency conducting the hearing or the commission, any other person may be allowed to intervene in the said proceeding and to present testimony. Such order may further require such person to make reports from time to time showing the extent to which he has complied with the order. If upon all the testimony taken, the commission shall be of the opinion that no person named in the complaint has engaged in or is engaging in any such unfair labor practice, then the commission shall state its findings of fact and shall issue an order dismissing the said complaint.

Upon such filing, the court shall cause notice thereof to be served upon such person, and thereupon shall have jurisdiction of the proceeding and of the question determined therein, and shall have power to grant such temporary relief or restraining order as it deems just and proper, and to make and enter upon the pleadings, testimony, and proceedings set forth in such transcript a decree enforcing, modifying and enforcing as so modified, or setting aside in whole or in part the order of the commission. The commission may modify its findings as to the facts, or make new findings, by reason of additional evidence so taken and filed, and it shall file such modified or new findings, which, if supported by evidence, shall be conclusive, and shall file its recommendations, if any, for the modification or setting aside of its original order. The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to review by the supreme judicial court for the commonwealth.

(f) Any person aggrieved by a final order of the commission granting or denying in whole or in part the relief sought may obtain a review of such order in the superior court for the county wherein the unfair labor practice in question was alleged to have been engaged in, or wherein such person resides or transacts business, by filing in such court a written petition praying that the order of the commission be modified or set aside. A copy of such petition shall be forthwith served upon the commission, and thereupon the aggrieved party shall file in the court a transcript of the entire record in the proceeding, certified by the commission, including the pleading and testimony upon which the order complained of was entered and the findings and order of the commission. Upon such filing, the court shall proceed in the same manner as in the case of an application by the commission under subsection (e) of this section, and shall have the same exclusive jurisdiction to grant to the commission such temporary relief or restraining order as the court deems just and proper, and in like manner to make and enter a decree enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part the order of the commission; and the findings of the commission as to the facts, if supported by evidence, shall in like manner be conclusive.

courts on
orders of
commission.

(g) The commencement of proceedings under subsection (e) or (f) of this section shall not, unless specifically ordered by the court, operate as a stay of the commission's order.

Stay of
order.

AN ACT RELATIVE TO THE LISTING OF VOTERS IN THE CITY OF REVERE. Chap. 355

Be it enacted, etc., as follows:

SECTION 1. Section one of chapter eighty-four of the acts of nineteen hundred and twenty-five is hereby amended by striking out the first two sentences and inserting in place thereof the following: — There is hereby established in the city of Revere a listing board, hereinafter called the board, composed of the chief of police and the registrars of voters of said city.

SECTION 2. Section two of said chapter eighty-four is hereby amended by striking out the last paragraph and inserting in place thereof the following: —

The board, upon the personal application of a person listed for the correction of any error in its lists, or whenever informed of any such error, shall make due investigation, and upon proof thereof correct the same on its lists, and shall immediately notify the assessors of such correction, and said assessors shall correct their lists accordingly. The board shall cause all applications and affidavits received by it under this section to be preserved for two years.

SECTION 3. Said chapter eighty-four is hereby amended by striking out section three and inserting in place thereof

the following:— *Section 3.* The board shall, on or before the twenty-fifth day of April in each year, transmit to the assessors certified lists taken from the lists prepared as provided in the preceding section, containing the name, age, occupation, nationality, if not a citizen of the United States, and residence on the first day of January in the current year, and the residence on the first day of January in the preceding year, of every person, twenty years of age or upward, residing in said city, and shall promptly transmit to the assessors notice of every addition to and correction in the lists made by it. Instead of visiting every building in said city and making their own lists for assessment of poll taxes, the assessors may use the lists prepared by the board, or such parts thereof as they deem advisable. The board shall furnish all information in its possession necessary to aid the assessors in the performance of their duties.

SECTION 4. Said chapter eighty-four is hereby further amended by striking out section four and inserting in place thereof the following:— *Section 4.* The board shall, on or before the first day of June in each year, prepare printed copies of the lists prepared under the preceding section. The board shall print such lists in pamphlet form by precincts, deliver to the assessors as many copies thereof as they may require, and hold the remaining copies for public distribution.

SECTION 5. Said chapter eighty-four is hereby further amended by striking out section five, as most recently amended by chapter forty-two of the acts of nineteen hundred and thirty, and sections six and seven, and inserting in place thereof the following:— *Section 5.* If a person, twenty years of age or upward, resident in said city of Revere on the first day of January, was not listed by the board, he shall, in order to establish his right to be listed, appear before the board of registrars of voters at such time as it may designate, the members of which are hereby authorized to administer oaths for this purpose, and present under oath a statement in writing that he was on said day a resident of said city, giving his name, age, occupation, nationality, if not a citizen of the United States, and residence on the first day of January in the current year and his residence on the first day of January in the preceding year.

A person, twenty years of age or upward, who becomes a resident of said city after the first day of January and desires to be listed, shall appear before any member of the board of registrars of voters, each of whom is hereby authorized to administer oaths for the purpose, and present a statement in writing under oath that the applicant became a resident of said city at least six months immediately prior to the election at which he claims the right to vote, giving his name, age, occupation, nationality, if not a citizen of the United States, and his present residence, the date when

he became a resident of said city, and his residence on the first day of January in the current year and on such other dates as the board of registrars of voters may require.

If the board of registrars of voters, after investigation and report by the chief of police or a police officer detailed by him, is satisfied that such statements are true, it shall give the applicant a certificate that he was a resident of said city on said first day of January, which certificate shall state his name, age, occupation, nationality, if not a citizen of the United States, and present residence, the date when he became a resident of said city, and his residence on the first day of January in the current year and on the other dates required as aforesaid; but no such application shall be received, and no such person shall be listed or given said certificate, between the twentieth day preceding, and the day following, a state or municipal election. The board of registrars of voters shall also forthwith transmit to the assessors the names of all persons receiving such certificates, together with their residences as appearing on said certificates.

In every place where oaths are administered for the purpose of listing, the board of registrars of voters shall post in a conspicuous place a copy of section seven of chapter fifty-six of the General Laws, printed on white paper with black ink, in type not less than one quarter of an inch wide.

Section 6. The board of registrars of voters shall enter the date of application, the name, age, occupation, nationality, if not a citizen of the United States, and the residences, as appearing on said certificate, of every such applicant, together with the result of its investigation of his application, in a book provided for that purpose, which shall be open for public inspection. The board of registrars of voters shall cause to be printed in a newspaper published in said city of Revere the name and residence of every such applicant. Such names and residences shall be printed by wards and precincts in the first issue of said newspaper published after the number of names of applicants, not printed, reaches fifty, and shall include the names of all such applicants received up to the close of business for this purpose in the office of the board on the day when said number is reached.

Section 7. The board of registrars of voters shall keep its office open during such hours as shall be necessary to carry out the preceding two sections.

SECTION 6. This act shall take effect on the thirty-first day of December in the current year.

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, STATE HOUSE,
BOSTON, May 26, 1938.

Honorable FREDERIC W. COOK, *Secretary of the Commonwealth,
State House, Boston.*

SIR: — I, Charles F. Hurley, by virtue of and in accordance with the provisions of the Forty-eighth Amendment to the

Constitution, "The Referendum II, Emergency Measures" do declare that in my opinion, the immediate preservation of the public peace, health, safety and convenience requires that the law passed on the twenty-sixth day of May, in the year nineteen hundred and thirty-eight, entitled "AN ACT PROVIDING THAT THE COMMISSIONER OF INSURANCE SHALL REQUIRE OF NEWLY ORGANIZED DOMESTIC INSURANCE COMPANIES CERTAIN AFFIDAVITS PRIOR TO GRANTING TO THEM CERTIFICATES OF AUTHORITY TO ISSUE INSURANCE POLICIES OR CONTRACTS" should take effect forthwith, that it is an emergency law, and that the facts constituting the emergency are as follows:

Because its delayed operation to the date set forth in the Act will result in inconvenience to the public and to the state, and furthermore, public safety requires that this statement under oath be made so that there will be no secret agreements or outstanding obligations of any kind to the detriment of the public.

Very truly yours,

CHARLES F. HURLEY,
Governor.

OFFICE OF THE SECRETARY, BOSTON, May 26, 1938.

I hereby certify that the accompanying statement was filed in this office by His Excellency the Governor of the Commonwealth of Massachusetts at two o'clock and thirty-five minutes, P.M., on the above date, and in accordance with Article Forty-eight of the Amendments to the Constitution said chapter takes effect forthwith, being chapter three hundred and fifty-seven of the acts of nineteen hundred and thirty-eight.

F. W. COOK,
Secretary of the Commonwealth.

AN ACT RELATIVE TO THE CARE AND DISPOSAL OF LAND
ACQUIRED BY CITIES AND TOWNS THROUGH THE FORE-
CLOSURE OF TAX TITLES.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Emergency
preamble.

Be it enacted, etc., as follows:

SECTION 1. The mayor of any city or the selectmen of any town which holds property acquired by foreclosure of tax titles may appoint a custodian who shall have, while this act remains in effect, the care, custody, management and control of all property so acquired by said city or town, whether acquired before or after his appointment, or before or after the effective date of this act. The custodian shall serve during the pleasure of the mayor or selectmen

and shall receive as his compensation, if any, a sum fixed by the mayor or by the board of selectmen.

SECTION 2. The custodian, acting on behalf of the city or town, may, notwithstanding any provision of law, ordinance or by-law inconsistent herewith, sell at public auction any such property, first sending a notice thereof as herein provided to the owner of record immediately prior to the acquisition by the city or town of the title to such property. Such notice shall contain a description of the property to be sold sufficient to identify it, shall state the date, time and place appointed for the sale thereof and the terms and conditions of such sale, and shall be sent by registered mail to the address of such owner, as appearing upon the records of the assessors of the city or town, at least fourteen days before said sale. The custodian shall also, not less than fourteen days before such appointed date, post a similar notice in two or more convenient and public places in the city or town. Failure to send or to post a notice as herein provided, or any insufficiency in the notice sent or posted, shall not invalidate the title to any property sold hereunder. The custodian may reject any and all bids at such sale or any adjournment thereof if in his opinion no bid is made which approximates the fair value of the property, and he may adjourn the sale from time to time for such periods as he deems expedient, giving notice thereof at the time and place appointed for the sale or for any adjournment thereof. After any such sale and upon payment by the purchaser to the city or town of the amount of a bid accepted by the custodian, the treasurer of said city or town shall, on its behalf, execute and deliver any instrument necessary to transfer the title of the city or town to any such property sold under this section. This act shall not be construed to prevent a city or town from disposing of such property under section three of chapter forty of the General Laws, or in any other manner authorized by law.

SECTION 3. This act shall become inoperative at the expiration of three years after its effective date.

Approved May 26, 1938.

Chap.372 AN ACT RELATIVE TO THE LISTING OF VOTERS IN THE CITY OF LYNN.

Be it enacted, etc., as follows:

SECTION 1. There is hereby established in the city of Lynn a listing board composed of the chief of police and the board of election commissioners. The chairman of the board of election commissioners for the time being shall be the chairman of said listing board, hereinafter called the board.

SECTION 2. The board shall, within the first twenty week days of January in each year, by itself or by assistants of the board of election commissioners, or by police officers of said city, or both, visit every building in said city, and, after diligent inquiry, make true lists, on cards or otherwise, arranged by streets, wards and voting precincts, and containing, as nearly as the board can ascertain, the name, age, occupation, nationality, if not a citizen of the United States, and residence, on the first day of January in the current year, and the residence on the first day of January in the preceding year, of every person, twenty years of age or upward, residing in said city. The board shall designate in such lists all buildings used as residences by such persons, in their order on the street where they are situated, by giving the number or other definite description of every such building so that it can readily be identified, and shall place opposite the number or other description of every such building the name, age, nationality, if not a citizen of the United States, and occupation of every such person residing therein

on the first day of January in the current year, and his residence on the first day of January in the preceding year. If in any year the board shall believe it to be impracticable, because of any public exigency requiring unusual service from the police force of the city, to complete within the first twenty week days of January the said visitation and listing, it may take such further time therefor, not exceeding ten week days, as it shall deem necessary.

The board shall place in the lists made by it, opposite the name of every such person, the name of the inmate, owner or occupant of the building, or the name and residence of any other person, who gives the information relating to such person.

The board shall, upon the personal application of a person listed for the correction of any error in its lists, or whenever informed of any such error, make due investigation, and upon proof thereof correct the same on its lists. The board of election commissioners shall thereupon proceed to revise and correct the registers under the provisions of section fifty-eight of chapter fifty-one of the General Laws. The listing board, in the case of a person liable to be assessed a poll tax, shall immediately after making any such correction notify the assessors thereof, who shall correct their copies of said lists.

SECTION 3. Said board shall, on or before the twenty-fifth day of April, in each year, transmit to the assessors certified lists taken from the lists prepared as provided in the preceding section, containing the name, age, occupation, nationality, if not a citizen of the United States, and residence, on the first day of January in the current year, and the residence on the first day of January in the preceding year, of every person, twenty years of age or upward, residing in said city, and shall promptly transmit to the assessors notice of every addition to and correction in the lists made by it. Instead of visiting every building in said city and making their own lists for assessment of poll taxes, the assessors may use the lists prepared by the board, or such parts thereof as they deem advisable. The board shall furnish all information in its possession necessary to aid the assessors in the performance of their duties.

SECTION 4. The board shall, on or before the first day of June in each year, prepare printed copies of the lists prepared under the preceding section. The board shall print such lists in pamphlet form by precincts, deliver to the assessors as many copies thereof as they may require, and hold the remaining copies for public distribution.

SECTION 5. If a person, twenty years of age or upward, resident in said city of Lynn on the first day of January, was not listed by the board, he shall, in order to establish his right to be listed, appear before the board of election commissioners at such time as it may designate, the members of which are hereby authorized to administer oaths for this purpose, and present under oath a statement in writing that

he was on said day a resident of said city, giving his name, age, occupation, nationality, if not a citizen of the United States, and residence on the first day of January in the current year and his residence on the first day of January in the preceding year.

A person, twenty years of age or upward, who becomes a resident of said city after the first day of January and desires to be listed, shall appear before any member of the board of election commissioners each of whom is hereby authorized to administer oaths for the purpose, and present a statement in writing under oath that the applicant became a resident of said city at least six months immediately prior to the election at which he claims the right to vote, giving his name, age, nationality, if not a citizen of the United States, occupation and his present residence, the date when he became a resident of said city, and his residence on the first day of January in the current year and on such other dates as the board of election commissioners may require.

If the board of election commissioners, after investigation and report by the chief of police or a police officer detailed by him, is satisfied that such statements are true, it shall give the applicant a certificate that he was a resident of said city on said first day of January, which certificate shall state his name, age, occupation, nationality, if not a citizen of the United States, and residence on the first day of January in the preceding year, or a certificate that he became a resident of said city at least six months immediately preceding the election, which certificate shall state his name, age, occupation, nationality, if not a citizen of the United States, and present residence, the date when he became a resident of said city, and his residence on the first day of January in the current year and on the other dates required as aforesaid; but no such application shall be received, and no such person shall be listed or given said certificate, between the twentieth day preceding, and the day following, a state or municipal election. The election commissioners shall also forthwith transmit to the assessors the names of all persons receiving such certificates, together with their residences as appearing on said certificates.

In every place where oaths are administered for the purpose of listing, the board of election commissioners shall post in a conspicuous place a copy of section seven of chapter fifty-six of the General Laws, printed on white paper with black ink, in type not less than one quarter of an inch wide.

SECTION 6. The board of election commissioners shall keep its office open during such hours as shall be necessary to carry out the preceding section.

SECTION 7. The election commissioners shall, after the first day of January in each year, prepare an annual register containing the names of all qualified voters in said city of Lynn for the current year, beginning with the first day of January. The names shall be arranged by precincts and,

opposite the name of each voter, shall be entered his residence on the preceding first day of January or on any subsequent day when he became a resident of said city. The election commissioners shall enter in the annual register every name contained in the lists, for the current year, of persons listed by the listing board, giving, as the residence of each person on the first day of January, the place at which he was listed by said board; provided, that in every case they are able to identify the name so listed as that of a person whose name was borne on the voting list of said city at the last preceding election. They shall make all inquiries and investigations necessary to identify such person, and they shall not enter in the annual register the name of a person objected to by any of the election commissioners, until such person has been duly notified and given an opportunity to be heard by them, and shall have appeared and satisfied them of his right to have his name so entered. They shall forthwith enter in the annual register the name of every person whose qualifications as a voter have been determined by them in the current year and whose name has accordingly been entered in the general register. They shall, on or before the first Monday of August in each year, send notice in writing by mail to each voter of the preceding year whose name has not been entered in the annual register of the current year that his name has not been so entered.

SECTION 8. This act shall take effect on the thirty-first day of December in the current year.

Approved May 26, 1938.

For the purposes of organization, the city clerk shall be temporary chairman

until the mayor or vice-chairman has qualified. Thereupon the city council shall, by a majority vote of all the members elected, elect a mayor and a vice-chairman from its own members and the persons elected as such shall likewise make oath to perform faithfully the duties of the respective offices to which they are so elected, and they may so make oath at the same meeting at which they are so elected. The organization of the city council shall take place as aforesaid, notwithstanding the absence, death, refusal to serve or non-election of one or more of the members; provided, that a majority of all the members elected to the city council are present and have qualified. Meetings of the city council may also be held at any time when all the members of the city council are present and consent thereto. Except in the case of executive sessions, all meetings of the city council and of committees thereof shall be open to the public, and the rules of the city council shall provide that citizens and employees of the city shall have a reasonable opportunity to be heard at any such meeting in regard to any matter considered thereat.

He shall be chairman of the city council and chairman of the school committee. He shall have no power to veto but shall have the same powers as any other member of either such body to vote upon all measures coming before it. He shall perform such other duties consistent with his office and with sections ninety-three to one hundred and sixteen, inclusive, as may be imposed upon him by the city council. During the absence or disability of the mayor, or during the time such office is vacant, his duties shall be performed by the vice-chairman. In case, at any time, there shall be neither a mayor nor a vice-chairman, the member of the council senior in length of service, or, if more than one have so served, then the member senior both in age and length of service shall perform the duties of mayor until a new mayor has qualified. No member of the city council shall receive any other compensation from the city. The salary of a city councillor and the additional salary, if any, of the mayor, may be increased or diminished, but no increase therein shall be made to take effect during the term of the council voting the increase; provided, that the initial establishment of the salaries of the city councillors and the additional salary, if any, of the mayor, after the adoption of this plan may take effect in the year when established and in accordance with the vote establishing the same. No increase or reduction in such salary or additional salary shall be made by the council, after the election of a new council, to take effect with respect to the members of such new council. No additional compensation shall attach to the office of vice-chairman.

Vacancies.

Section 102. Except as provided in this section or in section twenty-six, a vacancy in any elective body shall be filled in the manner provided in section thirteen of chapter fifty-four A. If, under said section, no regularly nominated candidate of the city council or school committee remains,

The action of the city council in suspending or removing the city manager shall be final, it being the intention of this provision to vest all authority and fix all responsibility for such suspension or removal in the city council. In case of the absence, disability or suspension of the city manager, the city council shall designate the head of some department to perform the duties of city manager during such absence, disability or suspension, and, in case the office of city manager becomes vacant, the city council shall designate the head of some department to serve as acting city manager until a new city manager is appointed.

Chap.394 AN ACT RELATIVE TO THE LISTING OF VOTERS IN THE CITY OF SOMERVILLE.

Be it enacted, etc., as follows:

SECTION 1. There is hereby established in the city of Somerville a listing board composed of the chief of police and the board of election commissioners. The chairman of the board of election commissioners for the time being shall be the chairman of said listing board, hereinafter called the board.

SECTION 2. The board shall, within the first twenty week days of January in each year, itself or by assistants of the board of election commissioners, or by police officers of said city, or both, visit every building in said city, and, after diligent inquiry, make true lists, on cards or otherwise, arranged by streets, wards and voting precincts, and containing, as nearly as the board can ascertain, the name, age, occupation, nationality if not a citizen of the United States, and residence, on the first day of January in the current year, and the residence on the first day of January in the preceding year, of every person, twenty years of age or upward, residing in said city. The board shall designate in such lists all buildings used as residences by such persons, in their order on the street where they are situated, by giving the number or other definite description of every such building so that it can readily be identified, and shall place opposite the number or other description of every such building the name, age, nationality if not a citizen of the United States, and occupation of every such person residing therein on the first day of January in the current year, and his residence on the first day of January in the preceding year. If in any year the listing board shall believe it to be impracticable, because of any public exigency requiring unusual service from the police force of the city, to complete within the first twenty week days of January the said visitation and listing, it may take such further time therefor, not exceeding ten week days, as it shall deem necessary.

The board shall place in the lists made by it, opposite the name of every such person, the name of the inmate, owner or occupant of the building, or the name and residence of any other person, who gives the information relating to such person.

The board shall, upon the personal application of a person listed for the correction of any error in its lists, or whenever informed of any such error, make due investigation, and upon proof thereof correct the same on its lists. The board of election commissioners shall thereupon proceed to revise and correct the registers under section fifty-eight of chapter fifty-one of the General Laws. The listing board, in the case of a person liable to be assessed a poll tax, shall immediately after making any such correction notify the assessors thereof, who shall correct their copies of said lists.

SECTION 3. The board shall, on or before the twenty-fifth day of April, in each year, transmit to the assessors certified lists taken from the lists prepared as provided in the preceding section, containing the name, age, occupation, nationality if not a citizen of the United States, and residence on the first day of January in the current year, and the residence on the first day of January in the preceding year, of every person, twenty years of age or upward, residing in said city, and shall promptly transmit to the assessors notice of every addition to and correction in the lists made by it. Instead of visiting every building in said city and making their own lists for assessment of poll taxes, the assessors may use the lists prepared by the board, or such parts thereof as they deem advisable. The board shall furnish all information in its possession necessary to aid the assessors in the performance of their duties.

SECTION 4. The board shall, on or before the first day of June in each year, prepare printed copies of the lists prepared under the preceding section. The board shall print such lists in pamphlet form by precincts, deliver to the assessors as many copies thereof as they may require, and hold the remaining copies for public distribution.

SECTION 5. If a person, twenty years of age or upward, resident in said city of Somerville on the first day of January, was not listed by the board, he shall, in order to establish his right to be listed, appear before the board of election commissioners at such time as it may designate, the members of which are hereby authorized to administer oaths for this purpose, and present under oath a statement in writing that he was on said day a resident of said city, giving his name, age, occupation, nationality if not a citizen of the United States, and residence on the first day of January in the current year and his residence on the first day of January in the preceding year.

A person, twenty years of age or upward, who becomes a resident of said city after the first day of January and desires to be listed, shall appear before any member of the board of election commissioners, each of whom is hereby authorized

to administer oaths for the purpose, and present a statement in writing under oath that the applicant became a resident of said city at least six months immediately prior to the election at which he claims the right to vote, giving his name, age, nationality if not a citizen of the United States, occupation and his present residence, the date when he became a resident of said city, and his residence on the first day of January in the current year and on such other dates as the board of election commissioners may require.

The board of election commissioners shall forthwith transmit a copy of such statement to the chief of police, who shall detail an officer to verify the statement of the applicant as to residence, and shall report to the election commissioners within five days the result of the investigation of the officer. If the statement of the applicant as to residence is found to be untrue, the election commissioners shall forthwith notify the applicant to appear before them. But no such application shall be received later than the twentieth day preceding a state or municipal election.

In every place where oaths are administered for the purpose of listing, the board of election commissioners shall post in a conspicuous place a copy of section seven of chapter fifty-six of the General Laws, printed on white paper with black ink, in type not less than one quarter of an inch wide.

SECTION 6. The board of election commissioners shall keep its office open during such hours as shall be necessary to carry out the preceding section.

SECTION 7. The board of election commissioners shall, after the first day of January in each year, prepare an annual register containing the names of all qualified voters in said city for the current year, beginning with the first day of January. The names shall be arranged by precincts and, opposite the name of each voter, shall be entered his residence on the preceding first day of January or on any subsequent day when he became a resident of said city. The board of election commissioners shall enter in the annual register every name contained in the lists, for the current year, of persons listed by the listing board, giving, as the residence of each person on the first day of January, the place at which he was listed by said board; provided, that in every case they are able to identify the name so listed as that of a person whose name was borne on the voting list of said city at the last preceding election. They shall make all inquiries and investigations necessary to identify such person, and they shall not enter in the annual register the name of a person objected to by any of the election commissioners, until such person has been duly notified and been given an opportunity to be heard by them, and shall have appeared and satisfied them of his right to have his name so entered. They shall forthwith enter in the annual register the name of every person whose qualifications as a voter have been determined by them in the current year and whose name has accordingly been entered in the general register.

They shall, on or before the first Monday of August in each year, send notice in writing by mail to each voter of the preceding year whose name has not been entered in the annual register of the current year that his name has not been so entered.

SECTION 8. This act shall take effect on the thirty-first day of December in the current year.

Approved June 7, 1938.

AN ACT PROVIDING FOR THE CONSTRUCTION OF AN UNDERPASS IN HUNTINGTON AVENUE AT OR NEAR ITS INTERSECTION WITH MASSACHUSETTS AVENUE IN THE CITY OF BOSTON, AND FOR THE MAKING OF AN ALTERATION OF THE SUBWAY NOW BEING CONSTRUCTED IN SAID HUNTINGTON AVENUE.

Chap. 395

Be it enacted, etc., as follows:

SECTION 1. Subject to section five, the city of Boston, hereinafter called the city, acting through the transit department of the city, hereinafter called the department, is hereby authorized to construct an underpass for vehicular traffic in Huntington avenue at or near its intersection with Massachusetts avenue in the city, with such connecting roadways and alterations to existing roadways in the city as the department may deem necessary, and to make necessary alterations to street railway tracks and appurtenances thereof.

SECTION 2. For the purpose of carrying out this section and sections one and four, the department may use public lands and ways without compensation therefor, and may take by eminent domain under chapter seventy-nine of the General Laws, or acquire by purchase or otherwise, for and on behalf of the city, lands in fee, and easements, estates and rights in land; and such taking in fee or otherwise may be made whether the lands taken or otherwise affected are held under or by title derived through eminent domain or otherwise, and may be made for the purpose of providing locations for pipes, wires, conduits and other structures, the relocation of which is made necessary or expedient by the construction of the underpass authorized by this act. Any person sustaining damage by reason of property or rights in property taken under authority of this or the preceding section, except public lands and ways which may be taken and used without compensation as hereinbefore provided, shall be entitled to recover therefor from the city under said chapter seventy-nine. The members of the department shall not be liable personally for any such damage.

SECTION 3. To meet the cost to the city of the underpass, which shall include all expenses of the city incurred in carrying out section one, and all land damages, expenses of the department, such proportions of the salaries of the department as may, in its opinion, be properly chargeable thereto, and all interest on money borrowed for the pur-

poses of the underpass authorized by this act accruing prior to the use of the said underpass, the treasurer of the city, with the approval of the mayor of the city, may, from time to time, issue and sell at public or private sale bonds of the city to an amount sufficient to provide funds for the payment of said cost but not exceeding, in the aggregate, the sum of three hundred thousand dollars, which bonds shall bear on their face the words, City of Boston, Huntington Avenue Underpass Loan, Act of 1938. Each authorized issue shall constitute a separate loan, and such loans shall be payable in not more than ten years from their dates. Indebtedness incurred hereunder shall be outside the statutory limit of indebtedness and shall, except as herein provided, be subject to the provisions, applicable to the city of Boston, of chapter forty-four of the General Laws, as amended, exclusive of the limitation contained in the first paragraph of section seven thereof.

SECTION 4. The department may order the temporary removal or relocation of any surface tracks, and the temporary or permanent removal or relocation of any conduits, pipes, wires, poles or other property located in public ways or places, which it deems to interfere with the laying-out or construction of the underpass authorized by this act, and shall grant new locations for any such structures so removed or relocated. Such orders, to the extent specified therein, shall be deemed a revocation of the right or license to maintain such tracks, conduits, pipes, wires, poles or other property in such public ways or places, and the owner of any such structures in public ways or lands shall comply with such orders without expense to the city. If any owner shall fail to comply with the order of the department within a reasonable time, to be fixed in the order, the department may discontinue and remove such tracks, conduits, pipes, wires, poles or other property, and may relocate the same, and the cost of such discontinuance, removal or relocation shall be repaid to the city by the owner. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. Any gas or electric lighting company shall shut off the gas or current from any pipes or wires affected by any acts done hereunder, so far and for such time as may be necessary to prevent the escape or explosion of gas or other public danger. Said underpass, when completed, shall be under the control of the public works department of the city.

SECTION 5. No construction work shall be done under section one of this act except in conjunction with an alteration of the subway now under construction under Part II of chapter three hundred and sixty-six of the acts of nineteen hundred and thirty-three, as amended and as affected by chapter one hundred and fifty-nine of the acts of nineteen hundred and thirty-seven, which alteration will extend said subway to a point in Huntington avenue not more than

twelve hundred feet westerly of Massachusetts avenue. The city, acting through the department, is hereby authorized to make said alteration as a federal works progress administration project and furnish and equip the same, provided the necessary consent of the Boston Elevated Railway Company to a new plan altering the plans already approved for the construction of said subway is obtained, and the other approvals of such new plan are given, as provided in section seven of said Part II, and such alteration shall be a change or alteration in the plan referred to in said section seven and in the contract between the city and the company, which contract is dated June twenty-eighth, nineteen hundred and thirty-seven. Except as in this section otherwise provided, such provisions of said Part II, as amended and as so affected, as are applicable to an approved project thereunder shall apply to said alteration in the same manner and to the same extent as though it were a part of the project as originally approved thereunder, and the premises and equipment, as these terms are respectively defined in said Part II, shall include the property acquired or constructed, and provided and furnished by the department under this section. If at the time of the filing of such disclaimer and release or of the entry of such decree such person or tenant is still the owner or tenant of the premises, whether through redemption or otherwise, such rates and charges, to the extent that they were properly chargeable to him, may be enforced in any other manner provided or available for collection and enforcement of water rates and charges.

MEMBERSHIP.

Membership.

Section 2. The membership of the system shall be composed of the following persons as set forth in paragraphs (1)

to (12), inclusive, of this section, subject to the conditions set forth in paragraphs (13) to (18), inclusive, hereof:

(1) (a) All persons who are now members of the state retirement system, established on January first, nineteen hundred and twelve; and

(b) Employees who, having entered the service prior to January first, nineteen hundred and twelve, and not having become members of the state retirement system, make application in writing for membership before attaining the maximum age for the group in which they are classified as set forth in paragraph (14) of this section and deposit with said application not less than one hundred dollars to open their accounts, and pay into the annuity savings fund in one sum an amount equal to the total assessments which they would have paid and the interest which would have been credited to their accounts if they had become members on June first, nineteen hundred and twelve, and had contributed five per cent of their regular compensation not exceeding the maximum regular compensation then subject to assessment, from said date to the time of such application, and such assessments had been accumulated with interest, or who pay said amount, before attaining age sixty, in such instalments as may be fixed by the board with interest for the term during which such instalments shall be paid. Employees subject to this paragraph may, with the approval of the board, temporarily suspend such instalments, but the total amount of such instalments as have been paid, with interest, shall be retained until termination of service; provided, that such employees shall continue payment of regular assessments as if members of the system. Such employees shall be treated as members of the system only to the extent that their payments are completed, and instalment payments hereunder shall be considered to apply anteriorly from the date of the first of such payments. An employee who has paid only a portion of such instalments shall, upon attaining the maximum age for the group in which he is classified under said paragraph (14) of this section nevertheless thereupon be retired for superannuation; but in such case the retirement allowance shall be computed only on the basis of his annuity plus a pension equal thereto and he shall receive no credit for any prior service, nor shall any minimum otherwise provided apply in such case.

(2) All persons who resign positions in the service under which they had inchoate rights to non-contributory pensions under this chapter or corresponding provisions of earlier laws, or any other general or special law, to accept positions subject to sections one to five A, inclusive, irrespective of age, if under the maximum age for the group in which they are classified as set forth in paragraph (14) of this section.

(3) All persons holding regular positions, except constitutional officers, members of the general court, members of

the judiciary, registers of probate, officials who do not exercise the option set forth in paragraph (4) of this section, temporary-provisional, temporary, temporary-recurrent or part time employees and the employees mentioned in paragraph (5) of this section, and except as provided in section thirty-seven D, under age fifty-five on the date of entry into the service who have completed ninety days of service. This paragraph shall apply to persons holding permanent positions under chapter thirty-one, notwithstanding the provisions of said chapter and the rules and regulations established under it relative to probationary periods of employment.

(4) Officials under age fifty-five on the date of appointment, who, at their option, make written application to the board for membership in the system within one year of the date upon which they assume the duties of said positions; and, if said option is exercised, they shall, upon re-appointment, or appointment to other official positions or any other positions, remain in the system. Members of the system who become officials shall not thereby cease to be members.

(5) Persons in the service at any institution or school in the department of mental diseases, the department of public health, the department of public welfare or at the state farm, whose employment is not subject to chapter thirty-one and the rules and regulations made thereunder, shall become members after completing one year of service, unless they shall sooner become members following an application in writing for membership. The pertinent provisions of paragraph (3) of this section shall apply to persons in the service of such institutions whose employment is subject to chapter thirty-one.

(6) Employees, except as otherwise provided in this paragraph, whether or not any portion of their compensation has been, now is or hereafter shall be paid in part by a county having a retirement system. Such employees shall be assessed on their combined regular compensation, and the annuity assessments payable from each source of payment shall be in the same proportion that each salary bears to the combined salary, but shall not exceed the maximum regular compensation then subject to annuity assessments. Upon notice from the board, the county treasurer shall deduct the proper annuity assessments of an employee and shall transfer such amounts as are deducted to the board in accordance with such rules and regulations as may be prescribed by it, and such amounts when received by the board shall be immediately credited to the accounts of the members so contributing in the annuity savings fund. The foregoing provisions shall apply in Suffolk county only to persons so paid, who on the date of employment received not less than one half of their combined regular compensation from the commonwealth, and such employees, after becoming members of the system, shall remain members

while receiving combined compensation from the commonwealth and said county, regardless of the proportion of the total compensation thereafter paid by the commonwealth. No such employee shall be eligible for membership in any county retirement system while receiving any part of his compensation from the commonwealth; provided, that if a member of such other system shall receive a part of his regular compensation from the commonwealth his membership and his account in such other system shall thereupon be transferred to this system under the provisions of section thirty-seven D.

(7) Employees, except teachers, in practice or training schools, so-called, controlled and maintained by the department of education in buildings owned by the commonwealth.

(8) Teachers regularly employed in state teachers' colleges who devote a part of their time to practice or training school work.

(9) Subject to section nineteen, persons principally employed by the commonwealth who are also teachers in the public schools as defined in section six.

(10) (a) Subject to section thirty-seven D, persons entering the service after terminating employment with a county, city or town, or as a teacher in such public schools; and

(b) Employees, formerly members of the teachers' retirement system established under this chapter or corresponding provisions of earlier laws, or a county, city or town retirement system or association established under general or special law and maintained by public funds, who irrespective of age at the time of entry into the service were not entitled to the benefits conferred by section thirty-seven D or corresponding provisions of earlier laws; provided, that (1) they entered the service within ninety days after terminating their employment as teachers, or by the county, city or town, that (2) they make written application for membership before attaining the maximum age for the group in which they are classified as set forth in paragraph (14) of this section, that (3) they pay to the board the amounts of their accounts in any such system or association if such have been withdrawn, together with interest on such amounts from the date of entry into the service of the commonwealth or of the metropolitan district commission, and that (4) they pay to the board such amounts as they would have paid if they had joined the system on such date of entry into the service, with interest thereon to the date of admission to membership. If any such employee has not withdrawn his account in such other system or association, the treasurer thereof shall transmit the amount of such account to this system forthwith upon notice from the board and it shall be credited to the account of such member in the annuity savings fund of this system as of the date of his admission to membership therein.

(11) Persons, irrespective of age, who became or shall become employees by reason of the taking over by the commonwealth or the metropolitan district commission of any institution, or of any public or quasi-public enterprise controlled and operated by a political sub-division of the commonwealth or a corporation, except persons employed by the metropolitan district water supply commission, established by chapter three hundred and seventy-five of the acts of nineteen hundred and twenty-six, and any inchoate right of any such person to a non-contributory pension shall thereupon cease. In case of the taking over by the commonwealth or the metropolitan district commission of the powers and duties of said metropolitan district water supply commission, any employee thereof at the time of said taking who was under age fifty-five on the date of initial employment if under the maximum age for his group may become a member of the system upon the payment of an amount computed in the manner provided by paragraph (1) (b) of this section, and the period of his employment by said commission shall be a part of his membership service.

(12) Paragraph (3) of this section to the contrary notwithstanding, the board may classify as an employee any person who is employed by the commonwealth or metropolitan district commission, including employees of the general court, on a temporary-provisional, temporary, temporary-recurrent, part time or seasonal basis but not including those referred to in paragraph (5) of this section who shall have completed continuous or intermittent service of not less than twelve months in a period of twenty-four months from the date of employment, and he shall thereupon become a member of the system, if then in active service; provided, that he was under age fifty-five on the date of employment used to compute eligibility for membership, and is under the maximum age for his group. Each such person terminating a period of such service shall remain in the system for a period of seven months from the date on which his service was last terminated, if then under the maximum age for his group but if the board finds that such employment is permanently terminated, a refund may be made as hereinafter provided. Said board may also classify as an employee any employee of the general court not subject to the first sentence of this paragraph and he shall thereupon become a member of the system if in active service on June thirtieth, nineteen hundred and thirty-eight.

(13) Department heads shall furnish the board, within thirty days from the receipt of a request therefor, with the names, titles, compensation, duties, dates of birth and length of service of all employees in their department.

(14) The board shall place each member of the system in one of the following groups:

Group 1. — Members of the police force of the metropolitan district commission; employees of the department of correction, regardless of any official classification, whose reg-

ular duties require them to have the care and custody of prisoners including insane persons and defective delinquents at the state farm; and conservation officers paid as such, district fire wardens and coastal wardens in the department of conservation.

Group 2. — Officials and all other employees not included in Group 1.

(15) Members of the system shall, upon attaining the maximum age for the group in which they are classified as set forth in paragraph (14) of this section, be retired from the service for superannuation.

(16) Every employee who entered or re-entered the service after January first, nineteen hundred and twelve, and who on the date of initial employment was age fifty-five or over, shall be removed from the service upon attaining the maximum age for the group in which he would be classified under paragraph (14) of this section. This paragraph shall not apply to an official not exercising the option provided under paragraph (4) of this section.

(17) Except as limited by paragraph (2) of section three and by paragraph (3) (c) of section five A, a member who is ineligible for retirement at the beginning of a period of absence from service may have and retain all rights as a member, including the right to retire if thereafter eligible, for a period of two years. Such member may allow his accumulated deductions to remain in the annuity savings fund until such time as his total period or periods of absence, during six consecutive years from the date of the commencement of his first period of absence amount to five years; whereupon the account of any such person in the annuity savings fund shall be paid to him in the manner provided in said paragraph (3) of said section five A, and he shall not thereafter be eligible for reinstatement in the system in case of re-entry into the service, but if then under age fifty-five shall have the status of an employee originally entering the service.

(18) A member who is eligible to a superannuation retirement benefit at the beginning of a period of absence from service shall remain a member of the system, except that he shall not be liable to contribute to the annuity savings fund, and when he attains the maximum age for his group he shall then be retired; provided, that any such member under said maximum age may retire on his own application with a retirement allowance computed at his attained age without being reinstated in active service.

REINSTATEMENT.

Section 2A. A former member, who re-entered or re-enters the service within five years from the date of his last separation therefrom, may be reinstated in the system upon paying to the board in one sum the amount which he withdrew upon the date of his last said separation, or upon

Reinstatement.

paying said amount in not more than sixty equal consecutive monthly instalments and interest thereon during such term; and, when so reinstated, he shall be credited with the prior and membership service which was a part of his creditable service on said date of separation. The intervening period shall not be deemed to interrupt the continuity of service, but it shall not be counted as creditable service. The age limit specified in sections one to five A, inclusive, shall not apply to former members who apply for reinstatement; provided, that a member classified in Group 1 under paragraph (14) of section two shall not be eligible for reinstatement after attaining age sixty and a member classified in Group 2 under said paragraph shall not be eligible for reinstatement after attaining age sixty-five. No member so reinstated shall be eligible to be retired for superannuation or ordinary disability unless he shall have been in the service for five consecutive years, including any period or periods of leave of absence credited as membership service, subsequent to his last re-entry.

CREDITABLE SERVICE.

Creditable
service.

Section 3. (1) Except as otherwise provided in sections one to five A, inclusive, a member shall be credited with all membership service and prior service rendered by him; provided, that in no case shall he be credited with more than one year of creditable service for all service rendered during any one calendar year.

(2) Creditable service, in case a member has not withdrawn from the system, shall include any period or periods of continuous absence of not exceeding one year in any instance, if he is thereafter reinstated in active service; provided, that in no case shall more than one year of creditable service be credited for total absence in excess of one year in any period of five consecutive years.

(3) Except as hereinafter provided, the creditable service of a person who became a member of the association under section one of chapter three hundred and ten of the acts of nineteen hundred and thirteen or section one of chapter one hundred and sixty-four of the General Acts of nineteen hundred and sixteen shall not include the period between June first, nineteen hundred and twelve, and the date such person became a member; but, if such member shall pay or shall have paid in one sum an amount equal to that which he would have paid as annuity assessments at five per cent during such period of service plus interest to the date of payment, his service during said period shall become a part of his creditable service.

(4) If the total creditable service of a member shall exceed the service required to provide the maximum pension benefit as set forth in paragraph (2) (d) of section four, the period of service required to provide such maximum benefit shall be computed anteriorly of the date of retirement.

(5) A person who became or becomes an employee by reason of the taking over by the commonwealth or the metropolitan district commission of any institution, or of any public or quasi-public enterprise, controlled and operated by a political sub-division of the commonwealth or a corporation, except a person employed by the metropolitan district water supply commission who does not exercise the option authorized by paragraph (11) of section two, shall be credited with service which would have been creditable service had it been rendered under sections one to five A, inclusive, or corresponding provisions of earlier laws. This paragraph shall not apply to any such employee who was eligible to and did not join a contributory retirement system or association established under this chapter or corresponding provisions of earlier laws, or any other general or special law, or to any such employee who was formerly a member of any such system or association, unless he shall pay all sums which he withdrew from such system or association into the annuity fund of this system or unless his account has been transferred to this system.

(6) A member, formerly employed as a teacher in a public school, as defined in section six, shall be credited as a part of his creditable service with all periods of employment as such teacher prior to his entering the service. This paragraph shall not apply to an employee who entered the service after July first, nineteen hundred and fourteen, who had the option to join, and did not join, the teachers' retirement system or association established under section seven or corresponding provisions of earlier laws; nor to any such employee who was a member of such association unless the full amount of his account has been transferred to this system, as provided in section thirty-seven D, or corresponding provisions of earlier laws, or, if he has withdrawn his account from such system or association and entered the service within five years from the date of his termination of employment as such teacher, unless he has paid or shall pay to the board in the manner provided in section two A the amount which he withdrew therefrom.

(7) A member, who entered the service within ninety days after separation from the service of a county, city or town having a contributory retirement system or association established under this chapter or corresponding provisions of earlier laws, or any other general or special law, shall be credited with all periods of service for which he was credited as a member of such association or system, and such service shall be counted as a part of his creditable service under sections one to five A, inclusive. This paragraph shall not apply to any such employee unless the full amount of his account in such association or system has been transferred to the state treasurer as provided in paragraph (10) (b) of section two or in section thirty-seven D, or corresponding provisions of earlier laws, or, if said employee has withdrawn his account in such system or association, unless he has

repaid or shall repay it to or has reinstated or shall reinstate it in the annuity fund of this system. Upon such transfer or re-payment, said employee shall become a member of this system.

(8) Subject to paragraph (6) of section two, an employee who has received or shall receive regular compensation paid jointly by the commonwealth and a county, and who is, at the time of his retirement, paid either jointly by the commonwealth and by a county, or wholly by the commonwealth, as the case may be, while continuing to hold the same position, shall be credited as creditable service in this system with all such employment. The pension for such periods of creditable service shall be computed in the same manner as provided in paragraph (5) of section four. Such pension shall be paid from the funds of this system subject to reimbursement as provided in paragraph (11) of section five A.

(9) All periods of service prior to June first, nineteen hundred and twelve, rendered by employees who have been members of the system since that date or by persons who are classified as employees by the board under paragraph (12) of section two, shall, notwithstanding any provisions to the contrary in this chapter, be a part of their creditable service. In computing the pension for prior service of any such employee the annuity assessment shall be credited with interest from the date upon which said prior service began to the date of retirement, including any period of absence between said dates; but said absence, while not to be deemed to interrupt the continuity of service, shall not be counted as creditable service.

(10) The period during which a member of the system served in the army, navy or marine corps of the United States during the world war shall be credited as membership service; provided, that such member re-entered the service prior to November eleventh, nineteen hundred and twenty, or that he withdrew from said system and within ten days thereafter enlisted or was inducted into said army, navy or marine corps, and re-entered the service after discharge or release from such service and before said November eleventh, nineteen hundred and twenty, and reinstated his membership in the manner provided in section two A.

(11) Employees of the general court shall be credited with one year of creditable service for services rendered by them during an annual session of the general court, or, if required to give full time service throughout the year, for such full time service; provided, that employees of the general court who are not required to render service throughout the whole of a year, and who while the general court is not in session are employed by any department of the government of the commonwealth or by the metropolitan district commission, shall not be credited with more than one year of creditable service for all service so rendered during any one calendar year. Annuity assessments shall be made from the total compensation received by them during the

year from the commonwealth and the metropolitan district commission, but shall not exceed the maximum assessments provided under sections one to five A, inclusive.

SUPERANNUATION RETIREMENT.

Conditions for Allowance.

Section 4. (1) (a) Subject to sections two A, four G and four H, a member shall be retired for superannuation in not less than thirty nor more than ninety days after he has filed with the board an application therefor; provided, either that he has completed thirty-five years of creditable service, or that he has attained age sixty and has completed not less than fifteen years of creditable service. Conditions for allowance

(b) Except as otherwise provided in paragraph (1) (c), a member shall be retired for superannuation upon attaining age seventy; and on and after January first, nineteen hundred and forty, a member classified in Group 1 as set forth in paragraph (14) of section two shall be so retired upon attaining age sixty-five.

(c) A member, regardless of his official classification, employed in a school or college in the department of education and acting as an instructor or supervisor of instruction of classes conducted during a school year or term, shall be retired on the first day of July next following the date on which age seventy is attained, but any such member attaining said age in July, August or September shall thereupon be retired.

(d) A member may be retired for superannuation on the recommendation of the head of his department, or after discharge or resignation, as provided in section thirty-seven C.

Amount of Allowance.

(2) Upon retirement for superannuation a member shall, subject to paragraph (2) (d) of this section and to sections four G and four H, receive a retirement allowance to consist of the following: — Amount of allowance.

(a) The life annuity set forth in section four G;

(b) A pension equal to the life annuity set forth in paragraph (1) (a) of section four G; provided, that said pension shall not exceed the amount of the annuity purchasable at his attained age or at the maximum age of the group in which he is classified as set forth in paragraph (14) of section two, whichever is the lesser, by the sum which at age sixty would purchase a life annuity of six hundred and fifty dollars; and provided, further, that such pension shall not exceed one third of the average annual rate of compensation received by him during the five-year period immediately prior to the termination of his creditable service; and

(c) If he is credited with creditable periods of prior service, an additional pension equal to the life annuity payable under paragraph (1) (a) of said section four G at his at-

tained age or at the maximum retirement age of the group in which he has been classified under said paragraph (14) of section two, whichever is the lesser; and the amount thereof shall be computed on the basis of an assessment of ten per cent on his annual rate of compensation, not exceeding fifty dollars per week, as paid to him on June first, nineteen hundred and twelve, or on the last day of employment preceding said date if not employed on that date, during such periods of creditable prior service, and accumulated with interest to the date of his retirement.

(d) The value of the total amount of the pensions provided in paragraphs (2) (b) and (2) (c) of this section, when added to the sum required to purchase the life annuity set forth in paragraph (1) (a) of section four G, or to purchase a life annuity of six hundred and fifty dollars at age sixty, whichever is the lesser, shall not exceed the sum which is required to purchase at age sixty a retirement allowance of thirteen hundred dollars. No pension, except as hereinafter provided, shall exceed one half the average annual rate of the regular compensation of the member for the five-year period immediately prior to the termination of creditable service, or the actuarial equivalent of the sum required to purchase a life annuity of thirteen hundred dollars, whichever is the lesser; and no retirement allowance shall exceed two thirds of said average annual rate of regular compensation, unless the annuity exceeds one third of said average annual rate, in which case the total pensions shall not exceed the maximum pension provided in said paragraph (2) (b). The retirement allowance in all cases shall be computed on the basis of the annuity under said paragraph (1) (a) of section four G; provided, that a member (1) who has completed not less than twenty years of creditable service, or (2) who is retired at age sixty-five or over, or (3) who is classified in Group 1 as set forth in paragraph (14) of section two and who is retired at age sixty or over, shall receive a total retirement allowance of not less than four hundred and eighty dollars when so computed; and provided, further, that if a member elects the annuity under paragraph (1) (b) of section four G the amount of his minimum retirement allowance shall be reduced to the extent of the difference between the amount of annuity provided under paragraph (1) (a) and the annuity under paragraph (1) (b) of said section four G, except that, in cases where the average annual rate of regular compensation for the five-year period immediately prior to the date of retirement is less than four hundred and eighty dollars, the total retirement allowance shall be equal to, but not in excess of, the amount of such annual rate of compensation; and provided, further, that the pension of any person who became a member of the system prior to June thirtieth, nineteen hundred and thirty-eight, shall in no case be reduced by this paragraph or paragraph (2) (b) of this section to an amount less than the amount to which such person would

have been entitled as a pension if sections one to five, inclusive, in effect immediately prior to said June thirtieth, had been in effect at the date of his retirement.

(e) In addition to the retirement allowance hereinbefore provided for superannuation, a member classified in Group 1 as set forth in paragraph (14) of section two who retires between age sixty and sixty-five, both inclusive, with twenty or more years of creditable service in said group prior to attaining such age shall receive a pension sufficient to provide a retirement allowance equal to that to which he would have been entitled if he had remained in the service for a period of five years beyond his actual age on the date of retirement, and had contributed to the annuity fund on the basis of his rate of regular annual compensation on the date of retirement and his account had been credited with interest. In case a member so classified retires at an age over sixty-five, such pension shall be sufficient to provide a retirement allowance equal to that to which he would have been entitled if he had remained in the service until attaining age seventy and his account had been credited as aforesaid during the years intervening between said ages.

(3) A person employed by the commonwealth or the metropolitan district commission who, at any time after January first, nineteen hundred and twelve, resigned a position wherein he had an inchoate right to a non-contributory pension under any provision of this chapter or corresponding provisions of earlier laws, or any other general or special law, or a person who resigns such a position to accept a position the holding of which necessitates membership in this system, shall receive on retirement, in addition to the retirement allowance otherwise provided, such additional pension as would have resulted from annuity assessments of ten per cent of his regular compensation, but not exceeding the maximum amounts from time to time subject to such assessments, during the period from June first, nineteen hundred and twelve, or from the date of original employment, whichever is the later date, to the date when he became a member of the system, with interest to the date of retirement, if the sum of such assessments were computed as an annuity under paragraph (1) (a) of section four G; provided, that, in the case of a member classified in Group 1 as set forth in paragraph (14) of section two, interest shall be credited for an additional period of five years for such member if retired at age sixty to sixty-five or for such period as represents the difference between the actual age of the member and age seventy if retired at any age over sixty-five; and provided, further, that the aggregate additional pensions provided by this section and the pensions provided by sub-paragraph (2) (b) and (2) (c) of this section shall not exceed the maximum pension or retirement allowance provided in sub-paragraph (2) (d) of this section.

(4) A person who became or becomes a member by reason of the taking over by the commonwealth or the metropoli-

tan district commission of any institution, or of any public or quasi-public enterprise, controlled and operated by a political sub-division of the commonwealth or a corporation, and who was not eligible for membership in a contributory retirement system or association established under any provision of this chapter or corresponding provisions of earlier laws, or any other general or special law, and supported by public funds, shall receive upon retirement, in addition to the pensions otherwise provided in this section, a pension which shall be equal to the annuity provided in paragraph (1) (a) of section four G based upon an assumed assessment of ten per cent of the regular compensation received by him from such institution, public or quasi-public enterprise or corporation, but not exceeding the maximum amounts from time to time subject to assessment, during the period from June first, nineteen hundred and twelve, or the date upon which he entered the employment thereof, whichever is the later date, to the date upon which he became a member, with interest to the date of his retirement, or, in case of a member classified in Group 1 as set forth in paragraph (14) of section two, to the date of the expiration of the five-year period following the date of his retirement if he retires at age sixty to sixty-five, or, if he retires at any age over sixty-five, to the date upon which he shall attain age seventy, as the case may be; provided, that the aggregate of this pension, the annuity and pensions otherwise provided shall not exceed the maximum pension or retirement allowance provided in paragraph (2) (d) of this section.

(5) A member credited with a period of service for a county, city or town, or as a teacher in the public schools as defined in section six which became a part of his creditable service for the commonwealth or the metropolitan district commission, if his account in any county, city or town, or teachers' retirement system or association, established under this chapter or corresponding provisions of earlier laws, or any other general or special law, and supported by public funds, has been transferred to this system, or if he withdrew from any such system or association and has been reinstated in this system, shall receive upon his retirement, in addition to the pensions otherwise provided in this section, a pension for such period of service for such county, city or town, or as such a teacher, rendered prior to June first, nineteen hundred and twelve, which pension shall be computed in the manner provided in paragraph (2) (c) of this section; and such member shall also receive upon his retirement a further pension computed on the basis of an assumed assessment of ten per cent of the regular compensation received by him for services rendered to such county, city or town, or as such a teacher, but not exceeding the maximum amounts from time to time subject to assessment, during the period subsequent to said June first and prior to the date of his becoming a member of any such retirement system or association, and accumulated with interest

to the date of his retirement; provided that the aggregate of such additional pension, together with the annuity and pensions otherwise provided, shall not exceed the maximum pension or retirement allowance provided in paragraph (2) (d) of this section.

Section 4A. Where husband and wife are members of the system, if one of the two retires or is retired the other may, irrespective of age and service on the date of such retirement, be retired upon his or her application if the board finds that the retirement will be for the good of the service, and, if so retired, such other shall be paid the retirement allowances computed in the manner provided in paragraph (2) of section four; provided, that the minimum allowance provided in paragraph (2) (d) of said section four shall not apply to a member whose retirement allowance is granted under this paragraph, but the maximum pension provided in said last mentioned paragraph shall apply thereto.

Husband and wife may retire at same time.

Section 4B. For the purpose of determining the average annual rate of regular compensation, the rate of regular compensation received on the date immediately preceding a period of absence without pay shall be used as the rate of regular compensation for the period of creditable service without pay, provided that in case a member resigned or was separated from service through no fault of his own prior to the effective date of retirement, the period to be used in determining said average annual rate shall be the five years immediately prior to the termination of his service or the five years immediately prior to retirement as the case may be.

Average annual rate of compensation.

ORDINARY DISABILITY RETIREMENT.

Condition for Allowance.

Section 4C. (1) Subject to sections two A, four G and four H, a member under age sixty who is disabled and has twenty or more years of creditable service, upon an application filed by him and accompanied by a certificate of a registered physician setting forth the nature and extent of the disability, or upon an application filed under section thirty-seven C by the head of his department, or, in case of an official, by the governor with the approval of the council, as the case may be, may be retired for ordinary disability if, upon certification of one or more registered physicians, designated by the board, that such member is mentally or physically incapacitated for further service and that his incapacity is likely to be permanent, the board finds, after a hearing, due notice of which shall be given to the member, or, if such application is filed by the head of his department or by the governor, as the case may be, as provided in said section thirty-seven C, that (1) such member has not attained age sixty, that (2) he is incapacitated for further service, that (3) his incapacity is not the result of his own wilful misconduct, and that (4) he should be retired.

Condition for allowance of members under sixty who are disabled.

(2) Upon retirement for ordinary disability, a member shall receive, subject to section four E, an ordinary disability retirement allowance to consist of —

(a) An annuity as provided in section four G; and

(b) A pension of one one hundred and fortieth of his average annual rate of regular compensation, not exceeding twenty-six hundred dollars, during the five years prior to retirement, multiplied by the number of years, including fractions thereof, of membership service, not exceeding thirty-five years; and

(c) If the member has one or more years of prior service, including fractions thereof, an additional pension equal to one seventieth of his average annual rate of regular compensation, not exceeding twenty-six hundred dollars, during the five years prior to retirement, multiplied by the difference between his total creditable service, not exceeding thirty-five years, and his years of membership service.

(3) In no case shall a member be retired under this section at such annual rate of pension as would, when added to his annuity computed under paragraph (1) (a) of section four G, amount to a total retirement allowance of less than four hundred and eighty dollars. Payments of ordinary disability retirement benefits shall be subject to the pertinent provisions of paragraph (2) of said section four G. In computing pensions under this paragraph periods of service of less than fifteen days in any month shall not be counted,¹ but if such periods of service consist of fifteen or more days in any month they shall be counted as a full month.

ACCIDENTAL DISABILITY RETIREMENT.

Conditions for Allowance.

Retirement
for accidental
disability.

Section 4D. (1) Subject to sections four G and four H, a member, upon an application filed by him and accompanied by a certificate of a registered physician setting forth the nature and extent of the disability, or by the head of his department under section thirty-seven C, or, in case of an official, by the governor with the approval of the council, as the case may be, shall be retired for accidental disability, if, upon the certification of one or more physicians, designated by the board, that such member is mentally or physically incapacitated for further service and that the incapacity is likely to be permanent, the board finds, after a hearing, due notice of which shall be given to the member, or, if such application is filed by the head of his department or by the governor, as the case may be, as provided in said section thirty-seven C, that (1) the incapacity of said member is the proximate result of bodily injuries, or a hazard undergone, while in the performance of and within the scope of his regular duty and, except as provided in section four I, within two years next prior to the filing of said application, or as a proximate result of an earlier accident or hazard undergone which was reported in writing to the board by

the member or in his behalf within ninety days of its occurrence, that (2) it is not the consequence of his own wilful negligence, and that (3) he should be retired.

Amount of Allowance.

(2) Upon retirement for accidental disability, a member shall receive, subject to paragraph (4) of section four E and to section four H, an accidental disability retirement allowance to consist of —

Amount of allowance.

(a) A life annuity as provided in section four G; and

(b) Subject to paragraph (2) (c) of this section, a pension equal to one half of the annual rate of the regular compensation received by him on the date of the accident or hazard undergone.

(c) The retirement allowance under paragraphs (2) (a) and (2) (b) of this section shall not exceed two thirds of the annual rate of regular compensation received by him on the date of the injury or hazard undergone, unless the annuity determined in the manner as set forth in paragraph (a) of section four G exceeds one third of said annual rate of compensation on said date, and in such case the pension provided in paragraph (2) (b) of this section shall be one third of such annual rate of compensation.

(3) In addition to the retirement allowance provided in paragraph (2) of this section, if a member is classified in Group 1 as set forth in paragraph (14) of section two, such member shall receive an additional pension of two hundred and sixty dollars for each child under age eighteen, or of said age or over if physically or mentally incapacitated from earning; provided, that such additional pension when added to the retirement allowance otherwise payable hereunder shall not provide a total retirement allowance exceeding the annual rate of regular compensation on the date of the injury or hazard undergone unless the annuity exceeds one third of said annual rate, and in such case the total pension under this section shall be two thirds of said annual rate of compensation. Payments of accidental disability retirement benefits shall be subject to the pertinent provisions of paragraph (2) of section four G.

RE-EXAMINATION OF BENEFICIARIES RETIRED ON ACCOUNT OF DISABILITY.

Section 4E. (1) The board may require a beneficiary who has been retired for disability and who has not attained age sixty to submit to a mental or physical examination once in each year during the five-year period next succeeding the date of his retirement, and once in each three-year period thereafter, by one or more registered physicians designated by it, and, upon a written request therefor by the beneficiary, it shall permit such examination at any time. If such beneficiary shall refuse to submit to any examination so required, his allowance may be discontinued, and, if such

Re-examination of certain retired members.

refusal continues for one year thereafter, all his rights in and to the pensions provided in sections four C and four D may be revoked by the board.

(2) Should such physician or physicians certify to the board that a disability beneficiary is engaged, or is able to engage, in a gainful occupation, and should the board find that his earnings, actual or potential, are less than the average annual rate of regular compensation used as a basis for his retirement allowance, but are more than the difference between said average annual rate of regular compensation and his retirement allowance, then the amount of his pension shall be reduced to an amount which, together with his annuity and his earnings, actual or potential, shall equal the amount of said average annual rate of regular compensation. Should his earnings be later changed, the amount of his pension may be further increased or reduced; provided, that the new pension shall not exceed the amount of the pension originally granted, nor shall it exceed an amount which, when added to the amount earned, or which could have been earned, by the beneficiary, together with his annuity, equals the amount of said average annual rate of regular compensation. With the approval of the head of any department in which a vacancy exists, the board may order such beneficiary to return and be restored to active service in the employment of the commonwealth or metropolitan district in the same employment in which such beneficiary was employed by such employer at the time of his retirement, or in a similar employment. If such beneficiary refuses so to return or to file such information as the board may require said board may revoke or suspend his pension. If a beneficiary is so restored to active service at a compensation less than said average annual rate of regular compensation, but greater than the difference between the amount of such rate and his retirement allowance, then the amount of his pension shall be reduced to an amount which, when added to his annuity and the compensation at which he is so restored, shall equal the amount of the regular compensation which he was receiving when retired. Should his compensation be later changed, the amount of his pension may be increased or reduced to conform to the foregoing provision. Such a beneficiary restored to active service at a compensation less than said average annual rate of regular compensation shall not become a member of the system, except as provided in paragraph (3) of this section, and upon subsequent separation from service without having become such member shall receive a retirement allowance equal to that which he was receiving prior to his restoration to active service. No such beneficiary restored to active service shall remain in the service after attaining the maximum age for his group.

(3) Should a disability beneficiary be restored to active service at a compensation not less than the amount of the regular compensation which he was receiving when retired,

or should he, after being restored at a lesser compensation, attain to such regular compensation, his retirement allowance shall cease and he shall again become a member of the system. Any prior service, and any membership service on the basis of which his service was computed at the time of his retirement, shall thereupon be restored to full force and effect, and upon his subsequent retirement he shall be entitled to his original pension and, in addition, to such pension as may have accrued to him on account of service after his return to service; provided, that the total pension on his subsequent retirement shall not exceed the pension he would have received had he remained in the service during the period of his prior retirement. In addition, he shall receive the annuity which is the actuarial equivalent of his accumulated assessments.

(4) Upon application by a disability beneficiary within five years after his pension has been revoked or suspended under paragraph (2) of this section, the board shall cause him to be again examined by a physician or physicians under paragraph (1) of this section. If such physician or physicians certify to the board that such beneficiary is not engaged or able to engage in any gainful occupation or employment, or, in case they certify that he is so engaged or able to engage, if the board finds that his earnings or potential earnings are less than the difference between his annuity and the average annual rate of regular compensation used as a basis for his retirement allowance, his pension may, by order of the board, be restored to him after the date of said order, to the extent provided in said paragraph (3) of this section.

ACCIDENTAL DEATH BENEFIT.

Section 4F. (1) If the board finds that a member or a beneficiary retired for accidental disability died as a result of bodily injuries sustained or a hazard undergone while in the performance and within the scope of his duties and, except as provided in section four I, that such death occurred within two years thereafter, or resulted from an earlier accident or hazard undergone which was reported to the board by the member or in his behalf within ninety days after its occurrence, and that such injuries or hazard were not the consequence of his own wilful negligence, there shall be paid to the dependents of such member as hereinafter designated an accidental death benefit to consist of a pension equal to one half of the annual rate of compensation received by the member on the date such injuries were so sustained or hazard undergone. The said pension shall begin as of the date of the death of said member, and shall be paid —

Accidental death benefit.

(a) To the surviving husband or wife, if living together on the date of said injuries or hazard and principally dependent for support upon such member, or to the surviving wife, if, at the time of the husband's death, the board finds

that the wife was living apart from him for justifiable cause or because he deserted her, so long as he or she remains unmarried; provided, that in the case of a widow of a member who is not eligible at the time of his death if at a subsequent date the board finds that said widow, because of changed circumstances, would be principally dependent upon her husband if he were living, such pension may thereafter be paid to her but no pension shall be paid for any period prior to the finding of the board.

(b) If there is no husband or wife surviving such member, or if the surviving husband or wife dies before each child of such member shall have attained age eighteen, or if the wife was living apart from the member for unjustifiable cause, or because of her own desertion, and is therefore ineligible for benefits, on the date of the injuries or hazard undergone, then to a legal guardian for the benefit of the surviving child or children, divided in such manner as the board shall from time to time determine, but it shall be discontinued, reduced or apportioned upon any such child attaining age eighteen, or upon the death of any such child before attaining age eighteen.

(c) If there is no husband, wife or child or children under age eighteen surviving such member, then to his totally dependent father or mother, or both, and the survivor of them, as the board in its discretion shall determine, during dependency and until remarriage of either.

(2) If there is any child age eighteen or over said age who is physically or mentally incapacitated from earning, a pension of two hundred and sixty dollars shall be paid, for each such child, to the said child or his natural or legal guardian during such time as said child is so incapacitated.

(3) The board shall, after a notice and hearing, decide all questions relating to dependency, and incapacity of any child to earn, and its decision shall be final.

(4) There shall not be paid in any case for all the benefits provided in this section an amount to exceed the rate of regular compensation of the member on the date of the accident in which he received said injuries or the hazard undergone, and, if the calculated amount of such benefits shall exceed such rate, the pensions provided in paragraph (2) of this section shall be prorated among those entitled to receive them during such time as such benefits shall exceed such rate.

(5) If payments are made under paragraph (2) of this section to a natural guardian of a child, such guardian shall render in each year to the board, on oath or under penalties of perjury, and in such form as it may prescribe, a detailed account of the amounts disbursed therefrom by him for the benefit of such child; and if upon the rendition of any such account the board finds that said disbursements have not been made for the best interests of such child such pension, in the discretion of the board, may be discontinued until such time as a legal guardian or conservator has been appointed.

ANNUITY OPTIONS.

Section 4G. (1) Subject to paragraph (2) of this section, a member shall be entitled to receive as he, or, if he is incompetent, his wife, his conservator or guardian, may elect at the time of retirement on a form furnished by the board:—

Annuity options.

(a) A full life annuity which, on the mortality tables and interest rates prescribed under section thirty-four shall be the actuarial equivalent of his accumulated assessments on the effective date of his retirement, or at the maximum age for the group in which he is classified as set forth in paragraph (14) of section two, whichever is the lesser; or

(b) An annuity of a lesser amount determined in the manner set forth in paragraph (1) (a) of this section, with the provision that, if the member dies before receiving annuity payments equal to the amount used to purchase said annuity, the difference shall, subject to paragraphs (2) (c) and (2) (d) of section five A, be paid to his legal representatives.

(2) Irrespective of the date of retirement as designated in the application, no retirement shall take effect prior to the day following the last day for which salary is paid and, except as to retirements under paragraphs (1) (b) and (1) (c) of section four and under section thirty-seven C, no retirement shall take effect prior to the date of receipt by the board of an annuity election form, properly executed, in a form prescribed by the board, and filed by the member, or, if he be incompetent, by his wife, guardian or conservator, as the case may be. If such annuity election form, properly executed, is not received prior to the date upon which the retirement of the member becomes effective under paragraph (1) (b) or (1) (c) of section four or under section thirty-seven C, the member shall receive an annuity computed under paragraph (1) (b) of this section. If such annuity election form, properly executed, is not so filed with the board within ninety days of the filing of an application for retirement under paragraph (1) (a) of section four, such application shall be void. All annuities, pensions and retirement allowances shall be computed to the nearest multiple of twelve and shall be paid in monthly instalments.

COMPENSATION BENEFITS OFFSET.

Section 4H. A person shall be treated in all respects as a contributing member during the entire period he shall receive weekly compensation payments for total incapacity under the provisions of sections sixty-nine to seventy-five, inclusive, of chapter one hundred and fifty-two, or during any period computed in the manner hereinafter provided to cover a lump sum payment under section forty-eight of said chapter one hundred and fifty-two in lieu of the compensation aforesaid and also during a further period of

Compensation benefits offset.

thirty days thereafter, except as to liability to contribute to the annuity savings fund, and except that if such member attains the maximum age for the group in which he is classified as set forth in paragraph (14) of section two prior to the termination of the actual or computed period of compensation payments he shall not be treated as a member beyond the date of termination aforesaid. If such member attains the said maximum age during any such period he shall be retired on the date of termination aforesaid with the retirement allowance payable at such age; and if he otherwise meets the age or service requirements for retirement prior to said date of termination he shall have all the rights and benefits provided in sections one to five A, inclusive, to which he would have been entitled if his service had not been interrupted by such incapacity, and if he re-enters the service after the termination of the said thirty-day period, he shall be treated as a contributing member; but in case of retirement hereunder no pension or annuity payments shall be made on account of any period of time prior to the date of receipt by the board of the written application for retirement. In no case shall interest be added to the account of such member beyond the first day of the month in which the date of termination of the additional thirty-day period occurs, unless such member sooner re-enters the service. The account of such member in the annuity fund shall not be withdrawn during the period of such compensation payments. Whenever such member receives a lump sum payment the period of time covered by such payment shall, for the purposes of this section, be computed to begin on the last day on which the name of such member appeared on the payroll prior to such payment or on the day of the last compensation payment in case weekly payments had previously been made and to continue during a number of weeks equal to the quotient of the lump sum payment divided by the maximum weekly compensation which would otherwise be payable to such member, and any fractions of a week so resulting shall be taken as a full week.

Section 4I. No member of the state retirement system on June thirtieth, nineteen hundred and thirty-eight, who then or thereafter suffers from a disability resulting from an accident or hazard which occurred prior to said effective date, or who after said date dies as a result of any such accident or hazard, shall thereby be deemed ineligible for retirement for accidental disability, nor shall his dependents otherwise eligible to receive accidental death benefits be deemed ineligible to receive the same, as the case may be notwithstanding the provisions of sections four D and four F relative to the time during which an application for retirement shall be filed and a report rendered of a prior accident or hazard undergone.

Certain members not to be deemed ineligible for retirement for accidental disability, etc.

ADMINISTRATION.

Section 5. (1) The system shall be known as the "state employees' retirement system", and all of its business shall be transacted under such name. "State employees' retirement system", to be known as.

(2) The system shall be managed by the board of retirement provided in section eighteen of chapter ten.

(3) The members of the board shall be reimbursed from the expense fund for any expense or loss of salary or wages which they may incur through service on the board.

(4) The board shall annually, on or before February fifteenth, file in the office of the commissioner of insurance on a form prescribed by him a sworn statement of the financial condition of the system as of December thirty-first of the previous year, and of all the fiscal affairs of said system during said previous year. The said commissioner may for cause shown extend the time for filing said statement. The state treasurer shall, subject to the same conditions and requirements, file a sworn statement of the financial condition of the system as of said December thirty-first.

(5) The board may make such rules and regulations consistent with law as it deems necessary to carry out the provisions of sections one to five A, inclusive.

(6) The board may employ registered physicians or other qualified persons as examiners and may obtain X-ray plates whenever in its judgment it is necessary to assist in determining the cause, nature and degree of disability under sections four C and four D, or either, or to determine such facts at the time of re-examination under section four E. If the member's or a beneficiary's physician shall certify in writing to the board that the physical or mental condition of the member or beneficiary will not permit him to present himself for office examination he may be examined at his residence or wherever he may be. The fees of each physician or examiner employed by the board shall be fixed by the board, but shall not, in any one case, exceed ten dollars for an office examination or twenty dollars for an examination made at the residence of the member or wherever he may be other than at the physician's office; and such fees shall be in full for all services, which shall include a written report to the board and all expenses, except for X-ray plates. If two or more physicians are employed in any one case, they shall severally report to the board in writing, except as the board may otherwise direct. All such fees and expenses when approved by the board shall be paid by the commonwealth from the expense fund.

(7) The board shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the system and for checking the experience of the system.

(8) The board shall keep a record of all its proceedings.

(9) Whenever the board shall find it impossible or impracticable to consult the original record to determine the exact length of service or amount of regular compensation of a member, it may estimate such length of service or amount of regular compensation on any basis which in its judgment is fair and just.

METHOD OF FINANCING.

Assets of
system, how
credited and
financed.

Section 5A. All the assets of the system shall be credited, according to the purposes for which they are held, to one of the following four funds, namely, the annuity savings fund, the annuity reserve fund, the pension fund and the expense fund.

Annuity Savings Fund.

(1) (a) The annuity savings fund shall be the fund to which shall be paid the annuity assessments from the regular compensation of members. The state treasurer or other bonded official or employee having charge of payrolls of the commonwealth or the metropolitan district commission shall, upon notice from the board, and subject to paragraph (1) (d) of this section, withhold on each pay day five per cent of the regular compensation of members, and shall send to the board a statement or voucher for such assessments in a form prescribed by it.

(b) For the purpose of determining regular compensation of a member, in cases where a member receives a non-cash allowance in the form of full or partial boarding and housing, the state treasurer or other bonded official or employee shall add to the cash payment for regular services an amount not to exceed seven dollars per week, and the sum of said amount and said cash payment shall be the basis upon which annuity contributions shall be made. The foregoing provision shall also apply in computing pensions based upon prior service.

(c) The various amounts withheld as provided in paragraphs (1) (a) and (1) (b) of this section shall be forthwith transferred to the system and credited by the board to the accounts of the respective members so contributing, and shall be paid into and become a part of said annuity savings fund.

(d) In no case shall that portion of regular compensation of a member in excess of fifty dollars per week be subject to the deduction provided in paragraphs (1) (a) and (1) (b) of this section.

(2) In determining the amount of regular compensation payable to a member in a payroll period, the board may consider the annual rate of regular compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period, and shall make assessments from regular compensation for any period of less than a full payroll period as if an employee were a member on the first day of the payroll period. If the regular compensation is a stipulated amount or at an annual rate

paid in either case in less than twelve monthly instalments, the total annuity assessments during actual service shall be equal to the amount which would have been assessed had the regular compensation been paid in twelve monthly instalments.

(a) The assessment provided for in sections one to five A, inclusive, shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the assessment provided for in this section and shall receipt for his full compensation, and the payment of his full compensation with such assessment shall be considered a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by him during the period covered by such payment, except as to the benefits provided under sections one to five A, inclusive.

(b) A member who has been in the service of the commonwealth or the metropolitan district commission for a continuous period and contributed to the annuity savings fund during the first part thereof at the rate of three per cent, and during the remainder of said period at the rate of five per cent, may pay in one sum the difference between the amount credited to him in the annuity savings fund and the amount which would have been credited to him in said annuity savings fund if all his annuity assessments had been made at the rate of five per cent; or such member may pay, by equal monthly assessments, into the annuity savings fund, during a period of not more than five years and before attaining age sixty, such amount as will at the end of such period be equal to such difference and interest to the date of final payment. The board may temporarily suspend or terminate such additional assessments if it finds that the member is unable to continue them; provided, that the member shall not resume or continue such assessments after attaining age sixty.

(c) Any sums of money otherwise payable to the legal representatives of a deceased former employee under any provision of sections one to five A, inclusive, other than under this paragraph, shall be paid as follows:— To the beneficiary or beneficiaries, if any, designated as hereinafter provided, surviving at the death of such person as appearing in the records of the board at the time of his death, and any such payment shall bar the recovery of such sums by any other person. A member or a person mentioned in paragraph (2) (d) of this section, hereinafter called the designator, may designate one or more beneficiaries, and from time to time change the same, on a form to be furnished by the board, to receive, in indicated proportions, but not in the alternative, all sums which may be due at the designator's death; provided, that any person designated by a minor shall be of his kindred. If the beneficiary or beneficiaries pre-decease the designator and no other designation

has been made, the amount due upon the death of the designator shall be paid to the legal representatives of such person subject to the conditions hereinafter named. Any question relating to survivorship shall be finally determined by the board. If any sum payable upon the death of the designator, member or person referred to in paragraph (2) (d) of this section does not exceed three hundred dollars and if, within three months after the date of such death, no demand is made therefor by his executor or administrator, and the board has not been informed that probate proceedings have been commenced, said sum may thereupon be paid to the person or persons whom the board shall find to be entitled thereto, and any payment so made shall bar recovery thereof by any other person. Payment to the natural guardian or to the legal guardian or conservator of a minor or incompetent beneficiary shall constitute a legal settlement of all claims on account thereof, and shall bar recovery thereof by any other person.

(d) Paragraph (2) (c) of this section shall apply to a retired employee or an employee who terminates his employment or dies while in the process of becoming a member under paragraph (1) (b) or paragraph (10) (b) of section two or under section two A.

Return of Accumulated Assessments and Amounts due Estates or Beneficiaries of Deceased Former Employees.

(3) (a) Any member who ceases to be an employee while ineligible for retirement in any manner other than by retirement, shall be paid the amount of his accumulated assessments in not less than thirty days after the filing of an application therefor unless sooner reinstated in service; provided, that the board, in its discretion, may withhold such accumulated assessments for not more than one year after the member last rendered service, if said member after a previous discontinuance of service had re-entered the service and failed to redeposit the sum which he withdrew at the time of last discontinuance, as provided in paragraph (12) of section three.

(b) Should a member or person mentioned in paragraph (2) (d) of this section die, his accumulated assessments in the annuity savings fund and amounts due from the annuity reserve and pension funds, if any, shall be paid to his legal representatives, subject to paragraph (2) (c) of this section.

Provision for Payment.

(c) All amounts payable by members under any provision of paragraph (1) of this section shall be deducted from their regular compensation as often as the same is payable, and shall be immediately transferred to the annuity savings fund and credited by the board to the respective accounts of such members; provided, that any member on a leave of absence may, during such absence or within thirty days

after the termination thereof, pay to the annuity savings fund an amount equal to the sum of the assessments which would have been deducted from the regular compensation of such member if his name had appeared on the payroll for the full period of such absence, if one year or less, otherwise for one year, at the rate of regular compensation paid at the beginning of such leave of absence; provided, that no employee on leave of absence may pay into the annuity savings fund under this paragraph sums equal, in the aggregate, to more than twelve monthly instalments during any period of five consecutive years.

(d) A member may, within thirty days prior to the date of his retirement for superannuation, deposit in the annuity savings fund such sum as he may elect, but not to exceed the amount for which he will be credited in said fund upon retirement, and the amount so deposited shall be considered as a part of his regular assessments for all purposes, except that it shall not be used to increase the amount of his pension.

(e) Any employee who was employed for not less than seven months in any year prior to membership in the system may pay into the annuity savings fund in one sum the amount which would have been credited to him in the said annuity savings fund if assessments at the rate of five per cent had been paid from his regular compensation, or so much thereof as did not exceed the maximum compensation subject to annuity assessments during such period, and if such assessments had been accumulated with interest; or may pay said amount by additional assessments during a period not exceeding ten years from the date of the first additional assessment; provided, that, except as hereinafter provided all such additional assessments shall be paid before such member attains age sixty. The board may temporarily suspend or may terminate such additional assessments if it finds that the member is unable to continue them; provided, that such assessments shall not be resumed or continued after attaining age sixty; and in case all amounts have not been paid, the member shall be credited with membership service for the period covered by such additional assessments as have been paid, and said membership service shall be computed anteriorly of the date of entry in the system. When the full amount required by this paragraph has been paid the period covered by the additional assessments shall become a part of his membership service, and any period of service rendered prior to June first, nineteen hundred and twelve, shall be credited as prior service.

Additional Interest.

(4) (a) The account of a former member, or of an employee who terminates service while in the process of becoming a member under paragraphs (1) (b) or (10) (b) of section two or under section two A, shall be credited with regular

interest up to the third annual compounding date following the date when such account becomes subject to withdrawal. In case of a refund or retirement between any regular interest compounding periods, interest shall be credited to the account of such person as of the annual compounding date last preceding his retirement or his leaving the service, computed from said interest compounding date to the first day of the month in which his retirement becomes effective or he terminates service. The period of membership as provided in section four H shall be part of the interest period under paragraph (4) (a) of this section.

(b) In case a member shall make additional payments into the annuity savings fund between July first and December thirty-first of any year in any manner provided by sections one to five A, inclusive, in any amount not less than twenty-five dollars, his account shall be credited with additional interest at the rate prescribed for regular interest, computed on each monthly payment for the period from the first day of the month to December thirty-first; provided, that additional interest shall not be computed on fractions of a dollar.

Annuity Reserve Fund.

(5) The annuity reserve fund shall be the fund to which, upon the retirement of a member, shall be transferred from the annuity savings fund his accumulated deductions, and from which shall be paid all annuities and benefits in lieu of annuities.

Should a beneficiary retired on account of disability or otherwise be restored to active service with a compensation at a rate not less than the rate of his regular compensation at the time of his last retirement, his annuity reserve shall be transferred from the annuity reserve fund to the annuity savings fund and credited to his account therein.

Pension Fund.

(6) The pension fund shall consist of such amounts as shall be appropriated by the general court from time to time for the purpose of paying pensions to beneficiaries of the system.

Expense Fund.

(7) The expense fund shall be the fund to which shall be credited all moneys appropriated by the general court to pay all expenses for the administration of the system.

Appropriations.

(8) On or before the fifteenth day of October in each year the board shall certify to the state treasurer the amount of the appropriation estimated to be necessary to pay into the various funds of the system the amount payable by the commonwealth as enumerated in sections one to five A, in-

clusive, for the year beginning on the following December first, and items of appropriation providing such amounts shall be included in the appropriations for the state treasurer for the division of the state board of retirement.

Guarantee.

(9) (a) If in any fiscal year the income from investment of the annuity savings fund and the annuity reserve fund is insufficient to pay regular interest, the amount necessary to make up any such deficiency in any year shall be paid by the commonwealth as a deficiency account in the following fiscal year.

(b) The commonwealth shall make good any loss of principal from the annuity savings fund or from the annuity reserve fund in any year by appropriation in the succeeding year.

(c) The payment of all pensions, annuities, retirement allowances, refunds and any other benefits granted under any provisions of sections one to five A, inclusive, or corresponding provisions of earlier laws are hereby made obligations of the commonwealth.

(d) The board shall pay on the first day of each month the full amount of pensions and annuities then due and payable. In case the appropriation made for the pension fund is insufficient, the amount necessary to make up any such deficiency in any year shall be paid by the commonwealth as a deficiency account in the following fiscal year. The amount to be appropriated in each year shall not be less than the total pensions payable at the beginning of the fiscal year as appearing on the pension rolls, together with such amount as is estimated to be necessary to pay pensions to such beneficiaries as may be added to the pension rolls during the current year, less any mortality gains.

Management of Funds.

(10) The state treasurer shall have custody of the funds of the system, and, subject to the approval of the board, shall invest and re-invest the same, when not required for current disbursements, in accordance with section thirty-eight of chapter twenty-nine. He shall make such payments from the several funds of the system as the board shall order to be paid in accordance with sections one to five A, inclusive.

Reimbursement for County and Municipal Service.

(11) When any retired member receives a pension for any county, city or town service, except service as a teacher in the public schools as defined in section six, the commonwealth shall be reimbursed by such county, city or town for the full amount of that part of the pension incurred on account of such service, as hereinafter provided. The board

shall annually in January certify to the state treasurer a statement showing the amount of reimbursement due hereunder from any county, city or town for the state fiscal year. The state treasurer shall, forthwith upon receipt of any such statement relating to any county, notify the treasurer thereof of the amount set forth in such statement, and the county treasurer shall pay the same into the state treasury on or before November twentieth following. The state treasurer shall, forthwith upon receipt of any such statement relating to a city or town, notify the treasurer thereof of the amount set forth in such statement, and said amount shall be assessed and collected as a part of the state tax. All sums received hereunder shall be credited to the general revenue of the commonwealth.

G. L. (Ter. Ed.), 32, § 37C, etc., amended.

Application for retirement of member by head of department, etc.

Hearing.

SECTION 2. Said chapter thirty-two is hereby further amended by striking out section thirty-seven C, as appearing in section three of chapter three hundred and eighteen of the acts of nineteen hundred and thirty-six and as amended by section ten A of chapter three hundred and sixty of the acts of the current year, and inserting in place thereof the following: — *Section 37C.* (1) If the head of a department, county commissioners, mayor or selectmen, as the case may be, is or are of the opinion that a member under age sixty who has not less than the minimum amount of creditable service required to entitle him to retirement for ordinary disability or accidental disability, as the case may be, should be retired on account of ordinary disability or accidental disability, or that a member over age sixty with fifteen or more years of creditable service should be retired for superannuation or accidental disability, he or they shall file a written application with the appropriate retirement board together with a fair summary of the facts upon which such opinion is premised, and a statement that there has been delivered to the member, and such member has actually received, a true copy of said application and summary. Such member may, within five days of the receipt of the copy of such application and summary, file a written request with the said board for a hearing, public or private as he shall indicate in said request, before any action is taken relative to his retirement. If at the expiration of the said five days the member, or if he is incompetent, his wife, guardian or conservator, or a beneficiary, has not requested a hearing the facts set forth in said summary shall be deemed to be admitted by the member, but if such hearing is so requested, it shall be held not less than ten nor more than thirty days thereafter, and may be continued from time to time as the board may approve. Due notice of the time and place of such hearing shall be given to the member or his representative. The board shall certify its decision to all parties interested within five days of the rendition thereof. If the board finds that the member should be retired, he shall be retired with the retirement allowance for ordinary or accidental disability or for superannuation provided in

such case under the provisions of this chapter applicable to the system of which he is a member.

(2) If a member, under age sixty, who has completed twenty or more years of creditable service, or over said age, who has completed fifteen or more years of creditable service, is removed from his office or employment for the good of the service or is discharged, he shall be retired with a retirement allowance, if under age sixty, to consist of an annuity which shall be the actuarial equivalent of his accumulated assessments or deductions at his attained age, and a pension equal to one third of his annual rate of compensation, not exceeding twenty-six hundred dollars, on the date of such removal or discharge, or that pension to which he would have been entitled under the provisions of this chapter applicable to the system of which he was a member had he attained age sixty with the same number of years of creditable service with which he was credited on said date, whichever is the greater; provided, that the retirement allowance of such person shall not exceed that to which he would have been entitled if he had continued in service until he attained age sixty with no change in salary and his account had been credited with interest at three per cent, compounded annually, or, if over age sixty, the retirement allowance for superannuation granted under said provisions; provided, that the appropriate retirement board shall find that the removal of the member will be for the good of the service or that his discharge was not the result of moral turpitude; and provided, further, that such member shall, within ten days following his removal or discharge, have filed a written application for a hearing and that after due notice a hearing shall have been held thereon at a time and place appointed by the board, but in no event later than thirty days after the date of the receipt of such application. The head of a department, county commissioners, mayor or selectmen, as the case may be, shall, within five days after such removal or discharge, furnish said retirement board with a fair summary of the facts relating to such removal or discharge, and said summary shall be open to inspection by the member or a person designated by him in writing. Failure of the head of a department, the county commissioners, mayor or selectmen, as the case may be, to furnish the board with such summary of facts within said five days, or a finding by the board that such removal will not be for the good of the service, shall make any such removal or discharge null and void, and in such case the member shall forthwith be restored to active service without loss of compensation, or of civil service rights, if any.

(3) If the office or position of a member under age sixty who has completed twenty or more years of creditable service, or over age sixty who has completed fifteen or more years of creditable service, is abolished, or if such member, after attaining age sixty, resigns his position or fails of reappointment or re-election, or otherwise terminates his

Allowance when removed, etc., from employment.

SECTION 6. Any land taken or acquired under this act shall be managed, improved and controlled by the board of water commissioners hereinafter provided for, in such manner as they shall deem for the best interest of the district. All authority vested in said commissioners by this section shall be subject to section nine.

SECTION 7. Whenever a tax is duly voted by said district for the purposes of this act, the clerk shall send a certified copy of the vote to the assessors of said town, who shall assess the same in the same manner in all respects in which town taxes are required by law to be assessed; provided, that no estate shall be subject to any tax assessed on account of the system of water supply under this act, if, in the judgment of the board of water commissioners hereinafter provided for, after a hearing, such estate is so situated that it can receive no aid in the extinguishment of fire from the said system of water supply, or if such estate is so situated that the buildings thereon, or the buildings that might be constructed thereon, could not be supplied with water from said system in any ordinary or reasonable manner; but all other estates in said district shall be deemed to be benefited and shall be subject to the tax. A certified

list of the estates exempt from taxation under the provisions of this section shall annually be sent by the board of water commissioners to the assessors, at the same time at which the clerk shall send a certified copy of the vote as aforesaid. The assessment shall be committed to the town collector, who shall collect said tax in the manner provided by law for the collection of town taxes, and shall deposit the proceeds thereof with the district treasurer for the use and benefit of said district. Said district may collect interest on overdue taxes in the manner in which interest is authorized to be collected on town taxes.

SECTION 8. The first meeting of the voters of the territory included within said district by section one of this act shall be called on petition of ten or more legal voters therein, by a warrant from the selectmen of said town, or from a justice of the peace, directed to one of the petitioners, requiring him to give notice of the meeting by posting copies of the warrant in two or more public places in the district seven days at least before the time of the meeting. Such justice of the peace, or one of the selectmen, shall preside at such meeting until a clerk is chosen and sworn, and the clerk shall preside until a moderator is chosen. After the choice of a moderator for the meeting the question of the acceptance of this act shall be submitted to the voters, and if it is accepted by two thirds of the voters present and voting thereon it shall take full effect, and the meeting may then proceed to act on the other articles in the warrant.

SECTION 9. Said district shall, after the acceptance of this act as aforesaid, elect by ballot, either at the same meeting at which this act is accepted or at a special meeting thereafter called for the purpose, three persons to hold office, one until the expiration of three years, one until the expiration of two years, and one until the expiration of one year, from the day of the next succeeding annual district meeting, to constitute a board of water commissioners; and at every annual district meeting thereafter one such commissioner shall be elected by ballot for a term of three years. All the authority granted to said district by this act, except sections four and five, and not otherwise specifically provided for, shall be vested in said board of water commissioners, who shall be subject, however, to such instructions, rules and regulations as the district may by vote impose. At the meeting at which said commissioners are first elected and at each annual district meeting held thereafter, the commissioners shall elect by ballot a treasurer of the district, who may be a commissioner, and who shall give bond to the district in such an amount as may be fixed by the commissioners and with a surety company authorized to transact business in the commonwealth as surety. A majority of the commissioners shall constitute a quorum for the transaction of business. Any vacancy occurring in said board from any cause may be filled for the remainder of the unexpired term by said district at any legal meeting

called for the purpose. No money shall be drawn from the treasury of said district on account of its water works except upon a written order of said commissioners or a majority of them.

SECTION 10. Said commissioners shall fix just and equitable prices and rates for the use of water, and shall prescribe the time and manner of payment. The income of the water works shall be appropriated to defray all operating expenses, interest charges and payments on the principal as they shall accrue upon any bonds or notes issued under authority of this act. If there should be a net surplus remaining after providing for the aforesaid charges, it may be appropriated for such new construction as said commissioners may recommend, and in case a surplus should remain after payment for such new construction the water rates shall be reduced proportionately. Said commissioners shall annually, and as often as the district may require, render a report upon the condition of the works under their charge, and an account of their doings, including an account of receipts and expenditures.

SECTION 11. The district may adopt by-laws, prescribing by whom and how meetings of the district may be called, notified, and conducted; and, upon the application of ten or more legal voters in the district, meetings may also be called by warrant as provided in section eight. The district may also establish rules and regulations for the management of its water works, not inconsistent with this act or with any other provision of law, and may choose such other officers not provided for in this act as it may deem necessary or proper. The district shall have all the rights and privileges conferred by law upon water districts, so far as applicable.

SECTION 12. Whoever wilfully or wantonly corrupts, pollutes or diverts any water obtained or supplied under this act, or wilfully or wantonly injures any reservoir, well, standpipe, aqueduct, pipe or other property owned or used by the district for any of the purposes of this act, shall forfeit and pay the district three times the amount of damages assessed therefor, to be recovered in an action of tort, and upon conviction of any of the above wilful or wanton acts shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than six months.

SECTION 13. Upon a petition in writing addressed to said commissioners requesting that certain real estate, accurately described therein, located in said town and abutting on said district and not otherwise served by a public water supply be included within the limits thereof, and signed by the owners of such real estate, or a major portion of such real estate, said commissioners shall cause a duly warned meeting of the district to be called, at which meeting the voters may vote on the question of including said real estate within the district. If a majority of the voters present and voting thereon vote in the affirmative the district clerk shall within

ten days file with the town clerk of said town and with the state secretary an attested copy of said petition and vote; and thereupon said real estate shall become and be part of the district and shall be holden under this act in the same manner and to the same extent as the real estate described in section one.

SECTION 14. This act shall take full effect upon its acceptance by a two thirds vote of the voters of the territory included within said district by section one of this act present and voting thereon, by the use of the check list, at a district meeting called, in accordance with section eight, within four years after its passage.

AN ACT AUTHORIZING THE PURCHASE OF LANDS AND THE CONSTRUCTION OF WORKS FOR IMPROVING THE DISTRIBUTION OF WATER FROM THE SOURCES OF SUPPLY TO THE METROPOLITAN WATER DISTRICT AND MORE ADEQUATELY PREVENTING POLLUTION OF THE SOURCES OF WATER SUPPLY OF SAID DISTRICT. Chap. 460

Whereas, The deferred operation of this act would, in part, defeat its purpose, therefore it is hereby declared to be an emergency law necessary for the immediate preservation of the public convenience. Emergency preamble.

Be it enacted, etc., as follows:

SECTION 1. The metropolitan district water supply commission established under chapter three hundred and seventy-five of the acts of nineteen hundred and twenty-six, hereinafter called the commission, is hereby authorized, for the purpose of improving the distribution of water from the sources of supply to the metropolitan water district and more adequately preventing pollution of the sources of water supply of said district, to construct forthwith: (1) a pressure aqueduct from a point on the Wachusett aqueduct of said district at or near the terminal chamber, so-called, in the city of Marlborough, to a point on the Weston aqueduct in said district near its Sudbury dam in the town of Southborough; (2) additional pipe lines to supplement existing lines in the two Weston aqueduct siphons, so-called, in the towns of Framingham and Wayland; (3) a pressure aqueduct from a point on said Weston aqueduct at or near the terminal chamber, so-called, in the town of Weston, to a point near the Chestnut Hill pumping station in the city of Boston; (4) a pipe line from the Spot Pond south gatehouse, so-called, in the city of Medford, to the Spot Pond pumping station in the town of Stoneham; and (5) such other works as may be necessary or desirable to deliver the entire regular supply of the district from its Wachusett reservoir directly to the district, to eliminate from the watersheds of the district all sources of pollution, and to eliminate from regular use its Sudbury water supply system and its Chestnut Hill and Spot Pond distributing reservoirs.

So much of the first above-mentioned pressure aqueduct as crosses the Sudbury reservoir and so much of the other pressure aqueduct as lies east of a point near the terminal chamber, so-called, of the Weston aqueduct shall be constructed as pressure tunnels; and the entire works herein authorized shall so far as practicable be designed and con-

structed at such grade and of such capacity and otherwise that they can be used as a part of a future system of distribution by pressure conduits and tunnels for the entire distance between the terminal chamber, so-called, of the Wachusett aqueduct and various points of delivery which may later be constructed in substantial accordance with plans and recommendations of the joint board consisting of the metropolitan district water supply commission and the department of public health as contained in its report to the general court in the year nineteen hundred and thirty-seven, printed as house document number two hundred and sixty-two of the current year. The commission may for the purposes aforesaid acquire, install and operate such machinery, pumps and other appurtenances of any kind which may from time to time be found necessary or desirable for carrying out the purposes of this act.

For the purpose of providing for the future extension and improvement of the distribution system, the commission, on behalf of the commonwealth, may take by purchase or otherwise such lands and other property along or near the line of the proposed pressure conduits and tunnels as it may deem necessary or desirable in preparation for the future use of the same as a part of the water supply system.

The proposed works and appurtenances and property incidental thereto, when completed, shall be turned over to the metropolitan district commission, and shall be thereafter maintained by it as a part of the metropolitan water system under chapter ninety-two of the General Laws, with all the powers and duties conferred and imposed upon it by said chapter and conferred and imposed upon the metropolitan district water supply commission by this act.

In constructing the works authorized by this act and carrying out the provisions thereof, the commission shall proceed with the organization and in the manner provided by said chapter three hundred and seventy-five of the acts of nineteen hundred and twenty-six and by chapter three hundred and twenty-one of the acts of nineteen hundred and twenty-seven, with all the powers and duties conferred and imposed thereby; and the funds provided for metropolitan water supply purposes by said chapter three hundred and seventy-five and said chapter three hundred and twenty-one are hereby made available for carrying out the purposes of this act; provided, that, except as hereinafter provided, of the total amount authorized to be expended under said chapters the commission shall not, during the period beginning December first, nineteen hundred and thirty-seven, and ending November thirtieth, nineteen hundred and forty-one, make any expenditures for any purpose whatsoever under said chapters and this act, or any of them, or enter into any contracts or incur any other liabilities for services to be performed or for materials to be furnished during said period under said chapters and this act, or any of them, which, together with any

liabilities theretofore incurred by the commission thereunder and remaining unpaid or unsatisfied as of said December first, will be in excess of the sum of ten million dollars; and provided, further, that, notwithstanding the foregoing provisions, the commission may make such additional expenditures as will not exceed the amount of the proceeds of bonds issued prior to November thirtieth, nineteen hundred and thirty-seven, and remaining unexpended as of that date.

SECTION 2. The commission, acting for and on behalf of the commonwealth, may take by eminent domain under chapter seventy-nine of the General Laws, or acquire by purchase or otherwise, any land, water rights, rights of way or easements, public or private, in the cities of Boston, Marlborough, Medford and Newton and the towns of Framingham, Northborough, Natick, Southborough, Stoneham, Wayland and Weston necessary or desirable for accomplishing the purposes of this act, and may construct such works under or over any bridge, railroad, railway, boulevard or other public way, or within the location of any railroad, and may enter upon or go upon any private land, public way or railroad location for the purpose of constructing such works and of maintaining and repairing the same, and may do any other thing proper or necessary for the purposes of this act; provided, that it shall not take in fee any land of any railroad or railway corporation, and that it shall not enter upon or construct any works within the location of any railroad or railway corporation except at such times and in such manner as it may agree upon with such corporation, or, in case of failure so to agree, as may be approved by the department of public utilities; and provided, further, that it shall not enter upon or construct or repair any such works within the location of any state highway except at such time and in such manner and location as it may agree upon with the commissioner of the state department of public works, or, in case of failure so to agree, as may be approved by the governor and council; and provided, further, that any work done under this act in any street or highway shall be subject to such reasonable regulations as may be prescribed by the officers in charge of highways in the city or town in which such street or highway is located, and that in case of any dispute between the commission and any city or town the questions at issue shall be determined by the commissioner of the state department of public works.

SECTION 3. Any taking under this act may be in fee or otherwise, perpetual in duration or for a limited period of time, according as the commission shall determine and set forth in the order of taking.

All takings under this act and all proceedings in relation to or growing out of the same shall conform to chapter seventy-nine of the General Laws, except in the following particulars:

(a) The commission need make no award of damages sustained by persons or corporations in their property by any such taking.

(b) The notice required by section eight of said chapter may be given at any time within one year after the recording of the order of taking as provided in section three of said chapter.

(c) Petitions for the assessment of damages under section fourteen of said chapter may be filed within two years after the recording of the order of taking provided for in section three of said chapter. So much of section sixteen of said chapter seventy-nine, as amended, as appears after the word "vested", in the third line, shall have no application to takings under this act.

SECTION 4. The commission may at any time sell at public or private sale, or exchange or lease, any property, real or personal, or any easement or water right, whether taken by eminent domain or otherwise acquired under this act, which in the opinion of the commission is no longer needed for the purposes thereof.

SECTION 5. Whenever the commission shall dig up any street or highway as aforesaid it shall restore the same to as good order and condition as the same was in when such digging commenced, and the commonwealth shall at all times indemnify and save harmless the cities of Boston, Marlborough, Medford and Newton and the towns of Framingham, Northborough, Southborough, Stoneham, Wayland and Weston against all damages which may be recovered against them, respectively, and shall reimburse to them respectively all expenses which they shall incur, by reason of any defect or want of repair in any street or highway caused by the construction of works under this act or by the maintaining or repairing of the same; provided, that the commonwealth shall have due and reasonable notice of all claims for such damages or injury and an opportunity to make a legal defence thereto.

SECTION 6. The works and all appurtenances thereto to be constructed under this act shall be the property of the commonwealth, and the commission and the metropolitan district commission shall at all times have the right to repair the same.

SECTION 7. The supreme judicial court or any justice thereof and the superior court or any justice thereof, on the petition of the commission or of any city, town or person interested, shall have jurisdiction in equity or otherwise to enforce this act and to prevent any violation thereof, and to enforce the terms of any agreement lawfully made hereunder.

On or before January tenth in each year, the commissioners shall submit to said city a true statement of the cost of maintenance and operation of the bridge prior to January first of said year which has not theretofore been included in a statement so submitted, and within thirty days after the submission of such statement said city shall pay into the county treasury of said county said city's proportion of said cost as shown in the statement. If said city shall neglect or refuse to pay the same, the commissioners shall, after notice to said city, issue a warrant therefor, and such proportion of said cost, with interest and costs of the notice and warrant, shall be collected in the same manner as executions in actions at law and be paid into the county treasury of said county to be applied toward the payment of said

abate tax.

recently amended by section six of chapter four hundred of the acts of nineteen hundred and thirty-seven, and inserting in place thereof the following:— *Section 64.* A person aggrieved by the refusal of assessors to abate a tax on personal property which has been paid, or a tax of not more than one thousand dollars on a parcel of real estate, or a tax of more than one thousand dollars on a parcel of real estate which tax either has been paid or on account of which there has been paid a sum not less than the amount which would be assessable in said year upon a valuation equal to the average of the valuations of said parcel, as reduced by reason of abatements, if any, for the three years next preceding said year, may, within sixty days after receiving the notice provided in section sixty-three, or within ninety days after the time when the application for abatement is deemed to be refused as hereinafter provided, appeal therefrom by filing a complaint with the clerk of the county commissioners, or of the board authorized to hear and determine such complaints, for the county where the property taxed lies, and if on hearing the board finds that the property has been overrated, and that the complainant has complied with all applicable provisions of law, it shall make a reasonable abatement and an order as to costs. Whenever a board of assessors, before which an application in writing for the abatement of a tax is or shall be pending, fails to act upon said application, except with the written consent of the applicant, prior to the expiration of four months from the date of filing of such application it shall then be deemed to be refused and the assessors shall have no further authority to act thereon; provided, that during the period allowed for the taking of an appeal the assessors may by agreement with the applicant abate the tax in whole or in part in final settlement of said application, and shall also have the authority granted to them by section seven of chapter fifty-eight A to abate, in whole or in part, any tax as to which an appeal has been seasonably taken. If the list of personal property required to be brought in to the assessors was not brought in within the time specified in the notice required by section twenty-nine, no tax upon personal property shall be abated unless the board appealed to finds good cause for this delay or unless the assessors have so found as provided in section sixty-one, or unless such tax exceeds by fifty per cent the amount which would have been assessed on such estate, if the list had been seasonably brought in, and in such case only the excess over such fifty per cent shall be abated. A tax or assessment upon real estate may be abated although no list of property was brought in within the time specified by the notice required by section twenty-nine; provided, that the application for an abatement of such tax or assessment included a sufficient description of the particular real estate as to which an abatement is requested.

Upon the filing of a complaint under this section the clerk of the county commissioners or of the board authorized to hear and determine the same shall forthwith transmit a certified copy of such complaint to the assessors and the assessors or the city solicitor or town counsel may within thirty days after receipt of said copy give written notice to said clerk and to the complainant that the town elects to have the same heard and determined by the appellate tax board. Thereupon, the clerk of the county commissioners or of the board authorized to hear and determine such complaints shall forward all papers with respect to such complaint then in the file of the county commissioners or other such board to the clerk of the appellate tax board and proceedings with respect to such complaint shall thenceforth be continued as provided in chapter fifty-eight A. If upon hearing it appears that the complainant has complied with all applicable provisions of law and the appellate tax board finds that the complainant is duly entitled to an abatement, it may grant him such reasonable abatement as justice may require, and shall enter an order directing the treasurer of the town to refund said amount, if the tax sought to be abated has been paid, together with all charges and interest at five per cent on the amount of the abatement from the date of the payment of the tax. The board may make such order with respect to the payment of costs as justice may require.

SECTION 2. Said chapter fifty-nine is hereby further amended by striking out section sixty-five, as most recently amended by section one of chapter one hundred and sixty-seven of the acts of nineteen hundred and thirty-three, and inserting in place thereof the following:— *Section 65.* A person aggrieved as aforesaid may, instead of pursuing the remedy provided in section sixty-four, but subject to the same conditions, appeal to the appellate tax board by filing a petition with such board within sixty days after receiving the notice required by section sixty-three, or within ninety days after the time when the application for abatement is deemed to be refused as provided in section sixty-four. Such appeal shall be heard and determined by said board in the manner provided by chapter fifty-eight A. The board may enter such order as justice may require in the manner provided in the preceding section with respect to complaints removed from the county commissioners.

Such petition shall allege that the petitioner is unable presently to pay such amount of tax, and that, except for failure to comply with the provision of section sixty-four relative to payment of such tax, the petitioner is entitled to an appeal under section sixty-five, and shall be filed with the clerk of the appellate tax board. A notice of the filing of such petition shall be given by said clerk to the appropriate assessors within five days from the date of the filing of such petition, in such form and in such manner as the appellate tax board shall by rule provide, and a hearing, due notice of which shall have been given, shall be had on such petition not later than twenty days from the date of the filing thereof. Such petition shall be heard by a single member of said board. If such member finds the allegations in such petition to be true, he may, by order, grant leave to such petitioner to file such appeal, within ten days from the entry of said order, upon such conditions as may be imposed therein, which may require such petitioner to pay, in whole or by installments, the amount of the tax remaining unpaid, as a prerequisite to any hearing on the merits of the appeal filed under said order. If the complainant fails to comply with any of the conditions imposed in said order an appeal filed thereunder may, upon motion, be dismissed by any member of said board. If the complainant complies with the conditions imposed in said order the appeal filed thereunder shall thereafter be heard and determined by said board in the manner provided by chapter fifty-eight A. The board may enter such order as justice may require in the manner provided in section sixty-four with respect to complaints removed from the county commissioners.

Jurisdiction of appellate tax board.

SECTION 4. Chapter fifty-eight A of the General Laws is hereby amended by striking out section six, as most recently amended by section ten of chapter three hundred and twenty-three of the acts of nineteen hundred and thirty-four, and inserting in place thereof the following:— *Section 6.* The board shall have jurisdiction to decide appeals under the provisions of section forty-two E of chapter forty; of sections eleven, fourteen and twenty-five of chapter fifty-eight; of clauses seventeenth and twenty-second of section five of chapter fifty-nine; of sections seven, thirty-nine, sixty-four, sixty-five, sixty-five B, seventy-three and eighty-one of said chapter fifty-nine; of section two of chapter sixty A; of section forty-five of chapter sixty-two; of sections two, eighteen A, twenty-eight, fifty-one, sixty and seventy-one of chapter sixty-three; of section six of chapter

sixty-four; of sections five and ten of chapter sixty-four A; of sections twenty-five and twenty-six of chapter sixty-five; of section four of chapter sixty-five A; and under any other provision of law wherein such jurisdiction is or may be expressly conferred. Except as otherwise provided by law, no appeal to the board shall stay the collection of any tax or excise. Whenever the commissioner of corporations and taxation, in this chapter called the commissioner, or a board of assessors, before whom or which an application in writing for the abatement of a tax is or shall be pending, fails to act upon said application, except with the written consent of the applicant, prior to the expiration of four months from the date of filing of such application, it shall then be deemed to be denied and the taxpayer shall have the right, at any time within ninety days after the expiration of said four months, to take any appeal from such denial to which he may be entitled by law, in the same manner as though the commissioner or board of assessors had in fact refused to grant the abatement applied for. After the expiration of said four months the commissioner or the board of assessors shall have no further authority to act upon said application; provided, that during the period allowed for the taking of an appeal the commissioner or the assessors, as the case may be, may by agreement with the applicant abate the tax in whole or in part in final settlement of said application, and shall also have the authority granted to him or them by section seven of this chapter to abate, in whole or in part, any tax as to which an appeal has been seasonably taken.

AN ACT RELATIVE TO THE IMPOSITION OF EXCISE TAXES, IN
LIEU OF LOCAL TAXES, ON REGISTERED MOTOR VEHICLES
AND TRAILERS. Chap. 480

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience. Emergency preamble.

Be it enacted, etc., as follows:

SECTION 1. Chapter sixty A of the General Laws is hereby amended by striking out section one, as most recently amended by chapter one hundred and eleven of the

G. L. (Ter. Ed.), 60A, § 1, etc., amended.

Excise tax
on motor
vehicles and
trailers.

acts of the current year, and inserting in place thereof the following:—*Section 1.* Except as hereinafter provided, there shall be assessed and levied in each calendar year on every motor vehicle and trailer registered under chapter ninety, for the privilege of such registration, an excise measured by the value thereof, as hereinafter defined and determined, at the average state rate for the calendar year, as determined in the manner provided in section fifty-eight of chapter sixty-three. For the purpose of this excise the value of each such motor vehicle or trailer shall be deemed to be the value, as determined by the commissioner, of motor vehicles or trailers of the same make, type, model, and year of manufacture as designated by the manufacturer, but not in excess of the following percentages of the list price established by the manufacturer for the year of manufacture, namely:—

In the year of manufacture	90%
In the second year	60%
In the third year	40%
In the fourth year	25%
In the fifth and succeeding years	10%

The term “year of manufacture”, as used in this section, shall mean the year used by the manufacturer of the motor vehicle or trailer in connection with the designation by him or it of the model of such motor vehicle or trailer.

Nothing in this section shall be construed to prevent the board of assessors or the commissioner, as the case may be, from granting an abatement in any case in which the valuation aforesaid is in their or his opinion excessive.

The excise imposed by this section shall not apply to motor vehicles or trailers owned and registered by the commonwealth or any political subdivision thereof, or owned or controlled by a manufacturer or repairman to whom has been issued a general distinguishing number or mark under section five of chapter ninety, or to motor vehicles or trailers owned or controlled by a dealer to whom has been so issued a general distinguishing number or mark, even though one or more of the motor vehicles or trailers owned or controlled by such dealer is or are registered under section two of said chapter ninety, or to motor vehicles or trailers owned and registered by any corporation other than a domestic business, domestic manufacturing, foreign or public service corporation, or by an association, whose personal property is exempt from taxation under section five of chapter fifty-nine; provided, that the exemption from excise herein provided for motor vehicles and trailers owned or controlled and registered by manufacturers, dealers and repairmen shall not apply in case the motor vehicle or trailer while so registered shall be operated or propelled over the highways for the personal use or convenience, or for any use other than in connection with the business, of

the owner or controller as such manufacturer, dealer or repairman.

If a motor vehicle or trailer is registered after January thirty-first of any year the excise imposed by this section shall be that proportion of the excise for a full year which the number of months in said year following the last day of the month preceding that in which the motor vehicle or trailer is registered bears to twelve. If a registered motor vehicle or trailer is sold or its ownership transferred during any calendar year, and if notice to the former owner of an excise on account thereof for that year has already been issued pursuant to section two, that proportion of the excise for a full year which the number of months in said year remaining after the last day of the month in which such sale or transfer occurred bears to twelve shall be abated. If, however, the excise payer has not been notified of said excise before notice of such sale or transfer has been received by the official or officials authorized to make the assessment, only that proportion of the excise for a full year which the number of months in said year prior to the first day of the month next following the month in which said sale or transfer occurred bears to twelve shall be assessed. The excise assessed under this section shall not be less than two dollars and no abatement under this section shall reduce the excise collected to less than two dollars.

Nothing in this section shall be construed to impose an excise tax upon any motor vehicle or trailer registered and customarily kept in another state if such other state does not impose an excise, privilege or property tax or fee, in addition to a registration fee, upon motor vehicles or trailers, as the case may be, registered and customarily kept in this commonwealth. The commissioner shall determine what states do not impose such additional excise, privilege or property tax or fee, and his determination shall be final.

SECTION 2. Said chapter sixty A is hereby further amended by striking out section two, as amended by section three of chapter three hundred and eighty-four of the acts of nineteen hundred and thirty-six, and inserting in place thereof the following:— *Section 2.* If the owner of the motor vehicle or trailer registered is an individual inhabitant of the commonwealth, or a partnership, voluntary association or corporation having a principal place of business in the commonwealth or if the owner of the motor vehicle or trailer registered is not such an individual, partnership, voluntary association or corporation but the vehicle or trailer is customarily kept in any particular municipality in the commonwealth, the board of assessors shall assess the excise imposed by section one, and commit the same to the collector of taxes with their warrant for the collection thereof. Otherwise the excise so imposed shall be assessed and collected by the commissioner. The excise shall be assessed to the owner of the motor vehicle or trailer registering the same, and the registrar of motor vehicles shall promptly transmit

Collection of tax.

to the commissioner a notice of the registration of a motor vehicle or trailer subject to this excise, giving the name and residential address of the owner, if an individual, or the name and principal place of business in this commonwealth, if any, otherwise that outside the commonwealth, if a corporation, partnership or voluntary association, the municipality in which the motor vehicle or trailer is customarily to be kept if it is to be kept in the commonwealth, the name of the maker, the year of manufacture as designated by the manufacturer, and the model and type of vehicle or trailer. The commissioner may require from the owner such further information as may be necessary for the purposes of this chapter. The commissioner shall, as soon as may be, transmit to the boards of assessors the information received relative to registrations with respect to motor vehicles and trailers locally assessable sent to him by the registrar of motor vehicles, and, under such provisions as he deems best, make available to the local assessors information showing the values as determined under section one. The excise hereunder shall be due and payable at the expiration of thirty days from the date upon which the notice was issued by the collector or the commissioner pursuant to this section. The collector of taxes or the commissioner, as the case may be, shall seasonably notify the owner of the excise assessed and the due date, but failure to receive notice shall not affect the validity of the excise. The owner may within six months of the date of the issuing of the notice of assessment or of the date of sale or transfer, but not later than January thirty-first of the succeeding year, apply for an abatement to the board of assessors or the commissioner, as the case may be, and, from a decision of the board of assessors upon such application, an appeal may be taken to the county commissioners or to the appellate tax board, all in accordance with section sixty-four or sixty-five of chapter fifty-nine, or from a decision of the commissioner an appeal may be taken to the appellate tax board in the time and manner provided in the case of appeals taken pursuant to section seventy-one of chapter sixty-three. If an abatement is granted of an excise assessed by a board of assessors, any overpayment with interest thereon at the rate of six per cent per annum from the date of payment shall be refunded by the city or town treasurer from any available funds, upon certification by the collector of taxes and approval for payment as required by section fifty-two of chapter forty-one, without any appropriation therefor by the municipality. If an abatement is granted of an excise assessed by the commissioner, any overpayment with interest thereon at the rate of six per cent per annum from the date of payment shall be refunded by the state treasurer upon certification by the commissioner, without further appropriation. Owners who neglect to pay the excise assessed under this chapter shall pay interest at the rate of six per cent per annum from the time when such excise was

payable until paid, if such payment is made before the commencement of proceedings for recovery thereof, and twelve per cent if made after the commencement thereof. The notice issued pursuant to this section shall bear on its face a statement of the time within which petitions for abatement of the excise may be filed.

SECTION 3. Said chapter sixty A is hereby further amended by striking out section three, as most recently amended by section four of said chapter three hundred and eighty-four, and inserting in place thereof the following:— *Section 3.* In the collection of this excise, the collectors of taxes and the commissioner shall have all the remedies provided by chapter sixty and chapter sixty-two.

G. L. (Ter. Ed.), 60A, § 3, etc., amended.

Local collectors to have certain remedies.

SECTION 4. Said chapter sixty A is hereby further amended by striking out section four, as appearing in the Tercenary Edition, and inserting in place thereof the following:— *Section 4.* This chapter shall not be construed to alter or amend the provisions of law with respect to the registration of motor vehicles or trailers.

G. L. (Ter. Ed.), 60A, § 4, amended.

Not to affect registration of motor vehicles.

SECTION 5. Said chapter sixty A is hereby further amended by striking out section six, as amended by section five of said chapter three hundred and eighty-four, and inserting in place thereof the following:— *Section 6.* The excise locally assessable under this chapter shall be laid and collected at the residential address of the owner, if an individual, or at the principal place of business in this commonwealth, if a partnership, voluntary association or corporation, as determined by the owner's registration, except that if a motor vehicle or trailer is customarily kept in some other municipality, the excise shall be laid and collected in such other municipality.

G. L. (Ter. Ed.), 60A, § 6, etc., amended.

Tax to be collected locally.

(a) A certificate shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operation

covered by the application, if it is found that the applicant is fit, willing and able properly to perform the services proposed, and to conform to this chapter and the lawful requirements, orders, rules and regulations of the department thereunder, and that the proposed service to the extent authorized by the certificate is or will be required by the present or future public convenience and necessity; otherwise, such application shall be denied. Each application for such a certificate shall be made in writing in such form as the department may prescribe, shall be verified by oath or written declaration that it is made under the penalties of perjury, shall contain such information as the department may require, and shall be accompanied by a fee of ten dollars.

(b) Certificates shall be issued as provided in paragraph (a) of this section only after a public hearing upon ten days' notice as hereinafter provided, and at the time of issuance, and from time to time thereafter, the exercise of the privileges granted by the certificate shall be subject to such reasonable terms, conditions and limitations as the public convenience and necessity may require, including such terms, conditions and limitations as to the extension of the route or routes of the carrier as are necessary to carry out, with respect to his operations, the general orders, rules and regulations adopted and established by the department under authority of this chapter; provided, that no such terms, conditions or limitations shall restrict the right of the carrier to add to his equipment and facilities over the routes, between the termini, or within the territory specified in the certificate, as the development of the business and the demands of the public shall require. A written notice of such hearing shall be mailed by the department at least ten days before the date fixed therefor to all common carriers, including steam and electric railway companies, serving any part of the route proposed to be served by the applicant, to the commissioner of public works and to any other person who, in the opinion of the department, may be interested in or affected by the issuance of such certificate, and a copy of such notice shall be posted in the office of the secretary of the department. (c) Any regular route common carrier who, during any period of not less than sixty consecutive days, refuses to serve any point or points on any of his routes, except for the reason that the part of such route which serves such point or points is impassable because of floods, condition of the highways or other causes of like nature not within his control, shall be deemed to have abandoned said part of such route; and if, upon complaint, after a hearing, the

department finds that such carrier has so refused to serve such point or points, and not for any reason set forth in the foregoing exception, the department shall order the certificate amended and shall reissue the same with such parts of said route and such point or points omitted therefrom.

(d) If it shall appear to the department, after a hearing, that any irregular route common carrier has failed to file, before the expiration of ninety days after the effective date of his certificate as such carrier, rates covering his operations to all points covered by his certificate, or at any time thereafter, has failed for a period of not less than thirty consecutive days to keep on file rates, covering all such operations, his rights thereto to the extent of his failure to file or keep on file rates as herein set forth shall be forfeited and the department shall reissue his certificate subject to the resulting limitations.

Regulation of
business of
contract car-
riage.

Declaration of
policy in
respect thereto.

Section 4. It is hereby declared to be the policy of the commonwealth that the business of contract carriage is affected with the public interest and that the safety and welfare of the public upon the ways within the commonwealth, the preservation and maintenance of said ways and the proper regulation of common carriers using the same require the regulation of contract carriers to the extent provided in this chapter.

No person shall engage in the business of a contract carrier by motor vehicle upon any way unless there is in effect in respect to said carrier a permit authorizing him to engage in such service.

Said permits shall be issued only after hearing, upon ten days' notice as provided for hearings on application for common carrier certificates in section three, and each application therefor shall be made in the same manner as is provided in paragraph (a) of section three for applications for certificates, and shall be accompanied by a fee of ten dollars.

If upon the hearing of any application for a permit as contract carrier by motor vehicle it is found that the applicant is fit, willing and able properly to perform the service proposed, and that the proposed operation to the extent authorized by the permit will be consistent with the public interest, the safety and welfare of the public upon the ways within the commonwealth and the preservation and maintenance of said ways and the proper regulation of common carriers using the same, such permit shall be issued; otherwise, such application shall be denied.

Such permits shall be in a form prescribed by the department and may be issued for the partial exercise only of the privilege sought. The department shall specify in the permit the operations covered thereby, and at the time of issuance, and from time to time thereafter, shall attach to it such terms and conditions, not inconsistent with the status of the holder as a contract carrier, as the public interest may

require; provided, that no terms, conditions or limitations shall restrict the right of the carrier to substitute or add contracts within the scope of his permit, or to add to his equipment and facilities over the routes, between the termini, or within the territory, specified in the permit, as the development of his business and the demands of the public shall require.

Section 5. (a) No person shall for compensation sell or offer for sale transportation subject to this chapter, and no person shall make any contract, agreement or arrangement to provide, procure, furnish or arrange for such transportation or hold himself out by advertisement, solicitation or otherwise as one who sells, provides, procures, contracts or arranges for such transportation, unless such person holds a broker's license issued by the department authorizing him to engage in such transactions; provided, that no such person shall engage in transportation subject to this chapter unless he holds a certificate or permit as provided therein. In the execution of any contract, agreement or arrangement to sell, provide, procure, furnish or arrange for such transportation, no broker shall employ any motor carrier who is not the holder of a certificate or permit under which he may lawfully undertake the transportation in question. This paragraph shall not apply to any motor carrier holding a certificate or a permit or to any bona fide employee or agent of such motor carrier, so far as concerns transportation to be furnished wholly by such carrier, or jointly with other motor carriers holding like certificates or permits, or with a common carrier by railroad, express or water.

Brokers,
license of,
duties, rules
and regulations
affecting.

(b) A broker's license shall be issued to any qualified applicant therefor, authorizing the whole or any part of the operations covered by the application, if it is found that the applicant is fit, willing and able properly to perform the service proposed and to conform to this chapter and the lawful requirements, orders, rules and regulations of the department thereunder, and that the proposed service, to the extent authorized by the license, is or will be consistent with the public interest and the policy declared in this chapter; otherwise, such application shall be denied. Each application for such a license shall be made in the same manner as is provided in paragraph (a) of section three for applications for certificates, and shall be accompanied by a fee of ten dollars.

The department shall from time to time establish reasonable maximum fees, no fees in excess of which shall be charged by said brokers to motor carriers for services as brokers.

(c) The department shall from time to time prescribe reasonable rules and regulations for the protection of shippers by motor vehicle, to be observed by all persons holding brokers' licenses, and no such license shall be issued or remain in force unless the applicant or licensee shall have furnished a bond or other security to the commonwealth, approved by the department, in such form and amount

as will insure financial responsibility and the supplying of authorized transportation in accordance with contracts, agreements or arrangements therefor.

(d) The department and its agents and examiners shall have the same authority as to accounts, reports and records, including inspection and preservation thereof, of any person holding a broker's license as they have under this chapter with respect to accounts, reports and records of motor carriers subject thereto.

(e) All brokers licensed under this chapter shall file with the department tariffs in the same form and manner as prescribed by this chapter for common carriers by motor vehicle.

(f) Brokers' licenses shall be non-transferable.

Rates and
charges to be
filed with
department.

Section 6. Every common carrier by motor vehicle shall publish and file with the department and keep open for public inspection tariffs containing all the rates and charges for transportation of property and all services in connection therewith between points on its own routes, and between points on its own routes and points on the routes of any other such carrier or on the route of any common carrier by railroad, express or water when a through route and joint rate shall have been established. Such rates and charges shall be stated in lawful money of the United States. The department may reject any tariff filed with it which is not consistent with this section and with its orders, rules and regulations under this chapter.

Every such common carrier shall establish, observe and enforce just and reasonable rates, charges and classifications and reasonable regulations and practices relating thereto, which shall become effective on a date fixed by such carrier, which shall be at least thirty days after the filing of the tariff containing the same, unless suspended by the department prior to its effective date upon complaint of any person, organization or body politic, or by the department on its own motion; provided, that a rate may be established to become effective within said thirty days in order to meet the then existing rate of any competing common carrier, in which case it may become effective upon the effective date of the rate of such competing common carrier or at any time thereafter if established thereafter, upon the filing of a tariff or supplement thereto consistent with such reasonable rules and regulations as may be prescribed by the department.

The department may establish from time to time such reasonable rules and regulations as it may deem necessary pertaining to the form of tariff schedules, the time and manner of filing thereof, the suspension of rates before the same become effective, and hearings upon the validity of any filed or existing rate.

The department, in its discretion and for good cause shown, may allow publication of rates or of changes therein, upon notice less than that herein specified, or may modify

the requirements of this section with respect to posting and filing of tariffs, either in particular instances or by general order applicable to special or peculiar circumstances or conditions.

No common carrier by motor vehicle shall charge, demand, collect or receive a different compensation for transportation or for any service in connection therewith between the points enumerated in such tariff than the rates and charges specified in the tariffs in effect at the time; and no such carrier shall refund or remit in any manner or by any device, directly or indirectly, or through any agent or broker or otherwise, any portion of the rates or charges so specified, or extend to any person any privilege or facilities for transportation except such as are specified in its tariffs. Nothing in this section shall apply to the transportation of property by motor vehicle for any common carrier when the rate charged the public for transportation of such property is already published and filed with the department.

The department, upon complaint of any common carrier by motor vehicle or of any other person, or upon its own motion, after hearing, may allow or disallow any filed or existing rates and may alter or prescribe the rates of common carriers in connection with the transportation of any or all classes of property to any and all points within the commonwealth and any service connected therewith, in accordance with the legal standards provided in this chapter. Whenever, upon complaint or in an investigation on its own initiative, the department, after hearing, shall be of the opinion that any rate or charge demanded, charged or collected by any common carrier by motor vehicle, or any classification, rule, regulation or practice whatsoever of such carrier affecting such rate, charge or the value of the service thereunder, is or will be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, it shall determine and prescribe the lawful rate or charge, or the maximum or minimum rate or charge thereafter to be observed, or the lawful classification, rule, regulation or practice thereafter to be made effective.

In the exercise of the power to prescribe just and reasonable rates for the transportation of property by common carriers by motor vehicle and to disallow rates filed by any such carrier, the department shall give due consideration, among other factors, to the inherent advantages of transportation by such carrier, to the effect of any rates under consideration upon the movement of traffic by such carriers, to the need in the public interest of adequate and efficient transportation service by such carriers, to the cost of service and to the need of revenues sufficient to enable such carriers under honest, economical and efficient management to provide such service.

No common carrier by motor vehicle, unless otherwise provided by this chapter, shall engage in the transportation of property upon any way, unless the rates and charges

upon which the same is transported by said carrier shall have been filed and published in accordance with this chapter.

department.

Regulation
of business.

Section 7. (a) Every contract carrier by motor vehicle shall file with the department a copy of every contract for the transportation of property by motor vehicle in effect in connection with its operations, which shall be in writing and shall be executed by all parties thereto. The period of time during which such contract shall be in force, the charges for transportation and accessorial service, if any, and the duties and obligations of all parties thereto, shall be specifically stated therein, and said copies shall be kept on file in the department, but not open to public inspection. The department may also in its discretion require all such carriers to file schedules of their minimum charges, each of which schedules shall contain a list of all parties with whom contracts are or may from time to time be in effect, and a statement of the charge for each service performed thereunder, without designation of the party for whom the same are being or are to be performed. Such schedules shall be kept on file in the department and shall be open to public inspection. Any change in such minimum charges shall become effective not less than thirty days after the filing of such change with the department; provided, that the department may in its discretion and for good cause shown allow such change to become effective within a lesser period.

(b) No such carrier shall demand, charge or collect compensation for such transportation less than that provided for in his written contract and the minimum schedule of charges, if any, filed therewith, or prescribed by the department from time to time, and no such carrier, by the furnishing of any special service, facility or privilege, or by any other device whatsoever, shall in effect charge, accept or receive for any transportation or service less than the minimum charge, if any, established therefor under this section.

(c) Whenever, after hearing, upon a complaint or upon its own initiative, the department finds that any charge of any contract carrier by motor vehicle or any rule, regulation or practice of any such carrier affecting such charge or the value of the services thereunder for the transportation of property upon ways, contravenes the policy declared in section one or causes an undue or unreasonable advantage or preference to any such carrier in competition with any other motor carrier, the department, giving due consideration to the cost of services rendered by such carrier, may prescribe such charge, rule, regulation or practice as in its judgment may be necessary or desirable in the public interest. The charges of said contract carriers by motor vehicle for transportation shall in general be no less than those of common carriers by motor vehicle for the same or similar service.

Section 8. No carrier shall be permitted to hold both a common carrier certificate and a contract carrier permit until after having shown to the satisfaction of the department at a public hearing that operation under such certificate and permit is consistent with the public interest and with the policy declared in section one.

Hearing before issuance of permit or certificate.

Section 9. A single distinguishing plate shall be prescribed and furnished by the department annually for each of the vehicles necessary for the conduct of the business of the holder of the certificate or permit, and said plates shall be prominently displayed on the front of each such vehicle whenever operated. As used in this and the following section, the word "vehicle" shall include a tractor, with or without a semi-trailer unit. No such plate shall be transferred from one vehicle to another, except upon authority and with the consent of the department and upon payment of a transfer fee of one dollar. The annual charge for each plate shall be five dollars.

Distinguishing plate for vehicles used in business.

Section 10. Each interstate carrier by motor vehicle transporting property over the ways within the commonwealth for compensation shall apply to the department for an interstate license as defined in section two. Each application for an interstate license shall be made in the same manner as provided in paragraph (a) of section three for applications for certificates and shall be accompanied by a fee of ten dollars. Such license shall be issued in the name of the applicant. One interstate registration plate shall be issued by the department annually to each such licensee for each vehicle of said licensee operating over such ways upon payment of a fee of five dollars per plate, shall bear an identifying number, and shall be displayed as provided in section nine. Each such plate shall be accompanied by a certificate issued by the department, which shall be in the possession of the driver at all times while operating within the commonwealth and shall set forth the make, manufacturer's serial number, if any, and motor number, if any, of the vehicle with respect to which said plate shall be used. Each such plate shall be non-transferable. Whoever uses any such plate on any vehicle other than the one for which it is issued, and whoever permits such a plate issued to him to be so used, shall be punished by a fine of one hundred dollars. The license of any person violating any provision of this section shall be revoked and the surrender of all plates issued to him shall be required.

Interstate carriers to apply for license.

Section 11. Any certificate, permit or license may be assigned and transferred, in whole or in part, with the approval and consent of the department, after a public hearing at which the proposed transferee shall have established to the satisfaction of the department his willingness, fitness and ability to perform or furnish transportation for compensation under such certificate, permit or license and under this chapter.

Assignment, etc., of certificate, etc.
Hearing.

In the event of the decease, incompetency, insolvency, bankruptcy or corporate reorganization under section seventy-seven B of the bankruptcy law of the United States, of a holder of a certificate, permit or license under this chapter, the department, upon application of his executor, administrator, guardian, conservator, assignee, trustee or receiver and upon payment of the fee required by this section, shall conditionally transfer such certificate, permit or license to such fiduciary, pending the decision by the department as to the fitness, willingness and ability of said transferee to conduct the operations or business authorized by said certificate, permit or license. In the event of the decease, incompetency, insolvency or bankruptcy of a member of a partnership holding such a certificate, permit or license, the department, upon application of the surviving or remaining partners, or of the executor, administrator, guardian, conservator, assignee, trustee or receiver of the deceased, incompetent, insolvent or bankrupt partner, may make a like conditional transfer to the surviving or remaining partners.

No person shall operate upon any way as a common carrier by motor vehicle, contract carrier by motor vehicle or interstate licensee, or conduct business as a broker, except a bona fide holder of a certificate, permit or license, as the case may be, and neither by loan, assignment, option for purchase or any means whatsoever shall any person be permitted to defeat the requirements of this section with respect to the transfer of certificates, permits and licenses. The fee for the approval by the department of the transfer, in whole or in part, of any certificate, permit or license shall be five dollars. The department shall make any necessary rules and regulations to carry out the provisions of this section.

Amendment
or revocation
of certificate,
etc.

Section 12. Any certificate, permit or license may, upon application of the holder thereof and after notice and hearing as provided by paragraph (b) of section three, be amended or revoked in whole or in part.

After a hearing, at least ten days' notice whereof shall be given to the holder of the certificate, permit or license in question, the department may revoke, or suspend for such period of time as it may deem fit, any such certificate, permit or license, in whole or in part, for any wilful violation of any provision of this chapter or of the orders, rules and regulations of the department made, adopted or established under authority thereof, or of any lawful requirement, condition, limitation or restriction contained in such certificate, permit or license. Any such certificate, permit or license shall remain in effect unless and until revoked by the department as herein provided, but subject to suspension as aforesaid.

No such certificate, permit or license shall be transferred, without the consent of the department, pending any complaint or hearing upon or in which the question of its revocation or suspension depends or is involved, and the effect

of such revocation or suspension shall not be avoided by any such transfer, or by a transfer thereafter or by any other device or subterfuge.

Section 13. Motor vehicles owned by the commonwealth or any of its political subdivisions shall be subject to section eighteen, but shall be exempt from all other provisions of this chapter. Motor vehicles while engaged exclusively in the delivery of the United States mail or any other work for the United States shall be exempt from all provisions of this chapter except section eighteen, but shall be subject to said section so far as may be permissible under the constitution and laws of the United States.

State or municipal vehicles subject to section 18.

Section 14. Every motor carrier while operating on any way when requested by an inspector of the commercial motor vehicle division of the department, who is in uniform or who displays the proper insignia of his office, shall stop and submit to said inspector all transportation documents, including bills of lading, way bills and other papers relating to his cargo which are in his possession and shall submit the cargo and other contents, if any, of his motor vehicle to such reasonable examination as may be necessary to inform the inspector of the nature and weight thereof. No such inspector shall make a detailed examination of the cargo or other contents of the motor vehicle at a place where the motor vehicle does not stop for purposes of loading or delivery, and no motor vehicle shall be unduly delayed for the purpose of weighing or be required to turn back upon or substantially to detour from the route upon which it was travelling when stopped by the inspector. Any such carrier who, personally or by his agent, violates any provision of this section shall be punished by a fine of not more than twenty-five dollars.

Authority of inspectors.

Section 15. The department may, upon application therefor, when consistent with the public interest and the policy of this chapter, as set forth in section one, issue such temporary certificates to common carriers by motor vehicles and such temporary permits to contract carriers by motor vehicle as it deems necessary to meet special and individual circumstances wherein adequate service by motor carriers is not readily available. Motor carriers operating under such temporary certificates and permits shall conform to all requirements of this chapter with respect to the filing of rates, copies of written contracts, minimum schedules and other provisions relating to the justice and reasonableness of rates, rules, regulations and charges, and the department, in issuing such temporary certificates and permits, shall consider the effect thereof upon competing carriers as is required by sections three, four, six and seven in acting thereunder.

Temporary certificates, etc.

Section 16. The department may establish from time to time such reasonable rules and regulations consistent with this chapter as may be necessary to carry out its administration thereof.

Rules and regulations.

Penalty.

Section 17. In case of failure or refusal on the part of any motor carrier or broker, or his executor, administrator, guardian, conservator, assignee, receiver or trustee, to submit the accounts, records or memoranda of such carrier or broker in his possession or control to the inspection of the department or its authorized inspector, such carrier, broker, or fiduciary shall be punished by a fine of two hundred dollars for each and every day during the continuance of such offense, such fine to be paid into the treasury of the commonwealth.

Penalty for operation for over twelve hours, etc.

Section 18. No driver shall operate any motor vehicle used for the transportation of property on the ways within the commonwealth, and no owner, lessee or other person having control of any such vehicle shall require or permit any driver so to operate the same, at any time after the driver has been continuously on duty for twelve hours and before he shall have had at least eight consecutive hours off duty, or at any time after the driver has been on duty sixteen hours in the aggregate in any twenty-four hour period and before he shall have had ten consecutive hours off duty. Periods of release from duty herein required shall be given at such place and under such circumstances that rest and relaxation from the strain of the duties of the employment may be obtained. No period off duty shall be deemed to break the continuity of duty unless it be for at least three consecutive hours at a place where there is opportunity for a rest. In case of flood, storm or other unforeseen emergency, the driver may complete his run or tour of duty if such run or tour of duty would reasonably have been completed without a violation of this section, except for the delay caused by such emergency, or may make deliveries of necessities of life notwithstanding the foregoing provisions of this section. The department may make such rules and regulations as it deems necessary or advisable to insure proper enforcement of this section.

Penalty for evasion of provisions of chapter.

Section 19. No person shall (1) knowingly offer, grant or give, or solicit, accept or receive, any rebate, concession or discrimination in violation of any provision of this chapter, or (2) by means of any false statement or representation, or by the use of any false or fictitious bill, bill of lading, receipt, voucher, roll, account, claim, certificate, affidavit, deposition, lease or bill of sale, or by any other means or device, knowingly or wilfully assist, suffer or permit any person to obtain transportation of property subject to this chapter for less than the applicable rate or charge, or (3) by any such means, or otherwise, fraudulently seek to evade or defeat regulation as in this chapter provided.

Authority of department of public works not affected.

Section 20. Nothing in this chapter shall lessen or affect the authority or powers of the department of public works or of the registrar of motor vehicles under chapter ninety. No person holding a certificate or a permit authorizing the transportation of property for compensation by motor ve-

hicle within the city of Boston, shall be required to obtain a license from the police commissioner for said city on account of such transportation or the use of motor vehicles therein.

Section 21. Whoever knowingly or wilfully violates any provision of this chapter, or any order, rule or regulation adopted or established thereunder, or any lawful requirement, condition, limitation or restriction contained in any certificate, permit or license, shall be punished, except as otherwise provided in this chapter, for a first offense by a fine of not more than one hundred dollars and for any subsequent offense by a fine of not more than two hundred dollars; and, in addition, the supreme judicial and superior courts shall severally have jurisdiction in equity to restrain any such violation upon petition of the department, or of any person, organization or body politic affected by such violation.

General
penalty.

Any such person, organization or body politic may file with the department a complaint of any such violation, and the department shall promptly investigate such complaint, and may hold a hearing on the question of revocation of the certificate, permit or license of any motor carrier, broker or interstate licensee complained against and may institute in any court of the commonwealth in the county or district wherein the carrier shall have a place of business such action, suit or complaint as may be necessary to enforce compliance with any provision of this chapter or any rule, regulation or order of the department thereunder, or any lawful requirement, condition, limitation or restriction contained in any certificate, permit or license.

Section 22. If any provision of this chapter shall be declared unconstitutional, the validity of its remaining provisions shall not be affected thereby.

Validity.

SECTION 2. The department of public utilities, in this section called the department, shall forthwith upon the taking effect of this act review all existing contract carrier permits granted under chapter one hundred and fifty-nine B of the General Laws and in effect at the time of the taking effect of this act, for the purpose of classifying said permits and determining whether the services rendered thereunder constitute the service of common carrier by motor vehicle or contract carrier by motor vehicle, and, subject to the provisions of this section, shall issue without charge certificates or permits, or both, to the holders of such existing contract carrier permits in accordance with the nature of said services and consistently with its findings. The issuance of such certificates shall not be subject to paragraph (b) of section three of said chapter one hundred and fifty-nine B, as appearing in section one of this act. In connection with said review and issuance of certificates and permits the department and the holders of such existing contract carrier permits shall comply with the following procedure:—

Temporary
provisions
affecting exist-
ing contracts,
etc.

(a) Each holder of an unrestricted contract carrier permit issued upon application filed on or before April twenty-eighth,

nineteen hundred and thirty-five, shall be entitled to, and on application as provided in paragraph (e) of this section shall receive, a certificate as an irregular route common carrier which shall be subject to the requirements of section six of said chapter one hundred and fifty-nine B, as so appearing. Each such unrestricted contract carrier shall, in addition thereto, be entitled to a permit as a contract carrier by motor vehicle upon showing at a public hearing held before the department that, at some time during the six months ending on said April twenty-eighth, the applicant has, at least as to some part of his operations, operated under bona fide contracts substantially in accordance with the requirements of section seven of said chapter one hundred and fifty-nine B, as so appearing, other than the requirement therein that the contract shall have been in writing. Each unrestricted contract carrier permit granted since said April twenty-eighth shall be reviewed by the department in accordance with this section. In reviewing such application and in imposing any limitations on the certificate or permit to be issued, the department shall consider the existing operations of the holder of the existing permit, and may issue a certificate or permit, as the facts warrant.

(b) Any holder of an existing contract carrier permit restricted as to mileage, commodities or number or types of motor vehicles may apply, as provided in paragraph (e) of this section, either for a certificate as an irregular route common carrier, or for a permit as a restricted contract carrier, but not for both. If such application is made for a certificate as an irregular route common carrier, the department shall forthwith issue such certificate subject to the restrictions and limitations applicable to the existing permit, which existing permit shall be revoked upon issuance of said certificate. If such application is made for a permit as a restricted contract carrier, the department shall grant a public hearing, due notice whereof shall have been given. If, as a result of such hearing, the department finds that the nature of the applicant's operations warrant, it shall issue to said applicant a contract carrier permit with such restrictions and limitations as apply to the existing permit, and such further restrictions and limitations, if any, as the facts may warrant; or, if it is shown at said hearing that the applicant is in fact a common carrier, the department may issue to said applicant a certificate as an irregular route common carrier, subject to such restrictions and limitations as the facts may warrant.

(c) Holders of existing contract carrier permits limiting service to a specified number of customers shall upon application receive contract carrier permits limited to the number so specified.

(d) Interstate contract carriers holding existing contract carrier permits shall receive, in lieu thereof, interstate licenses, as provided in section ten of said chapter one hundred and fifty-nine B of the General Laws, as appearing in section one of this act.

(e) Each holder of a contract carrier permit referred to in paragraphs (a) and (b) of this section may apply without charge to the department in writing, within ninety days from the effective date of this act, for an irregular route common carrier certificate or for a contract carrier permit. If application is made for an irregular route common carrier certificate the same shall be issued within a reasonable time. Pending the issuance of such certificate, the applicant may operate as an irregular route common carrier subject to the restrictions and limitations of the existing permit, upon compliance with section six of said chapter one hundred and fifty-nine B, as so appearing. If application is made for a contract carrier permit the same shall be granted subject to paragraphs (a) and (b) of this section. Pending the issuance of such permit the applicant may operate as a contract carrier subject to the restrictions and limitations of the existing permit, upon compliance with section seven of said chapter one hundred and fifty-nine B, as so appearing.

(f) In the event any holder of an existing contract carrier permit fails to make application within said ninety days for a certificate as an irregular route common carrier or for a permit as a contract carrier, as hereinbefore provided, the department shall on its own motion proceed to a public hearing, of which due notice shall be given to such holder.

(g) At such hearing the department shall adduce such facts as will enable it to determine the nature of the operations of the holder of each such permit and shall issue a certificate or permit in accordance with its findings.

(h) If any holder of such a permit wilfully refuses to appear at such hearing in person or by duly authorized representative, or refuses to divulge the facts with regard to the nature of his operations as a motor carrier, the department shall forthwith revoke and cancel the existing permit.

(i) Pending the decision of the department at such hearings, the holders of such permits may operate as contract carriers under the terms of the existing permits, upon compliance with section seven of said chapter one hundred and fifty-nine B, as so appearing.

(j) The department, in connection with any certificate or permit issued under this section, may from time to time attach to the exercise of the privileges granted by such certificate or permit such reasonable terms, conditions and limitations as public convenience and necessity may from time to time require with respect to certificates and the public interest may require with respect to permits.

(k) Contract carriers who are given the status of common carriers as a result of the review of contract carrier permits under this section shall forthwith become subject to section six of chapter one hundred and fifty-nine B, as so appearing, and to the rules and regulations of the department made thereunder; except that the initial rates filed by such carriers as common carriers shall not be subject to

suspension, and that, in any proceeding before or by the department under said section six, the burden of proof shall be on any such carrier to establish the lawfulness of said initial rates. Such rates shall in no case be lower than any rates over the same route and between the same points then in force or effect as to any other common carrier by motor vehicle.

(l) Following the effective date of this act the department shall promptly notify each holder of an existing contract carrier permit of the provisions of this section.

Certificates and permits issued under this section shall, except as herein otherwise provided, be subject to said chapter one hundred and fifty-nine B, as so appearing.

Such of the words and phrases defined in section two of said chapter one hundred and fifty-nine B, as so appearing, as are used in this section shall, as so used, have the meanings set forth in said section two, unless the context clearly requires otherwise.

Existing rules,
etc., to continue
in effect until
superseded.

SECTION 3. The rules and regulations of the department of public utilities applicable to carriers of property by motor vehicle, in force on the effective date of this act, in so far as they are consistent with said chapter one hundred and fifty-nine B, as so appearing, shall remain in force until revoked, amended or superseded thereunder, and the rates and charges of such carriers shall remain in force until superseded by the filing of new rates or charges, or until suspended or revoked by said department.

Temporary
provisions
affecting
brokers.

SECTION 4. Any broker, as defined in section two of said chapter one hundred and fifty-nine B, as so appearing, in business when this act takes effect may continue such business for a period of thirty days thereafter without a license, and, if he makes an application for a license within such period, he may, under such regulations as the department shall prescribe, continue such business until otherwise ordered by the department of public utilities.

Department
of public
utilities to
investigate
existing
conditions.

SECTION 5. The department of public utilities shall forthwith upon the passage of this act enter upon a study of the business of leasing trucks and motor vehicles to motor carriers, for the purpose of determining the effect of such business upon motor carriers and for the purpose of making such recommendations, if any, as may be deemed advisable with respect to the regulation of said business.

Report to
general court.

Said department in making said study shall have access to the books and records of all departments of the commonwealth in so far as they relate to the subject matter thereof, may hold hearings, summon witnesses and require the production of books, records and papers, and may make such reasonable rules and regulations with respect to the filing of reports with it by those engaged in said business as may be necessary to assist it in carrying on said study and in making its report as required herein. Said department shall report to the general court its findings, and its recommendations, if any, together with drafts of legislation neces-

sary to carry its recommendations into effect, by filing the same with the clerk of the house of representatives on or before the first Wednesday of December in the current year.

Chap. 484

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Emergency preamble.

Be it enacted, etc., as follows:

SECTION 1. Chapter one hundred and twenty-one of the General Laws is hereby amended by striking out sections twenty-six I to twenty-six BB, inclusive, inserted by section five of chapter four hundred and forty-nine of the acts of nineteen hundred and thirty-five, and inserting in place thereof the following twenty-seven new sections:—

G. L. (Ter. Ed.), 121, §§ 26I to 26BB, stricken out, and sections 26I to 26II, inserted.

Section 26I. This section and the twenty-six following sections shall be known and may be cited as the Housing Authority Law.

Law, how cited.

Section 26J. The following words, wherever used in this section and in sections twenty-six K to twenty-six II, inclusive, shall, unless a different meaning clearly appears from the context, have the following meanings:—

Definitions.

“Housing board” or “board”, the state board of housing established under section seventeen of chapter eighteen.

“Housing authority” or “authority”, a public body politic and corporate created pursuant to section twenty-six L or corresponding provisions of earlier laws.

“United States Housing Act of 1937”, Public Act No. 412 of the 75th Congress of the United States, and any act or amendment thereof or an addition thereto.

“Federal government” shall include the United States of America, the body corporate created by section three of the United States Housing Act of 1937 known as the “United States Housing Authority” and other agency of instrumentality corporate or otherwise of the United States of America.

“Low-rent housing”, decent, safe and sanitary dwellings within the financial reach of families of low income, and developed and administered to promote serviceability, efficiency, economy and stability; together with all necessary appurtenances of such dwellings.

“Families of low income”, families who are in the lowest income group and who cannot afford to pay enough to cause private enterprise in their locality or in the same metropolitan area to build an adequate supply of decent, safe and sanitary dwellings for their use.

"Sub-standard area", any area wherein dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

"Clearance project", the demolition and removal of buildings from any sub-standard area.

"Acquisition cost", the amount prudently required to be expended by a housing authority in acquiring a low-rent housing or clearance project.

"Project", any work or undertaking: (1) to demolish, clear or remove buildings from any sub-standard area; such work or undertaking may embrace the adaptation of such area to parks, playgrounds or other public purposes; or (2) to provide decent, safe and sanitary dwellings, apartments or other living accommodations for families of low income; such work or undertaking may include buildings, land, equipment, facilities and other real or personal property for necessary, convenient or desirable appurtenances, public or private ways, sewers, water supply, parks, site preparation or improvement or administrative, community, health, recreational, welfare or other facilities; or (3) to accomplish any combination of the foregoing. Construction activity in connection with a project may be confined to the reconstruction, remodeling or repair of existing buildings. This definition shall be subject to section twenty-six CC.

Sub-standard
areas declared
to exist.

Section 26K. It is hereby declared that sub-standard areas exist in certain portions of the commonwealth, and that there is not in the commonwealth, within a reasonable distance of the principal centres of employment, an adequate supply of low-rent housing for families of low income; that this situation tends to cause an increase and spread of disease and crime and constitutes a menace to the health, safety, morals, welfare and comfort of the inhabitants of the commonwealth and is detrimental to property values therein; that this situation cannot readily be remedied by the ordinary operations of private enterprise; that a public exigency exists which makes the clearance of sub-standard areas and the provision of low-rent housing for persons of low income a public necessity; that the clearance of sub-standard areas and the provision of low-rent housing for families of low income, or either, constitute a public use for which private property may be acquired by eminent domain and public funds raised by taxation may be expended; and the enactment of sections twenty-six J to twenty-six II, inclusive, is declared to be a public necessity.

"Housing
authority",

Section 26L. There is hereby created in each city and town in the commonwealth a public body politic and cor-

porate to be known as the "Housing Authority" of such city or town; provided, that no such authority shall transact any business or exercise any powers until the need for a housing authority has been determined and until a certificate of organization has been issued to it by the state secretary, both as hereinafter provided.

establishment
of, term of
members.

Whenever the city council of a city, with the approval of the mayor, determines that a housing authority is needed therein for the purpose of the clearance of sub-standard areas or the provision of low-rent housing for families of low income, it may by vote provide for the organization of such an authority. A town may vote, at an annual town meeting or at a special town meeting called therefor, to provide for the organization of such an authority for such purpose. In determining the need for the clearance of sub-standard areas or for low-rent housing, the city council or a town shall take into consideration the need for relieving congestion of population, the existence of insanitary or unsafe inhabited dwellings, and the shortage of safe or sanitary dwellings available for families of low income at rentals which they can afford. If a town so votes, either at an annual town meeting or at a special town meeting called therefor, four members of such an authority shall be appointed forthwith by the selectmen, and one member appointed by the housing board, to serve only until the next annual town meeting, when they shall be succeeded by the elective members provided for in section twenty-six M, who shall be elected at such annual town meeting. No special town meeting for the purpose of voting on the question of establishing a housing authority shall be held less than sixty days prior to the annual town meeting. Every such authority shall be managed, controlled and governed by five members, appointed or elected as provided in this section or in section twenty-six M, of whom three shall constitute a quorum.

Section 26M. In a city, four members of a housing authority shall be appointed by the mayor subject to confirmation by the city council and one by the housing board; provided, that, of the members originally appointed, the member appointed by the board shall serve for the term of three years, and the other members shall be appointed to serve for terms of one, two, four and five years, respectively. In a town, four members shall be elected by the town and one appointed by the housing board; provided, that, of the members originally elected at an annual town meeting, the one receiving the highest number of votes shall serve for five years, the one receiving the next highest number of votes, for four years, the one receiving the next highest number of votes, for two years, and the one receiving the next highest number of votes, for one year, and that the member originally appointed by the board shall serve for three years. Thereafter, as the term of a member of any such housing authority expires, his successor shall be appointed or elected, in the same manner and by the same

body, for the term of five years. Vacancies, other than by reason of expiration of terms, shall be filled, in the same manner and by the same body, for the balance of the unexpired term. Every member, unless sooner removed, shall serve until the qualification of his successor.

As soon as possible after the qualification of the members of a housing authority the city or town clerk, as the case may be, shall file a certificate of such appointment, or of such appointment and election, as the case may be, with the board and a duplicate thereof in the office of the state secretary. If the state secretary finds that the housing authority has been organized and the members thereof elected or appointed according to law, he shall issue to it a certificate of organization and such certificate shall be conclusive evidence of the lawful organization of the authority and of the election or appointment of the members thereof. Whenever the membership of a housing authority is changed, by appointment, election, resignation or removal, a certificate and a duplicate certificate to that effect shall promptly be so filed. A certificate so filed shall be conclusive evidence of the change in membership of the housing authority referred to therein.

Removal
of members.

Section 26N. The mayor, with the approval of the city council, or the board of selectmen may make, or the mayor or the board of selectmen may receive, written charges against, and may after hearing remove, because of inefficiency, neglect of duty and misconduct in office, or any of such causes, a member of a housing authority appointed by the mayor and confirmed by the city council, elected by the town or appointed by the selectmen, as the case may be; provided, that such member shall have been given, not less than fourteen days before the date set for such hearing, a copy in writing of the charges against him and written notice of the date and place of the hearing to be held thereon, and at the hearing shall have been given the opportunity to be represented by counsel and to be heard in his own defence. Pending final action upon any such charges, the mayor, with the approval of the city council, or the board of selectmen, as the case may be, may temporarily suspend such member; provided, that if they find that such charges have not been substantiated, they shall immediately reinstate him in his office. In case of any such removal, the removing authority shall forthwith deliver to the clerk of the city or town, for filing with the certificate and with the duplicate certificate, attested copies of such charges and of its findings thereon.

The mayor, with the approval of the city council, or the board of selectmen, as the case may be, may prefer to the board written charges of inefficiency, neglect of duty and misconduct in office, or any of such charges, against the member of a housing authority appointed by the board, in which case the pertinent provisions of the preceding paragraph relative to notice, hearing, suspension, removal

or reinstatement, and filing, shall apply to proceedings before the board. If, after hearing thereon, the board finds the charges, or any of them, to have been substantiated, and that removal of the member is advisable, it shall remove such member.

Section 26O. A housing authority shall elect from among its members a chairman and a vice-chairman, and may employ counsel, an executive director who shall be ex-officio secretary of the housing authority, a treasurer who may be a member of the authority and such other officers, agents and employees as it deems necessary or proper, and shall determine their qualifications, duties and compensation, and may delegate to one or more of its members, agents or employees such powers and duties as it deems necessary or proper for the carrying out of any action determined upon by it. So far as practicable, a housing authority shall make use of the services of the agencies, officers and employees of the city or town in which such an authority is organized and such city or town shall, if requested, make available such services.

Election of chairman, vice-chairman, executive director, and treasurer.

Section 26P. Section 26S. When an area shall have been determined by a housing authority to be an area within which a project should be undertaken, said housing authority may design a project for the clearance or rebuilding of the area, or any part thereof, or for providing low-rent housing projects for families of low income in such area, and shall submit to the housing board the plans and layout of the project, the estimated cost thereof, the proposed method of financing it, and a detailed estimate of the expenses and revenues thereof. The board shall hold a public hearing upon such project, if requested in writing so to do, within ten days after the submission of the project, by the housing authority, or by the mayor or city council of the city or the selectmen of the town in which the proposed project is located, or by twenty-five or more taxable inhabitants of such city or town. If the housing board finds that the plans and layout conform to proper standards of health, sanitation and safety, that the financial plan is sound and that with the aid of any federal grant or other subsidy the revenue from the project will be sufficient to meet its annually recurring expenses, including, without limitation of the foregoing, payments in lieu of taxes, depreciation and service of its indebtedness, and that the probable costs are such that it will be practicable to rent the reconstructed or newly constructed property in accordance with the limitations set forth in section twenty-six AA without incurring an annual deficit, it shall, within thirty days after submission of the project, give written notice to the authority of its decision with respect to such project. If the housing board shall disapprove any project, it shall state in writing in such notice its reasons for disapproval. Unless and until written approval of such project is obtained, the housing authority shall not, except as otherwise provided in the following section, undertake such project. Except as herein otherwise provided, the provisions of said chapter seventy-nine and said chapter eighty A relative to counties, cities, towns and districts, so far as pertinent, shall be applicable to a housing authority, and the members of a housing authority shall act on its behalf under said chapter.

The last paragraph of section six and all of section seven of chapter fifty-nine shall, so far as apt, be applicable to payments under this section.

Contractors to pay minimum wages, etc., as required by federal act.

Section 26AA. Upon the completion or acquisition of a project by a housing authority it shall be maintained and operated by such authority. It is hereby declared to be the policy of this commonwealth that each housing authority shall manage and operate its housing projects in an efficient manner so as to enable it to fix the rentals for dwelling accommodations at the lowest possible rates consistent with providing decent, safe and sanitary dwelling accommodations, and that no housing authority shall construct or operate any such project for profit, or as a source of revenue to the commonwealth, or to the city or town in which it is located. To this end an authority shall fix the rentals for dwelling units in its projects at no higher rates than it shall find to be necessary in order to produce revenues which (together with all other available moneys, revenues, income and receipts of the authority from whatever sources derived) will be sufficient (a) to pay, as the same become due, the principal and interest on the bonds of the authority; (b) to meet the cost of insurance, and the payments in lieu of taxes provided by section twenty-six W, and to provide for maintaining, operating and using the projects and the administrative expenses of the authority; and (c) to create, during not less than the six years immediately succeeding its issuance of any bonds, notes or other evidences of indebtedness, a reserve sufficient to meet the largest principal and interest payments which will be due on such bonds in any one year thereafter and to maintain such reserve. In the operation or management of low-rent housing projects an authority shall at all times observe the

following requirements with respect to rentals and tenant selection: (a) It shall rent or lease the dwelling accommodations therein only at rentals within the financial reach of laborers and wage earners of low income. (b) It shall rent or lease to a tenant dwelling accommodations consisting of the least number of rooms which it deems necessary to provide safe and sanitary accommodations to the proposed occupants thereof, without overcrowding. (c) It shall not accept any family as a tenant in any project if the person or persons who would occupy the dwelling accommodations have an aggregate annual income in excess of five times the annual rental of the quarters to be furnished such person or persons, except that in the case of families with three or more minor dependents, such ratio shall not exceed six to one. (d) There shall be no discrimination; provided, that if the number of qualified applicants for dwelling accommodations exceeds the dwelling units available, preference shall be given to citizens of the United States, to inhabitants of the city or town in which the project is located, and to the families who occupied the dwellings eliminated by demolition, condemnation and effective closing as part of the project so far as is reasonably practicable without discrimination against persons living in other sub-standard areas within the same city or town.

In computing the rental for the purpose of this section, there shall be included therein the average annual cost, as determined by the authority, to occupants of heat, water, electricity, gas, cooking range and other necessary services or facilities, whether or not the charge for such services and facilities is in fact included in the rental.

Application of
certain laws.

Section 26BB. Except as provided in section twenty-six Q with respect to projects acquired or leased from the federal government, every project of a housing authority shall be subject to all statutes, and all ordinances, by-laws and regulations of the city or town in which it lies, relating to town planning, zoning, the construction and repair of buildings, and the protection of the public health. Chapter thirty-one and the rules and regulations made thereunder shall not apply to any officer, agent or employee of a housing authority or of the housing board or to any person employed on or in connection with, any project of a housing authority.

All projects
to include
closing, etc.,

sub-standard
areas.

Section 26CC. No project for low-rent housing or the clearance of a sub-standard area involving the construction of new dwellings shall be undertaken by a housing authority unless the project includes the elimination by demolition, condemnation and effective closing of unsafe or unsanitary buildings situated in the same city or town containing dwelling units substantially equal in number to the number of newly constructed dwelling units provided by the project; provided, that such elimination may, in the discretion of the housing board, be deferred in any city or town for a period of not more than three years from the completion of the

project if the shortage of decent, safe or sanitary housing available to families of low income is so acute as to force dangerous overcrowding of such families.

Section 26DD. The bonds, notes and certificates of indebtedness of housing authorities shall be subject to sections twenty-two to twenty-eight, inclusive, of chapter forty-four. The action required therein of a city, town or district shall be performed by the authority, and the duties of the mayor of a city or the selectmen of a town shall be performed by the members of the authority. Such bonds, notes and certificates of indebtedness, in the absence of an express recital to the contrary on the face thereof, shall constitute negotiable instruments for all purposes. They may be payable from the income of the authority or constitute a general obligation thereof, may be sold at not less than par, at public or private sale, and may mature at such time or times, and may be secured in such manner, may provide for such rights and remedies upon their default and may contain such other covenants, terms and conditions not inconsistent with law, as may be provided by vote of the authority or in any trust indenture authorized by the authority. The bonds, notes and certificates of indebtedness of housing authorities issued under sections twenty-six J to twenty-six II, inclusive, and the interest thereon shall be exempt from taxation with respect to principal and income.

Certain provisions of law to apply to bonds, etc., issued by housing authorities.

Section 26EE. Each housing authority shall keep an accurate account of all its activities and of all its receipts and expenditures and shall annually in the month of January make a report thereof to the housing board, to the director of the division of accounts in the department of corporations and taxation, and to the mayor of the city or to the selectmen of the town within which such authority is organized, such reports to be in a form prescribed by the board, with the written approval of said director. The housing board or the said director may investigate the affairs of housing authorities and their dealings, transactions and relationships. They shall severally have the power to examine into the properties and records of housing authorities and to prescribe methods of accounting and the rendering of periodical reports in relation to projects undertaken by such housing authorities. The housing board may from time to time make, amend and repeal rules and regulations prescribing standards and stating principles governing the planning, construction, maintenance and operation of projects by housing authorities. Compliance with sections twenty-six J to twenty-six II, inclusive, the rules and regulations adopted by the housing board hereunder, and the terms of a clearance or low-rent housing project approved by the housing board, may be enforced in the same manner as is provided by section twenty-six B for the enforcement of the orders of the housing board in the case of a project operated by a limited dividend corporation, and all perti-

Records and accounts.

ment provisions of said section twenty-six B shall apply in case of any non-compliance with any provision of said sections twenty-six J to twenty-six II, inclusive.

Housing
authority
liable in
certain cases.

Section 26FF. A housing authority shall be liable in contract or in tort in the same manner as a private corporation. The members of a housing authority shall not be personally liable as such on its contracts, or for torts not committed or directly authorized by them. The property or funds of a housing authority shall not be subject to attachment, or to levy and sale on execution, but if a housing authority refuses to pay a judgment entered against it in any court of competent jurisdiction, the supreme judicial court, sitting within and for the county in which the authority is situated, may, by writ of mandamus, direct the treasurer of such authority to pay such judgment. The real estate of a housing authority shall not be subject to liens under chapter two hundred and fifty-four, but the provisions of section twenty-eight of chapter one hundred and forty-nine shall be applicable to housing authorities.

Bonds, etc.,
not deemed
to be municipal
liabilities.

Section 26GG. No bond, note or other evidence of indebtedness executed, or obligation or liability incurred, by a housing authority shall be a debt or charge against the commonwealth or any political subdivision thereof other than such housing authority. Nothing in sections twenty-six J to twenty-six II, inclusive, shall be construed to obligate the commonwealth, or any political subdivision thereof other than a housing authority, or to pledge its credit, to any payment whatsoever to any housing authority or to any bondholder or creditor thereof, nor shall anything therein contained be construed as granting to any housing authority any exemption from taxation except as expressly provided herein or to render the commonwealth, or any political subdivision thereof other than a housing authority, liable for any indebtedness or liability incurred, acts done, including any taking by eminent domain, or omissions or failures to act, of any housing authority.

Invalidity of
parts of sec-
tions not to
affect remain-

Section 26HH. The provisions of sections twenty-six I to twenty-six GG, inclusive, are hereby declared to be severable and if any such provision, or the application of such provision to any person or circumstance, shall be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not be construed to affect the validity or constitutionality of any of the remaining provisions of said sections or the application of such provision to persons or circumstances other than those as to which it is held invalid. Whereas, The deferred operation of this act would, in part, defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Emergency
preamble.

Be it enacted, etc., as follows:

SECTION 1. Chapter four hundred and sixty of the acts of nineteen hundred and thirty-eight is hereby amended by striking out section one and inserting in place thereof the following:— *Section 1.* The metropolitan district water supply commission, established under chapter three hundred and seventy-five of the acts of nineteen hundred and twenty-six, hereinafter called the commission, is hereby authorized, for the purpose of improving the distribution of water from the sources of supply to the metropolitan water district and more adequately preventing pollution of the sources of water supply of said district, to construct forthwith: (1) a pressure aqueduct from a point on the Wachusett aqueduct of said district at or near the terminal chamber, so-called, in the city of Marlborough, to a point on the Weston aqueduct of said district near its Sudbury dam in the town of Southborough; (2) additional pipe lines to supplement existing lines in the two Weston aqueduct siphons, so-called, in the towns of Framingham and Wayland; (3) a pressure aqueduct from a point on said Weston aqueduct at or near the terminal chamber, so-called, in the town of Weston, to a point near the Chestnut Hill pumping station in the city of Boston; (4) a pipe line from the Spot Pond south gatehouse, so-called, in the city of Medford, to the Spot Pond pumping station in the town of Stoneham; (5) such other works as may be necessary or desirable to deliver the entire regular supply of the district from its Wachusett reservoir directly to the district, to eliminate from the watersheds of the district all sources of pollution, and to eliminate from regular use its Sudbury water supply system and its Chestnut Hill and Spot Pond distributing reservoirs; (6) an additional pressure aqueduct between the two aforesaid pressure aqueducts, which three pressure aqueducts will constitute a single continuous pressure aqueduct from said point on the Wachusett aqueduct at or near the terminal chamber to said point near the Chestnut Hill pumping station; (7) a high level distributing reservoir with connections to said continuous pressure aqueduct; (8) an enlargement of the Middlesex Fells distributing reservoir of the district; (9) an enlargement of the Waban Hill distributing reservoir of the district; and (10) such other works as may be necessary or desirable to deliver the entire regular supply of the district under increased pressure.

So much of said continuous pressure aqueduct as crosses the Sudbury reservoir and so much thereof as lies east of a point near the terminal chamber, so-called, of the Weston aqueduct shall be constructed as pressure tunnels; and the entire works herein authorized shall so far as practicable be designed and constructed at such grade and of such capacity and otherwise that they can be used as a part of a future system of distribution by pressure conduits and tunnels for the entire distance between the terminal chamber, so-called,

of the Wachusett aqueduct and various points of delivery which may later be constructed in substantial accordance with plans and recommendations of the joint board consisting of the metropolitan district water supply commission and the department of public health as contained in its report to the general court in the year nineteen hundred and thirty-seven, printed as house document number two hundred and sixty-two of the current year. The commission may for the purposes aforesaid acquire, install and operate such machinery, pumps and other appurtenances of any kind which may from time to time be found necessary or desirable for carrying out the purposes of this act.

For the purpose of providing for the future extension and improvement of the distribution system, the commission, on behalf of the commonwealth, may take by purchase or otherwise such lands and other property along or near the line of the proposed pressure conduits and tunnels as it may deem necessary or desirable in preparation for the future use of the same as a part of the water supply system.

The proposed works and appurtenances and property incidental thereto, when completed, shall be turned over to the metropolitan district commission, and shall be thereafter maintained by it as a part of the metropolitan water system under chapter ninety-two of the General Laws, with all the powers and duties conferred and imposed upon it by said chapter and conferred and imposed upon the metropolitan district water supply commission by this act.

In constructing the works authorized by this act and carrying out the provisions thereof, the commission shall proceed with the organization and in the manner provided by said chapter three hundred and seventy-five of the acts of nineteen hundred and twenty-six and by chapter three hundred and twenty-one of the acts of nineteen hundred and twenty-seven, with all the powers and duties conferred and imposed thereby; and the funds provided for metropolitan water supply purposes by said chapter three hundred and seventy-five and said chapter three hundred and twenty-one are hereby made available for carrying out the purposes of this act; provided, that, except as hereinafter provided, of the total amount authorized to be expended under said chapters the commission shall not, during the period beginning December first, nineteen hundred and thirty-seven, and ending November thirtieth, nineteen hundred and forty-one, make any expenditures for any purpose whatsoever under said chapters and this act, or any of them, or enter into any contracts or incur any other liabilities for services to be performed or for materials to be furnished during said period under said chapters and this act, or any of them, which, together with any liabilities theretofore incurred by the commission thereunder and remaining unpaid or unsatisfied as of said December first, will be in excess of the sum of fourteen million five hundred thousand dollars; and provided, further, that, notwithstanding the foregoing

provisions, the commission may make such additional expenditures as will not exceed the amount of the proceeds of bonds issued prior to November thirtieth, nineteen hundred and thirty-seven, and remaining unexpended as of that date, and, subject to the conditions hereinafter imposed, may also expend federal funds granted for the works authorized by said chapters and this act, or any of them.

SECTION 1A. Bonds of the commonwealth authorized by chapter three hundred and twenty-one of the acts of nineteen hundred and twenty-seven and issued after the effective date of this act and prior to November thirtieth, nineteen hundred and forty-one, shall be issued upon the serial payment plan in such amounts and at such times as the state treasurer shall determine, with the approval of the governor and council, to be for the best interests of the commonwealth; provided, that no portion of the principal of any such bonds so issued shall be payable earlier than five years from the date of issue thereof, any provision of law to the contrary notwithstanding.

SECTION 2. Section five of said chapter four hundred and sixty is hereby amended by inserting after the word "Northborough" in the seventh line the word: —, Natick, — so as to read as follows: — *Section 5.* Whenever the commission shall dig up any street or highway as aforesaid it shall restore the same to as good order and condition as the same was in when such digging commenced, and the commonwealth shall at all times indemnify and save harmless the cities of Boston, Marlborough, Medford and Newton and the towns of Framingham, Northborough, Natick, Southborough, Stoneham, Wayland and Weston against all damages which may be recovered against them, respectively, and shall reimburse to them respectively all expenses which they shall incur, by reason of any defect or want of repair in any street or highway caused by the construction of works under this act or by the maintaining or repairing of the same; provided, that the commonwealth shall have due and reasonable notice of all claims for such damages or injury and an opportunity to make a legal defence thereto.

SECTION 3. Said chapter four hundred and sixty is hereby further amended by adding at the end the four following new sections: — *Section 8.* The commonwealth may, for the purpose of carrying out as a federal project the works or any part thereof authorized by said chapters three hundred and seventy-five and three hundred and twenty-one and this act, or any of them, accept and use any grant of federal funds under any federal law, authority to make application therefor being hereby granted to the emergency public works commission, established under section one of chapter three hundred and sixty-five of the acts of nineteen hundred and thirty-three. No such project shall be undertaken unless it is approved, as hereinafter provided, by the said emergency public works commission

and by the governor. No payment shall be made or obligation incurred for the carrying out of any such project upon its approval by said emergency public works commission and the governor and its approval for federal aid by the proper federal authorities, until plans, specifications and contracts therefor, and alterations thereto subsequently proposed, have been approved by said emergency public works commission, unless otherwise provided by such rules or regulations as said commission may make. Said emergency public works commission shall, in addition to the powers and duties heretofore conferred and imposed upon it, exercise and perform the powers and duties hereinafter conferred or imposed upon it, and the provisions of said section which relate to action by said commission shall apply in the case of action by it under this act. Any such project, when so approved, shall be carried out in all respects subject to the provisions of the appropriate federal law providing for construction of projects of that class, and the rules and regulations made pursuant thereto, and to such terms, conditions, rules and regulations, not inconsistent with such federal laws and rules and regulations, as said commission may establish, with the approval of the governor, to ensure the proper execution of such project.

Section 9. The metropolitan district water supply commission, in addition to any powers expressly given by statute, shall have such powers as may be determined and certified by the emergency public works commission to be proper and reasonably necessary to carry out any such project. Said emergency public works commission is hereby authorized to make any necessary orders, rules and regulations, and perform all necessary actions under this act; and none of such orders, rules, regulations and actions shall be declared inoperative, illegal or void for any omission of a technical nature in respect thereto.

Section 10. In order to provide funds to carry out any such project, in anticipation of the receipt by the commonwealth of contributions therefor due from the federal government under agreements for grants, the state treasurer, with the approval of the governor, may borrow from time to time, on the credit of the commonwealth, such amounts as may be certified by the emergency public works commission to be necessary to provide such temporary funds, but not exceeding at the time of any such certification the balance of such federal grants then remaining unpaid, and the state treasurer may issue and renew notes of the commonwealth therefor, bearing interest payable at such times and at such rates as shall be fixed by him, with the approval of the governor. The term of such notes shall not exceed one year, as recommended by the governor to the general court in accordance with section 3 of Article LXII of the amendments to the constitution of the commonwealth. All notes issued hereunder shall be signed by the state treasurer,

approved by the governor and countersigned by the comptroller.

The general court, during its second annual session held in 1938, passed 498 Acts and 91 Resolves, which received executive approval, and 2 Acts from which executive approval was withheld but have become law by virtue of chapter 1, section 1, Article 2 of the Constitution of the Commonwealth.

The governor returned 22 Acts and 3 Resolves with his objections thereto in writing. Upon 18 of said Acts and all of said Resolves his objections were sustained.

Two (2) Acts entitled, respectively, "An Act to authorize the placing of the office of soldiers' relief agent of the town of Saugus under the civil service laws" (Chapter 267) and "An Act to authorize the placing of the office of superintendent of buildings of the town of Saugus under the civil service laws" (Chapter 290) were passed, but failed to receive executive approval; as, however, they were not returned, with objections thereto, within five days after they had been received in the executive department, the general court not having been prorogued in the meantime, said acts have the force of law, under the provisions of the Constitution governing such cases, and have been so certified.

Eighteen (18) Acts entitled, respectively, "An Act providing for a reduction in number of town meeting members at large in the town of Dedham and that elected town meeting members in said town shall cease to be town meeting members upon their election to certain town offices"; "An Act to authorize the placing of the office of town engineer of the town of Framingham under the civil service laws"; "An Act relative to changes of par value of capital stock of street railway companies"; "An Act relative to the filling of vacancies in the city council of the city of Gardner"; "An Act relative to the election by the city council of the city of Gardner of certain municipal officers and relative to the city solicitor of said city"; "An Act further regulating expenditures by the town of Bourne for municipal advertising purposes"; "An Act relative to the pensions of watchmen in the employ of certain cities and towns"; "An Act providing for state wide verification of voting lists"; "An Act providing that the reporter of decisions of the supreme judicial court shall be appointed by the justices of said court"; "An Act relative to the granting

of certain licenses in the city of Worcester"; "An Act relative to the membership of certain war veterans in the contributory retirement system in the city of Medford"; "An Act to authorize the Trustees of Massachusetts State College to retain and manage in a revolving fund or revolving funds the receipts from student activities"; "An Act providing for the distribution by the commonwealth to its municipalities of a sum of money from the Highway Fund"; "An Act relative to the maintenance costs of certain roads, roadways, parkways and bridges"; "An Act providing relief for persons failing to file in court within the time limited by law their petitions for the assessment of damages for takings or injuries by eminent domain"; "An Act further regulating appointments in the classified civil service"; "An Act making additional appropriations to carry out a public works program for the purpose of alleviating existing conditions resulting from unemployment and providing for the payment by the commonwealth to its municipalities of a portion of the highway fund" in which act Section 5 and the items of appropriation contained therein were disapproved; "An Act providing for the payment by the commonwealth to its municipalities of a portion of the highway fund to enable them to carry out local highway projects for the purpose of alleviating existing conditions resulting from unemployment, and providing for the reconstruction and repair of certain highways and bridges damaged by the recent storm" in which act Sections 1 and 2 and the items of appropriation contained therein were disapproved; and three (3) Resolves entitled, respectively, "Resolve providing for the reimbursement of the estate of Austin C. Adams, late of Orange, for certain inheritance taxes paid to the commonwealth"; "Resolve in favor of L. Fraser Colpitts of Shirley" and "Resolve in favor of the widow of Archibald D. Turner, former member of the police force of the metropolitan district commission" were passed and laid before the governor for his approval; were returned by him with his objections thereto, to the branch in which they respectively originated; were reconsidered, and the vote being taken on their passage, the objections of the governor thereto notwithstanding, they were rejected, and said acts, sections and resolves thereby became void.

Four (4) Acts entitled, respectively, "An Act regulating the employment of certain persons by the department of public works" (Chapter 67); "An Act relative to the use of Lake Cochituate in the towns of Framingham and Wayland for boating and fishing" (Chapter 318); "An Act to revive Myles Standish Mutual Liability Insurance Company" (Chapter 412) and "An Act relative to the practice of optometry" (Chapter 434) were passed and laid before the governor for his approval; were returned by him with his objections thereto, to the branch in which they respectively originated; were reconsidered, agreeably to the provisions of the constitution, and the vote being taken on their passage,

the objections of the governor thereto notwithstanding, they were passed, and said acts have thereby the force of law.

One (1) Act entitled, "An Act providing that the commissioner of insurance shall require of newly organized domestic insurance companies certain affidavits prior to granting to them certificates of authority to issue insurance policies or contracts" (Chapter 357) was declared to be an emergency law by the governor in accordance with the provisions of the forty-eighth amendment to the Constitution "The Referendum. II. Emergency Measures". Said Chapter 357 thereby took effect at 2.35 P.M. on May 26, 1938.

The general court was prorogued on Wednesday, August 24, 1938, at five minutes past four o'clock P.M., the session having occupied 232 days.

Chap. 506 AN ACT AUTHORIZING THE DEPARTMENT OF PUBLIC WORKS TO MAKE CERTAIN IMPROVEMENTS IN RIVERS AND STREAMS MADE NECESSARY BY HURRICANE OR FLOOD.

Emergency
preamble.

Whereas, The deferred operation of this act would tend to defeat its purpose, which in part is to protect persons, property and public ways against flood and other damage which may result from the accumulations of fallen trees, débris and other obstructions in streams on private property, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public health, safety and convenience.

The department of public works, in this act called the department, may remove fallen trees, débris and other obstructions in rivers and streams resulting from hurricane or flood and may restore or repair dams or other structures in rivers or streams, the destruction of or injury to which may have increased the danger of flood therein, and for the purpose of protection against flood may alter the course or deepen or widen the channel of any river or stream, may conduct any surface or ground water into the same, may

build retaining walls to support any part of the banks thereof, and may enter on private land for any of the foregoing purposes.
